Subject: Potential dates for a site visit to AMD 901/TRW/Offsite OU for EPA's Five-Year Review

Good morning, Heather, Shantal and Shau-Luen,

EPA is currently preparing the Five-Year Review (FYR) report for the AMD 901-902/TRW/Offsite OU. We are currently looking at the week of Jan. 7th or Jan. 14th to conduct the site visit. The FYR report will be issued by Sept. 30, 2019.

Would you please advise whether there are any days those two weeks that would _*not*_ work for you?

My preference is to do the site visit on Tues, Jan. 8th but this is flexible. How would this date work for your schedule?

We would visit each of the OUs, including the Signetics OU, to inspect the groundwater treatment pad at 813 Stewart Drive.

Sincerely,

Melanie
