Hi, Niloufar and Anita,

Here are my responses to Niloufar's questions:

I added the note about making sure the language met the FR and RTC, but since Anita has reviewed, I think we are OK with this language.

The 111(d) language looked good. It's public knowledge that there will be a supplemental proposal, so we can refer to that.

[redacted]

I think we contact DOI and SRP but we have to do independent outreach to the tribes and to the environmental groups, so in effect we have to call everyone on the TWG one way or the other.

I left a message for ITCA. I'll let you know what they say back. I think we have to do tribal consultation of some kind, but maybe we can fold 111(d) outreach into it as well.

Attaching next version.

Also, I pulled out the remaining comments to make it easier for us to focus on them without flipping through the pages of the document. Here they are:

Comment: Language needs to meet current language in the FR and RTC.

[redacted]

Comment: 111(d) language –

Niloufar is working on it.

Comment: Run internal responses need to be run by HQ because they were originally developed by HQ"

Colleen do you know who would review this? I am happy to coordinate it with whomever. I am pretty sure it was not my comm counterparts.

Comment: Do we just contact DOI or all of TWG?

Who will make this decision? Can I do something?

Comment: Call into Elaine Wilson of ITCA

Colleen – was this your comment? You have a call in to her?

Comment: Nevada Power or Nevada Energy –

It is NV Energy. I fixed them.

Thanks,

- - Niloufar

I'm still getting used to the new version of Office so I may have screwed up. I did make changes to the attached version, in addition to Anita's, but they did not show up in track changes. I hope my comments show up. Let me know if they don't.

Hi Niloufar and Colleen,

Attached are my edits to the comm. strat. I didn't change the name of the file. Hope that isn't a problem. Thanks!!

Hi Colleen and Anita,
I cleaned this up a bit. Please use this one to work off of.
I will vet language for the 111-D stuff with the appropriate folks. The other Q you have Colleen, have to be answered by you, Anita, or should I get others to help? They are about possible water cost increases, reductions, timeframes ….
I put in a tracker request for the web and will start working on a press release today. I will pull Margot and Brent in too.

Thanks,

- - Niloufar

Hi, Debbie,

Here is what we have started regarding the communications strategy. Maybe next week we can brainstorm on this. Anita and I have discussed getting all the various documents ready to go.
