Subject: RE: Canadian Radium & Uranium Electronic Data
Attachments: ATT00001.txt

Good morning All.

I am preparing a draft report for this event and I anticipate we would like to include radiological survey maps for the data generated by the 3 survey instrumentation setups (i.e., Ludlum/3x3 (uR/hr), Ludlum/3x3 (cpm), and RSX1/4x4x16).

If you have generated the survey maps can you please share with me, and if you need us to prepare the maps can you please send us the data.

Thanks!

**** External Email ****
Dave,
Just wondering if you were able to look through the data yet? We should set up a call to discuss once you have.
Thanks,

Dan Gaughan

I am in the field all week and may be able to make a call.

Either way if you all discuss the data and let me know the range for the maps and I can do those next week.

Attached are electronic copies of a data package and a cover letter for the Canadian Radium and Uranium Project as well the EDD for the data. Hard copies will not be sent unless requested.

Please let me know if you have problems with the files or require hard copies of the data package and cover letter.

If you have questions regarding the data, please contact Cindy White at 334-270-7052.

NAREL reports data to the requestor only. If results are needed by contractors or others in your region, please forward this email along with its attachments as you deem necessary.
