Thank you. We will start circulating at EPA and then DOJ for signature. I'll keep everyone updated as it moves through our process.

Rebekah,

Attached is a scanned copy of the executed signature page. If you provide me with the address where you wish to have the original sent via overnight mail I will be happy to send it on its way.

Subject: RE: OOU - PSI Signature Page to ASAOC

Rebekah,

Wanted to give you an update of where we are in the execution process. My supervisor and I met with the Deputy General Counsel on Wednesday as scheduled. She was very receptive to our presentation and briefing but requested that she have the opportunity to review the ASAOC before giving her final approval. About 15 minutes ago, I received an email granting her blessings and approval for execution.
I immediately contacted the individuals to proceed with scheduling a time to meet with Shawn Purvis and advise that she had the go-head from the office of the GC to sign the document and that I would be happy to participate if it would help facilitate matters.

Home stretch!

Bobby Ariatti

Thank you for the update. I appreciate the challenges of moving quickly through bureaucracy.

Subject: FW: OOU - PSI Signature Page to ASAOC

Rebekah,

Wendy forwarded me your email and I thought I'd just reach out to you directly. I am in-house counsel for Northrop that supports the remediation team for the Triple Site and former TRW Microwave Sites in Sunnyvale. Unfortunately, I am in the corporate legal office that is located in Falls Church, Virginia. I am doing my best to push the management approval process through in an expedited manner but being a government contractor means we have implemented much of bureaucracy we often associate with government itself.

Tomorrow morning I have a 9:30 a.m. briefing with the Deputy General Counsel of Northrop to obtain her final approval. (And yes, I had to prepare a PowerPoint that first had to be approved by my Director) On the remediation side of the house, Mike Shannon and Shantal De Boghosian are running through a similar process. I am striving to have a signature to you by week's end but can't commit that Mike will be able to secure Shawn Purvis' signature by then. Believe me, we're trying our best to jump through all the prerequisite hoops as quickly as possible.

Feel free to give me a call should you want to discuss our internal process in more detail.

Sincerely,

Bobby Ariatti

Thank you.

Wendy, do you have any updates on the timing of Northrop's signature?
