Subject: Revised NGS supplemental

Hi Debbie,

Attached is the revised (in RLSO) Supplemental proposal that incorporates comments from Janet, as well as a few additional changes for clarity, consistency, etc. After your review, please feel free to send along to Janet, if you think appropriate.

Niloufar, I'm cc'ing you so that you have the final schedule for the public hearings to insert into the communication strategy.

I will be out of the office tomorrow, taking my last furlough hours.

I plan to be in on Monday and will add in any further revisions from you and/or others.

Matt Marks from OGC will be getting back to us Monday morning regarding Janet's comment to add in some language about trust responsibility. [redacted]

Redaction: not responsive

Todd Hawes will also be getting back to us Monday with his review of the reg language (I naively assumed he had already reviewed it).

Thanks!
Anita
