Comments on the Draft, Preliminary
Health Assessment, Pigeon Point Landfill Site

Gerardo R. Amador, EPM
DELMARVA/DC/WV CRES

Angie Garcia, EE
Site Investigation Section

THRU: Ken Kryzczun, Chief
Site Investigation Section

I have reviewed the Draft Preliminary Health Assessment. My comments are listed below.

1. The attachment, Site Summary, should be included in the final Report.

2. Last December, Site Investigation Section unofficially informed me that they resampled the site and the results from this resample confirmed Delaware Solid Waste Authority's concerns on the proposal of this site to the NPL. I suggest that ATSDR stop any work on finalizing this Preliminary Health Assessment but follow-up the site status until an Agency decision is reached.

If you have any questions regarding these comments, you may call me at (215) 597-9238.
