CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

Thanks!! I suspect you are getting similar questions from others in EPA. Are you able to share the statistical approach used to develop sampling pool size?

Hello Darren,

I have seen and heard a couple times your team is looking for the attached information. Thanks for your patience. I have attached our Attachments 4 and 5 from our formal sampling guide which detail the Filter Performance Assessment and Evaluation.

FYI – JP had a last min priority issue which will have him out of the office for the next week. If you have any pending requests into JP which are due in the next 7 days, please let Aaron Ward and I know as it was not a planned absence so we did not have time to transfer assignments due dates.

Jerry
