Subject: Re: Coordination for September 7 & 8 Site Visit for Dr. Becker

Hi Susan,

Thanks for the productive discussion on phone call.

Hi All,

Looking at the planning for the field trips. As we discussed, Dr. Scott Rowland will be leading the field trips for DOH and he is available on Wednesday, September 8. Scott is an old hand at geology field trips and has a Geology Field Trip Guide that can be downloaded at:
https://hahana.soest.hawaii.edu/agouroninstitutecourse/EOahuguide.pdf

Scott has a good working relationship with the environmental manager at the Quarry and will be instrumental in gaining access there. In discussions yesterday with Scott, he suggested Makapuu has good exposures for viewing Oahu geology and it seems that would work well for the afternoon session. But at this point I think it would be best if Scott enters the conversation with his recommendations and suggested schedule.

Susan would also like to get a head count for the Red Hill site visit. It is best if the group is limited to 8-10 people, so priority should go to those that have not previously had the opportunity to visit the Red Hill Site. For DOH, I would suggest Anay Shende (pending approval of his superiors, whom I am sure will grant it). If the managers from the respective organizations could provide names to Susan that would be great.

Susan, let me know if I left anything out.

Thanks,
Bob W.

Subject: [EXTERNAL] Coordination for September 7 & 8 Site Visit for Dr. Becker

Good Afternoon Bob,

Checking in to see if you would be available to discuss the upcoming site visit for Dr. Becker. We have drafted an agenda and wanted to confirm DOH will coordinate the site visit to the Quarry. We have proposed a date and time, 8 SEP 21 from 1000-1200.

Please let us know if this will work for both DOH and the Quarry or if we need to adjust the schedule; also, if you have questions or would like to schedule a call to discuss.

Thank you.
v/r,
Susan Lohr
