Yes a recent batch of funds has come thru; it was miserably late so I extended the contract end date by a few months.
Yes there are some existing funds that pertain to COVID delayed inspections; those are work in progress.

Gur at SB corrals the RB cats and their requests. No you don't have to push on RBs, nor PG.
FYI.... lists below show recent RB requests for permit writing and pretreatment inspections starting with recent batch of funds.

Thanks PK,

Do you know whether the permits they were supposed to write are still the ones they are going to write? I know I had at least 2 in R3 that they were supposed to write and were just waiting for the money (which was, if I recall, supposed to arrive 6-8 months ago).

So do I need to make sure they put their request in again, or are those previous "approvals" still going to be honored?

Thanks,
Janet

R9 NPDES colleagues – As you heard on the Round Table call today, Calif. has provided funding for contractor inkind support to CA NPDES program. This is via Region 9 Contract to PG Environmental.

Based on technical direction from Task Order COR (me), PG is directed to communicate directly with each RB for their needs. PG also coordinates with SB to central communications for RB specific needs from contractor....as well as each RBs PIP.

There are 3 types of tasks:
-coding (renewals or new issued) permits into ICIS
-inspection support
-permit writing

Contract period of performance ends 2/28/2022.

Typically this runs very smoothly. IF you or your RB encounters issues regarding contract matters then please contact me or Gur Chand at SB.

Many thanks,

Hi Amelia,

During today's roundtable, you identified several new liaisons to the regional boards. I missed one or two—would you be able to send me the updated list please?

Thank you!
