Debra,

Attached please find the following photographs, each of which contain the appropriate metadata consistent with ABSCO's October 11, 2018 submission:

Tarp 2.jpg March 15, 2018 6:49 pm (inadequate cover by tarp)
Buzzards on Tarp 3-17-16 (attraction of buzzards to inadequately covered waste)

Please note in response to an email sent today by Dale Rhines requesting photographic evidence taken between December 2016 and the current date, that two of these photographs (Tarp 1 and Tarp 2) were taken on March 15, 2018.

We will continue to inquire as to whether members of the community may have taken additional photographs since December 2016 but wanted to bring to your attention that ABSCO had already submitted these two that are responsive to the request.

Please let me know if these materials raise any question or if you have difficulty downloading these or other photos or data submitted by ABSCO.

Sincerely,

Marianne Engelman Lado

Marianne – as I requested in the email I send earlier today, we cannot access these photographs. If you could please send them as individual attachments, with the metadata intact, it would be very helpful. Thank you.

Subject: Ashurst Bar/Smith Community Organization March 5 2018 Complaint, Case No. 16R-17-R4: Supplementary Materials: 3rd of 3

This is the third of three emails submitted with attachments in further support of Ashurst Bar/Smith Community Organization March 5 2018 Complaint, Case No. 16R-17-R4.

These photographs document and support testimony by Ashurst Bar/Smith community members that waste is not adequately covered at night, that tarps do not adequately cover the open face of a working cell, and that the exposed waste attracts buzzards. Community members have raised these issues repeatedly over time but ADEM nonetheless granted Stone's Throw a variance to use alternate daily cover. Attached please find photographs from 2016 and 2018. These photographs were taken by Ex. 6 Personal Privacy (PP)
