---

Marc,

You did not respond to my scheduling question/suggestion. Any thoughts?

Regards,

Paul

Hello Moderators:

FYI. Because I will be participating in a workshop this week with a number of our panelists slated for next month's SETAC meeting (some of whom have asked me some questions), I have shared the basic meeting information spreadsheet with them. I wanted you to be aware.

Thanks,
Marc

Subject: CRRC R&D Workshop opportunity to touch base about SETAC GoM Oil Spill Focused Topic Meeting

---

Hello All,

Over the weekend as I reviewed the meeting materials for the CRRC hosted workshop on "Coordinating R&D on Oil Spill Response in the Water of Deepwater Horizon," I was pleased to see that there are many workshop participants who have also agreed to participate as moderators, panelists, or presenters in the upcoming SETAC Gulf Oil Spill Focused Topic Meeting, April 26-28, in Pensacola, FL. This provides us an excellent opportunity to interact directly this week, meet one another in person, and for me to provide you with updates on the SETAC meeting planning and answer any questions you may have. While we have important work to accomplish this week during the R&D workshop, I hope we can find some time over the next couple of days to discuss the SETAC meeting.

SETAC meeting panelists: Bill Goodfellow and I (we are the meeting co-chairs) have been working hard with the program committee to organize the meeting over the past 4 months. These activities included identifying and securing session moderators and panelists like you. If you have not yet heard from your session moderator(s), you will be hearing from them very shortly about preparing for your panel discussions. I have attached a file containing basic information about the meeting, including a general meeting outline, schedule, the panel compositions, and the platform and poster presentations that have been accepted and placed in each session for the meeting. Your moderators may already have shared this information with you, and it will be provided to all meeting attendees in the final program materials.

I'm looking forward to working with you this week in Baton Rouge and next month in Pensacola.

Safe travels,
Marc Greenberg
