Subject: RE: Local Limit packages

Hi Chuck,

Thanks for the heads-up. I'm cc-ing Russell, who may have copies of the local limits and/or program submissions (I don't), or can request the packages from the RBs. Please let me know if there are any delays or if there's anything else I can help with.

Looking forward to the kick-off call tomorrow!

Best,
Amelia

Subject: Local Limit packages

Hi Amelia,

Do you have the submittals for any of the 3 local limit tasks that are part of this year's work order: Eureka, LACSD, Camarillo?
Just thinking we could get started on 1-2 of the non-travel items this week if they are available.

For that matter, if you have the program submissions for Moorpark or City of Victorville, we could start on those?

Also, when you respond to this you are going to get an automated message that I'm out this week,...but haven't left the office yet, and will be checking emails,..and will be available for the call tomorrow morning. Just thought I would mention so that the 'out of office' reply does make folks nervous about possibly needing to re-schedule. ☺

Thanks,
