Yes, that water loss audit presentation at the conference was one that I was particularly interested in. I will follow your lead and attend the Red Hill meeting for the same time period on the 15th.

Thanks for the information!
Anna

Hi Anna – Corine was telling me that the Admiral would be at the meeting on the 15th. According to the agenda and past meetings, he comes in the morning and leaves before the technical discussions start. So, I'm going to go at 8:30 and leave in time for the 11:15 water loss audit presentation at the conference.

The 2 topics in the afternoon on Wednesday are for the tanks. The groundwater protection sessions are for Section 6 & 7 on Thursday morning, 8-9 am. You're scheduled to speak at 8:45 am on Thursday.

Please let me know if you have additional questions.
~Joanna

Joanna,
I am considering attending the afternoon of Feb. 15 for the Red Hill meetings. Could you tell me more about the destructive testing agenda item and the risk & vulnerability assessment agenda item? Do you know any specifics of what will be discussed?
Thanks very much.
Anna

Hi Corine,
As you may recall, those are the same days that I am registered to attend and speak at the Pacific Water Conference. I'll take a look at the conference agenda and see if there's a good time for me to break away from the conference so that I can attend the Red Hill meeting for perhaps half a day.

Thanks for letting me know.
Anna
