Subject: RE: FY 16'/17' Pretreatment Review Task Swaps

Amelia,

Per our conversation on Friday, December 16th, this email confirms my agreement with a 'no cost' change to the Task Order that replaces the Moorpark full program review with a PCI at Ventura as requested in Russell Norman's email of November 3, 2016. Let me know if you need any additional information from me in order to complete this swap of tasks.

Sincerely,

Subject: FW: FY 16'/17' Pretreatment Review Task Swaps

Amelia,

I don't know if you have had a chance to talk to Russell about this. I'm okay with the proposed swaps. I'm not sure how Russell came up with the cost delta in his email, and I had interpreted it as an increase in cost (which I think would require modification to the contract), however, I show it as being less costly by $1,072.

Thanks,

Chuck Durham | Director

Subject: FY 16'/17' Pretreatment Review Task Swaps

Hello Chuck & Amelia:

As we discussed, there are several review tasks on the FY 16'/17' contractor task list that are not ready. These include the Moorpark full review and Eureka Local Limits review. In addition, the Saugus & Valencia WRPs Local Limits review should only require a 1X review task to confirm their conclusions that no changes are needed.

As a result, we have two element review tasks and a full review task freed up to swap out for the above noted tasks.

For the element review tasks, we would like to swap the Eureka LLs review for the Malaga LLs review and, swap the 1x element review task from Saugus & Valencia WRPs LLs review for the Davis LLs review.

For the full review task, we would like to swap the Moorpark full review for a PCI at the Ventura WRP facility in Region 4, if possible. The cost delta on this swap would be +$1,328.

Please let me know if these swaps are acceptable. Once we confirm the swaps, I will send Chuck the applicable documents for the reviews.

Thank you,

W. Russell Norman, P.E.
