Subject: Canadian Radium & Uranium Site - CHP Specialized Labor Support - Groundwater Data

Dan,
Per your request, RST 3 has procured the services of a Weston Certified Health Physicist (CHP) in support of the Removal Assessment being conducted at the Canadian Uranium & Radium Corp. Site under TDD No. TO-0007-0023. The CHP support is being brought in to validate the radiological parameter analytical results for the groundwater data collected as part of the Removal Assessment of the Site which were submitted to an RST 3-procured laboratory. The following samples will be validated by the Weston CHP:

5 Aqueous Samples

This additional validation support would be completed as part of TDD No. TO-0007-0038 which was issued to cover the cost associated with the validation of the soil samples collected as part of the assignment. It is estimated that 15 hours will be needed to complete the additional validation. The detailed cost breakdown associated with this specialized labor request can be found in the attached document. The total cost for the additional CHP support for the Canadian Radium & Uranium Site is $1,650.00. **Therefore, RST 3 is requesting a TDD amendment for TDD No. TO-0007-0038 for 15 hours and $1,650.00.**

Please concur to this email if you are in agreement and then I will forward the necessary paperwork over to the Contracting Officer. If you have any questions or comments please let me know.

Thanks,

Timothy Benton, CHMM
