Dear Colleagues,

Attached please find the draft Full SFIREG Meeting agenda scheduled for June 3-4th. Emily Ryan from FEAD/GISB will schedule an early "walk-through" of the agenda with SFIREG via a Doodle pol that will go out to you in the next day(s). I am sending this draft as early as possible to aid in discussions with your staff prior to the pre-meeting. The main topics of interest, as well as issue papers, white papers, and actions for the full committee currently on the agenda are as follows:

Main Topics:

1. Dicamba – 2019 Growing Season
2. Pesticide Use on Hemp
3. UAVs
4. Special Local Needs 24 (c)

Papers for consideration and action:

5. Issue paper: *Crop Cover Issues and Plant-Back Restrictions*
6. White paper: *Future of POINTS (Pesticide of Interest National Tracking System)*
7. Letter to EPA (December 2017)*: Pesticide Use on Cannabis – State Established Pesticide Residue Action Levels*

Please start thinking about presenters and any other topics you would like to discuss with SFIREG.

As a reminder, SFIREG operates under a grant, and as a result their chairperson puts together the public agenda to meet their priorities. If there are topics you would also like to discuss in a closed leadership meeting, please let us know ahead of time so we can craft the closed session agenda accordingly. That said, SFIREG may also cover aspects of these same items in the public session allowing states to have an open dialogues and share information publicly on their issues of concern.

Regards,

Jackie

Subject: DRAFT Agenda-Full SFIREG (June 2019)

Attached please find the draft agenda for the upcoming Full SFIREG Meeting which will be held June 3-4, 2019. This has been shared with the Regional SFIREG Representatives for comment.

As in the past, those sessions for which EPA participation is requested have a [placeholder] for EPA staff to be added.

If possible, I would like to schedule the walk through in early May.

Thank you.
