Subject: Discuss Oxitec consideration for what would require an EUP amendment
Attachments: Protocol Changes Requested by Oxitec for 93167-EUP-2_9Nov2020.pdf
Location: Microsoft Teams Meeting

Start: 11/18/2020 7:00:00 PM
End: 11/18/2020 8:00:00 PM
Show Time As: Tentative

Required Attendees: Striegel, Wiebke; Pierce, Amanda; Welch, Kara; Wozniak, Chris; Kough, John; Mendelsohn, Mike; Reynolds, Alan

All,

Oxitec has some questions (see attached PDF) about what things they can change in their section G/processes and wonder which changes would require review and amendment. Password for the attached document will be sent in a separate email. In addition to what is in the PDF we will discuss the following topics:

1. Oxitec is looking to add additional sites in US, mainly in California, what do we need from them to do this? Updated ESA considerations to make sure there are no endangered species in the area?
2. Oxitec also acknowledges the "open" issues with protein issues/hazards and is wondering what they can do to shore these up. Wiebke, I believe this gets to the studies you did not find acceptable to be used in the human health RA.
