Subject: RE: My Kisco site

Joel -- As has been discussed, EPA requires access for a minimum of three full, consecutive days, plus limited additional time to collect the radon cannisters 72 hours after their placement. A full work day for our site team is approximately 8am to 5pm/6pm.

Margo- both Nick and myself are out of the office this afternoon and evening on behalf of governmental clients. We both thought that based upon Nick's letter to you of April 1 that we were close to an accommodation.What work hours are you proposing? We still would like to reach an accommodation. We will discuss with our client wed am. And get back to you on wed. If we cannot reach an accommodation internally our client will still want a conference. Joel
