Mary Beth,
I'd like to attend the 'blue boxed' timeframes please.
Thanks,
Lisa

See below. Please share with any of your staff you feel should be involved.

Cheers

Mike

Hello Gorge Dam Project Coordination Team,

Please see attached handout for the VE study that USACE will be conducting next week on the sediment remediation and containment area. The first page is the schedule; the rest describes the VE process and is just FYI. You are invited to attend the informational session that is taking place on Monday, August 24 between 7:30 am and 11:30 am CENTRAL time. If you plan on attending this information session, please let me know by COB Wed, August 19 so that I can add you to the participant list that USACE would like me to fill out ahead of time.

The information session will go pretty much the same as the presentation did during the preliminary design review meeting. We'll be giving the USACE VE team an overview of the project (and the NSI project) and answer any questions they have. Your attendance is completely optional, and there isn't any new information that's going to be shared, so don't worry if you can't attend.

There are a couple of other sessions during the week that you are welcome to participate in – as indicated by the blue boxes on the schedule. Please note that these times will very likely change, and possibly even the day. I'll keep folks updated on the times of these two sessions throughout the week.

Thanks,
-Mary Beth
