Redactions: not responsive

Hi Debbie,

Colleen and Ann reviewed an earlier version of this notice. I incorporated their changes, [redacted]

In the attached extension notice, we figured we would not public notice the hearings (given we haven't ironed out the details yet!). If we can get Jared to sign before the 25th of Sept (preferably the 23rd or 24th), we hopefully would have sufficient time for FR publication (by Oct 11). Hearings Nov 12 - 15. Our contractor has not yet looked into availability of venues on these dates - I will have them do that on Monday.

Of course, if we stick to the week of Nov 4 (if venues are not available the week of the 12th??), we would want to include the hearing details in the extension notice, and would probably wait til the Sept 19 to sign the extension/hearing notice.

Thanks Debbie!

Hi -
I just left the ofc. I can look at the notice today or tonight and Eliz can sign Monday.
Are we announcing the hearings with the proposal? I am going to tell janet's what Jared's direction was about the timing but wasn't sure how we're handling that aspect. Thanks.
