Dear Mr. Simpson

The attached data represents street sweepings from the City of Beverly.

This set of analysis was a composite sample and discrete VOC sample and represents approximately 1000 CY and 1500 tons of Street Sweepings.

This letter certifies that the street sweeping material has not been impacted by a spill of petroleum products, hazardous materials or other impacts, and that the street sweepings are not mixed with any other materials.

If you have any questions please feel free to contact me.

Thank you,

Michael P. Collins, P.E.,
Commissioner of Public Services and Engineering
