Hi, Niloufar,

Here are my comments/suggestions and the contact information that you requested. We can discuss tomorrow. [redacted] I'm waiting for the next iteration.

I'm copying Debbie and Tamara on this version so they can see what's planned, and so they can take the opportunity to talk to Janet about calling Letty and David tomorrow night. They also need to see the responses on GHG and the "war on coal" in case we need to change anything there. Amy gave us a nice writeup for GHG so I think that one should be fine since it tracks what we are saying nationally.

Thanks for all your work on this. We are almost there.

Colleen
