PLAINTIFF'S UNITED STATES' OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

APPENDIX A

List of Exhibits

Exhibit No.	Description
1	June 22, 2004 Declaration of David W. Schnare Regarding Production of Electronic Documents From EPA Collections, filed as Exhibit B to United States' Opposition to Defendants' Motion to Compel Production of Electronic Information, *United States v. Cinergy Corp.*, No. IP99-1693 (S.D. Ind.)
2	April 22, 2011 Declaration of Bethanne Walinskas
Attachment A	Bates Number Prefix List for documents produced on external hard drive directories EPA, IL-EPA and APC

Exhibit No.	Description
Attachment B	July 2000 First Production Index of Documents for U.S. EPA's Office of Air Quality, Planning and Standards (OAPQS)
Attachment C	July 2000 First Production Index of Documents for U.S. EPA's Office of Enforcement and Compliance Assurance (OECA) and Office of General Counsel (OGC)
Attachment D	July 2000 First Production Index of Documents for U.S. EPA Region 3
Attachment E	July 2000 First Production Index of Documents for U.S. EPA Region 4
Attachment F	July 2000 First Production Index of Documents for U.S. EPA Region 5
Attachment G	Declarations from U.S. EPA Headquarters and Regions 1-10 employees regarding Second Round Production
Attachment H	Bates Numbering Key for FRC Directory on external hard drive produced to DTE Energy
Attachment I	September 20, 2004 Memo to U.S. EPA employees re: Protocol for Stage 2 of Court-Ordered Electronic Production conducted in *United States v. Cinergy Corp.*, No. IP99-1693 (S.D. Ind.)
Attachment J	United States' Response to Defendants' Request for Production of EPA Shared Electronic Systems served on parties in *United States v. Cinergy Corp.*, No. IP99-1693 (S.D. Ind.) (July 10, 2004)
Attachment K	Index of Bates Prefixes for documents on CINELP Directory on external hard drive produced to DTE
Attachment L	April 15, 2011 E-mail from K. Furrie to B. Rosser, M. Bierbower & P. Johnson attaching list of owners/custodians for documents produced by United States
3	April 22, 2011 Declaration of Mark J. Palermo
4	Excerpts from transcript to January 19, 2011 hearing on Plaintiff's Motion for Preliminary Injunction, *United States v. DTE Energy Co.*, CA No. 10-13101 (E.D. Mich.)
5	Transcript to February 22, 2011 Telephonic Conference, *United States v. DTE Energy Co.*, CA No. 10-13101 (E.D. Mich.)
6	Order granting Motion for Admission Pro Hac Vice of Mark B. Bierbower as counsel for Duke Energy Corp. filed in *United States v. Duke Energy Corp.*, No. 1:00-cv-1262 (M.D.N.C.) (July 5, 2001)

Exhibit No.	Description
7	Order granting Motion for Admission Pro Hac Vice of Mark B. Bierbower, F. William Brownell, Makram B. Jaber, Kevin L. Fast and Craig S. Harrison as counsel for Ohio Edison Co. filed in *United States v. Ohio Edison Co.*, No. C2-99-1181 (S.D. Ohio)
8	List of attorneys entering appearance in *United States v. East Kentucky Power Coop., Inc.*, 5:04-cv-00034-KSF (E.D. Ky.)
9	Transmittal letters between M. Bierbower and P. Brooks and B. Walinskas of U.S. DOJ re: inadvertent production of documents on external hard drive produced by United States
10	Unopposed Motion for Extension of Deadlines filed by United States in *Duke Energy Corp.*, No. 1:00-cv-1262 (M.D.N.C.) (Dec. 3, 2001)
11	United States' Motion Status Report Pursuant to Entry of July 22, 2004 (Dkt. 213) filed in *United States v. Cinergy Corp.*, No. IP99-1693 (S.D. Ind.) (Aug. 9, 2004)

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 1

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF INDIANA

UNITED STATES OF AMERICA, et al. Plaintiffs, v. CINERGY CORP., et al., Defendants.	)	Civil Action No. IP99-1693 C-M/S

EXHIBIT B TO

THE UNITED STATES' OPPOSITION TO DEFENDANTS'
MOTION TO COMPEL PRODUCTION OF ELECTRONIC INFORMATION

DECLARATION OF DAVID W. SCHNARE
REGARDING PRODUCTION OF
ELECTRONIC DOCUMENTS FROM EPA COLLECTIONS

I, David W. Schnare, do hereby declare:

1. I am an attorney-advisor working for the U.S. Environmental Protection Agency's ("EPA" or "the Agency") Air Enforcement Division in the Office of Enforcement and Compliance Assurance ("OECA"). My duties include responsibility for mastery of the NSPS regulatory program as well as the history of the NSR/PSD programs. I am and have been responsible for managing production in the coal-fired power plant cases since commencement of the litigation and have testified with regard to privileges asserted during production in the NSR coal-fired power plant cases.

2, During the pendency of the power-plant litigation, I have been responsible for the search at relevant EPA offices for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in enforcement cases commonly referred to by EPA as the Power Plant Enforcement Initiative, and involving the following cases: *United States v. Cinergy* (S.D. Indiana, No. IP99-1693 C-M/S), *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No.

IP99-1692 C-M/S). I am aware of the subject matter of these actions, namely, they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSF") and Standards for New Source Performance ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and/or operated by Defendants, and am familiar with the kinds of information sought by the Discovery Requests.

3. Since November, 1999, when the United States filed against Defendant Cinergy, and other power plant cases, the United States has received 19 formal production requests from the coal-fired power plant defendants and countless informal and supplemental requests. In response, over 1,115 federal employees and contractors nationwide have conducted five major rounds of document production, searching for responsive material in over 66 EPA offices and eleven Federal Records Centers and expending over 112,000 hours (54 work years) of time and more than $6 million of direct expenses.

4. Over the first four rounds of production, the United States examined more than 32.5 million pages of potentially responsive documents dating from as early as 1970. In these rounds the United States produced over 3.1 million pages of documents that, in the United States' view, constitute a complete history of the Federal NSR/PSD and NSPS program and which includes every official decision or policy statement offered by EPA on the implementation of these programs, especially as regards coal-fired power plants.

5. Cinergy made its first request for production on July 14, 2000, the sixth of 12 defendant production requests that formed the universe of topics EPA sought in its First Round of production. Believing that it would find all responsive and relevant documents in selected

offices of the Agency, EPA restricted initial production to its Headquarters offices and the three Regional offices responsible for the initial defendants, including Cinergy.

6. In the matter of *United States v. Illinois Power*, where the defendants had the benefit of production from the first four rounds of production, the more than 2,000 defendants exhibits included only two documents not from the first round of production, and those were documents subsequently produced from Headquarters offices under supplemental production.

7. Under a January 2001 Court order, EPA commenced a second round of production, extending its search to all ten EPA Regional Offices and providing for supplemental production of documents from those offices taking part in the first round. At this point, and reflecting agreements made with defendants involved in active litigation (but not including Cinergy), EPA did not require employees to produce documents stored in electronic form and held in collections accessible only to the individual employee. Also under the January 2000 Court order, EPA undertook a third round of production from the eleven Federal Records Centers, thus producing from the entire historical collection of records under EPA control.

8. In response to a number of more limited and targeted requests, EPA conducted a fourth nationwide round of production, expanding discovery to documents associated with permits and inspections, federal coal-fired facilities, the personal records of EPA's national power-plant experts, and reports from the Office of the Inspector General, including all regional counter-parts.

9. EPA has now commenced a fifth round of production centered on production of electronic documents not previously produced in the first four rounds.

10. As art of its fifth round of production, EPA has already produced or otherwise

directed Defendants to extensive electronic documents. Cinergy has been given access and assistance in that access to 27 major policy and data collections maintained by the Agency. Among these are five of particular importance. The Applicability Determination Index contains 2,327 official EPA statements on application of the New Source Performance Standards program. That data base includes EPA's long-standing official statements regarding the meaning of the term "routine maintenance, repair and replacement." The New Source Review Policy and Guidance data base (sometimes referred to as the "Region VII database") contains 550 official EPA statements on application of the NSR program, once again addressing the application of the term routine maintenance, repair and replacement, as well as a variety of questions relating to emissions calculations. The Office of Air and Radiation Policy & Guidance Information data base includes 424 policy and guidance memos, fact sheets, background information documents, enabling documents and criteria document files, and with the ADI and NSRP&G data bases, provides the complete collection of formal EPA policies regarding the NSPS and NSR programs. In addition to these policy data bases, the United States has provided access to or copies of the "RACT-BACT-LAER Clearinghouse" and the Air Facility Subsystem ("AFS") data bases. The former contains over 20,000 formal state and federal decisions regarding pollution control requirements under the NSPS and NSR programs. The AFS data base contains compliance and permit data for *all* stationary sources regulated by the U.S. EPA and state and local air pollution agencies nationwide.

11. Many if not all of the electronic documents already provided to Cinergy are duplicative and cumulative of the paper document production made in Rounds One through Four, as they contain thousands of EPA determinations and policy statements previously produced in

paper form. Nevertheless, under very narrow and targeted requests from various defendants, EPA also produced further duplicative and cumulative copies of policy statements to all defendants, including Cinergy, that existed as individual electronic documents held by the five EPA engineers most involved in enforcement against Cinergy facilities, their two supervisors, and the Agency's policy expert most familiar with the development of the NSR program.

12. EPA is also producing descriptions of "shared" electronic documents maintained by the Agency in network drives located throughout the nation and to which more than one employee has direct access. I believe these shared documents will number well in excess of 30,000 documents, the vast majority of which are known to be privileged. Preliminary information from a partial compilation of EPA headquarters offices identifies 47 subdirectories containing 3,487 documents consisting of 1.3 Mbytes of data, two-thirds of which EPA will protect under a deliberative process, attorney-client or work-product privilege. Of the approximately 1,200 non-privileged documents in this collection, 1,130 are copies of the ADI and NSRP&G data base entries or Section 114 information requests, all of which have previously been produced to the defendants. My review of the other 70 non-privileged documents suggests that a majority of those have also been produced in Rounds One through Four. I have no reason to believe the Agency will find a different outcome when it has finished its nation-wide tabulation of shared documents.

13. I understand the United States has recently offered to produce the non-privileged individual electronic document collections of eight persons most likely to have relevant responsive documents sought by Cinergy. These eight EPA employees are most likely to have documents that reflect the Agency's understanding of the definition of routine maintenance

because they are the Agency's experts on the NSR/PSD regulatory program. These persons are: (1) Richard Killian, the Region III NSR expert compliance engineer; (2) David Schulz, the Region V NSR expert compliance engineer, the two contact points for Cinergy and similar companies operating in EPA regions III and V, and state officials within those regions, who have questions concerning the NSR program; (3) Office of Air Quality and Performance Standards ("OAQPS") employee David Solomon, who drafted NSR guidance for more than 20 years, who has been repeatedly deposed on these matters as EPA's 30(b)(6) witness on routine maintenance, and who has fielded questions on the meaning of the term over the last two decades; (4) OAQPS employee Dan Deroeck, who has been responsible for development of key policy elements of the new Equipment Replacement Rule which further explains and expands the definition of routine maintenance, and who had to access the agency's policy history on this term in order to draft the new rules; (5) Office of General Counsel ("OGC") employee Monica Gibson, who is assigned responsibility for interpreting the meaning of regulatory and legislative terms, and has a dominant role in evaluating and reviewing policy guidance for the NSR/PSD program; (6) OGC employee Greg Foote, Ms. Gibson's predecessor who was responsible for legal interpretations of the NSR/PSD for over twenty years, and who, although on detail for the past year, has left his desktop computer files intact and available to the agency; (7) Office of Enforcement and Compliance Assurance ("OECA") employee Carol Holmes, who has also served in OGC in the same role as Ms. Gibson and Mr. Foote, and has been responsible for interpretation and enforcement of NSR/PSD regulations; and, (8) OECA employee David W. Schnare, your declarant, who, like Ms. Holmes, has been responsible for interpretation and enforcement of NSR/PSD regulations, and in particular, the coal-fired utility enforcement initiative, in which

Cinergy is a defendant.

14. The United States has already searched the declarant, Dr. Schnare's individual electronic documents. It has, in part, searched the files of Mr. Schulz. Mr. Killian had previously converted his emails to paper copies. I believe that if the United States completes searches of Mr. Schulz and Killian's files and also examines those of Ms. Gibson, and Mr. Solomon, it will have found all relevant responsive documents sought by Cinergy. I believe that, in light of a search of the five individuals mentioned immediately above, it would be duplicative and cumulative to search the individual electronic files controlled by Ms. Holmes, Mr. Foote and Mr. Deroeck, but that a search of their files would confirm this belief.

15. I believe that searching beyond these eight persons would be significantly more cumulative and duplicative since these eight persons are the nexus of the Agency's activities to interpreted NSR provisions of the Clean Air Act.

16. In anticipation of an agreement with Cinergy, and to assess the burden of production, privilege analysis and logging of individual records I have completed a review of my own individual electronic records and have concluded that EPA will undergo an unreasonably cumulative, duplicative burden and expense by searching even the eight individuals identified above - one that would clearly outweigh the likely benefit to Cinergy.

17. While conducting this search of my individual electronic documents, I expended about 40 hours over 15 work days examining the 14,722 electronic documents.

18. The review of these documents came at significant expense. The direct cost to the United States for this work is about $2,400 in salary alone.

19. In addition, my inability to do other work has cause potentially significant

environmental harm and threat to U.S. citizens. My duties include review and approval of draft notices of violations for actions undertaken by EPA's Region 10 air enforcement unit. The time needed to review the documents described herein delayed issuance of four notices of violation to large stationary sources alleged to cause illegal emissions of hazardous chemicals in the U.S. northwest and in close proximity to large populations living there. Because such notices often produce timely compliance through emission reduction, the cost of my individual electronic production efforts, most of which involved privilege reviews, is properly measured in the continuing exposure of hundreds of thousands of U.S. citizens to toxic chemicals - the very threats I was hired to prevent and the same kind of threat to human health the United States is trying to ameliorate through the instant litigation.

20. Of the 14,722 electronic files under my control, I identified 4,362 responsive documents of which 859 had been previously produced and 3,501 over which I will recommend the Agency assert a privilege. Of the 14,722 files under my control, I have identified only two responsive non-privileged documents not previously produced in paper copy. One is an Associated Press article published on March 9, 2004, entitled "Cinergy willing to go to trial" The other is an EPA/Department of Justice press release of March 16, 2004, and entitled "U.S. Announces Major Clean Air Act Settlement with Santee Cooper." This press-release, was made available on the EPA internet website on the date of its release and thus would constitute cumulative and duplicative production.

21. Although it is not possible to directly estimate the likelihood of finding new non-privileged documents, or the expense of logging the privileged documents, from the individual collections of the 966 EPA employees known to still be employed in offices likely to have

responsive individual electronic documents, the failure to find relevant responsive documents in my electronic suggests a massive imbalance in the burden of further discovery of individual electronic documents, as opposed to the absence of benefit to the defendants. If all 966 EPA employee had to undertake the same level of effort to search and produce from their individual electronic documents as that described above, it would involve as much as $2.3 million in direct cost to EPA, are require an additional 38,640 hours (18.9 work years) of effort, stretching over many months. This cost is nearly half the cost of the entire first four rounds of discovery. It would markedly diminish the ability of EPA to implement its Clean Air Act program for a considerable time and would likely produce a mere handful of documents. I believe, the proposal to search the files of a small number of additional EPA personnel most likely to have relevant responsive documents should demonstrate the lack of value in further production of individual electronic documents.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 22, 2011.

Exhibit 2

UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF MICHIGAN

UNITED STATES OF AMERICA, Plaintiff, And NATURAL RESOURCES DEFENSE COUNCIL, INC. AND SIERRA CLUB, Intervenor-Plaintiffs, v. DTE ENERGY COMPANY AND DETROIT EDISON COMPANY, Defendants.	Civil Action No. 2:10-cv-13101-BAF-RSW Judge Bernard A. Friedman Magistrate Judge R. Steven Whalen

DECLARATION OF BETHANNE WALINSKAS

I, Bethanne Walinskas, declare as follows:

1. I am employed by the U.S. Department of Justice, Environment and Natural Resources Division, Environmental Enforcement Section, as a Program Specialist, and have been employed in this position since May 2009. Prior to accepting my current position, I was employed as a Supervisory Paralegal Specialist with the Environmental Enforcement Section from 2001-2009, and was previously employed with the Section as a Paralegal Specialist from May 1995 until my promotion to supervisor in 2001.

2. My duties include general responsibility for coordinating and managing the receipt and review of documents sent from the various regional and headquarters offices of the U.S. Environmental Protection Agency in response to requests from defendants in the Power

Plants litigation, including the requests from DTE Energy Company and Detroit Edison Company (collectively, "DTE"). I have been involved in the production of documents relating to the Power Plants litigation since March 2000. I am also responsible for preparing those documents, determined to be responsive and non-privileged after review, for production to the Power Plants defendants.

3. In November 1999, the United States filed suit against seven coal-fired power plants in various regions of the country, alleging violations of New Source Review ("NSR") provisions of the Clean Air Act. The United States attempted to coordinate its discovery efforts to produce documents to the defendant utilities due to the overlapping nature of their requests.

4. It is generally the practice of the United States when producing documents to the Power Plants defendants to assign a Bates number to each document that reflects the origin (ie. EPA region or office at an EPA Region) of the document produced. *See* Attachment A (Index of Bates Prefixes).

5. In early 2000, the United States began to search for and produce documents from EPA Regions 3, 4, 5, and Headquarters responsive to the requests from the seven Power Plants defendants sued in November 1999. During this First Round of Production, an index was created identifying the Bates range for each document, the document custodian, and the subject matter of the documents produced to the Power Plants defendants from each EPA Region and office. *See* Attachment B (Headquarters – OAQPS Index), Attachment C (Headquarters - OECA and OGC Index), Attachment D (Region 3 Index), Attachment E (Region 4 Index), and Attachment F (Region 5 Index).

6. In January 2001, the Court in the United *States v. Illinois Power Co.* (No. 99-833-DRH) litigation issued an order expanding the scope of the United States' initial response to

Illinois Power's initial document requests. As a result, the United States engaged in a Second Round of Production beginning approximately in April 2001 and finishing during the Fall of 2002. During this Second Round of Production, the United States searched for and produced documents from all ten EPA Regions, and produced additional documents from EPA Regions 3, 4, 5 and Headquarters not previously provided during its First Round of Production. Each Region and Headquarters office then completed a declaration or declarations detailing the types of documents that it searched for, the people who searched, the volume of documents that were responsive, and the time involved in the search. *See* Attachment G (13 Declarations).

7. Further, in response to a second, clarifying order issued by the *Illinois Power* court, the United States began in early 2001 its search and production of responsive documents archived by EPA at twelve Federal Records Centers ("FRCs") across the country, completing this production in January 2002. During this production, the United States used a Bates numbering system for each document that identified the Federal Records Center where the document was located and included the accession number of the box, assigned by the applicable records center, where the responsive document was stored. *See* Attachment H (FRC Bates Numbering Key).

8. During this FRC Production, the United States reviewed approximately 5,700 boxes containing potentially responsive material retrieved from the twelve FRCs, and produced approximately 1.5 million pages to the Power Plants defendants.

9. In 2004 and 2005, the United States again searched all ten EPA Regions and Headquarters for electronically stored information responsive to various discovery requests pending for Power Plants defendants still in litigation with the United States at that time. This production was conducted in two stages, as the initial search criteria was expanded in response to

an order issued by the Court in *United States v. Cinergy Corp.*, No. IP99-01693-LJM, and included the search of individual employees' electronic files as well as the shared systems at the EPA Regions and Headquarters. The United States sent a protocol to all individuals who had potentially responsive documents providing the search criteria and categories of documents to be produced. *See* Attachment I (Cinergy Electronic Production Protocol). Prior to conducting the shared electronic systems search, EPA employees were informed by DOJ counsel that the term "shared electronic systems" meant any electronic, computer or digital system used by more than one person, including, but not limited to, databases or shared computer drives. *See* Attachment J (Response to Request for EPA Shared Systems). A Bates numbering system was used for this production that identified not only the EPA Region or Headquarters office of origin, but also from which stage of production the document was produced, including whether the document was part of the individual employee or shared systems production. In addition, documents released from the United States' privileged collection after further review were identified by this Bates numbering system. *See* Attachment K (Index of Bates Numbers for Cinergy Electronic Production).

10. During this electronic production, beginning approximately in August 2004 and concluding in February 2005, the United States reviewed approximately 204,000 documents totaling 2.1 million pages. As a result, approximately 29,000 documents totaling over 500,000 pages were produced to the Power Plants defendants still in litigation with the United States during that time period.

11. DTE's requests for production of documents are substantially similar to the requests received in prior cases.

12. On March 7, 2011, the United States produced a hard drive containing documents that had been collected in prior litigation alleging NSR violations against coal-fired power plants. The hard drive contained nine directories as described below:

a. The EPA Directory contains the documents that were produced in the First and Second Rounds of Production as described in Paragraphs 5 and 6. The documents located in the EPA directory have been served in eleven cases, including *United States v. Ohio Edison Co., United States v. American Electric Power Co., United States v. Southern Indiana Gas & Electric Co., United States v. Illinois Power Co., United States v. Duke Energy Corp., United States v. East Kentucky Power Coop., United States v. Kentucky Utilities Co., United States v. Westar Energy, Inc., United States v. Cinergy Corp., United States v. Alabama Power Co.,* and *United States v. Louisiana Generating,* LLC. This directory contains approximately 237,000 documents totaling 1.2 million pages. The United States attempted to Bates number each document collection in this directory at the time of production to identify the Region or office of origin, and often the subject matter of the document, as described in Paragraph 4 above. *See* Attachment A (Index of Bates Prefixes).

b. The FRC Directory contains documents collected from the Federal Records Centers for all ten EPA Regions and Headquarters as described in Paragraph 7. The documents located in the FRC directory have been served in ten cases including, *United States v. Ohio Edison Co., United States v. American Electric Power Service Corp., United States v. Illinois*

Power Co., United States v. Duke Energy Corp., United States v. East Kentucky Power Coop., United States v. Kentucky Utilities Co., United States v. Westar Energy, Inc., United States v. Cinergy Corp., United States v. Alabama Power Co., and *United States v. Louisiana Generating, LLC.* This directory contains approximately 19,000 documents totaling 1.5 million pages. The United States assigned a bates number to each document in this directory at the time of production to identify the Federal Records Center of origin, as described in Paragraph 4 above. *See* Attachment H (FRC Bates Numbering Key).

c. The EPA 114 Directory and the EPAAPC2 Directories are documents that EPA received in response to information requests issued under Section 114 of the Clean Air Act to coal-fired power plants across the United States. The documents in these two directories are responsive to DTE's Requests for Production Number 2. The EPA 114 Directory contains approximately 209,000 documents totaling 605,000 pages and the EPAAPC2 Directory contains approximately 140,000 documents totaling 648,000 pages.

d. The Settlement Directory contains consent decrees entered through approximately 2008 for cases that were part of the Power Plants initiative. The documents in this directory are responsive to DTE's Requests for Production Number 20, which explicitly request consent decrees. This directory contains approximately 79 documents totaling 1,900 pages.

e. The documents in the CIN_ELP Directory were collected in 2004 from all ten EPA Regions and Headquarters as described in Paragraphs 9 and 10. These documents have been served in six cases, including *United States v. East Kentucky Power Coop., United States v. Kentucky Utilities Co., United States v. Westar Energy, Inc., United States v. Cinergy Corp., United States v. Alabama Power Co.,* and *United States v. Louisiana Generating, LLC.* Only the documents from the shared systems production were provided to the defendants in *United States v. American Electric Power Service Corp.* litigation due to a prior agreement between the parties. As previously stated in Paragraph 9, this directory contains approximately 39,000 documents totaling 500,000 pages.

f. The IL-EPA and APC directories contain documents previously produced in response to specific discovery requests from other Power Plants defendants that are also responsive to DTE's requests, including documents related to inspection reports, state compliance audits, and PSD applicability determinations. Additionally, some of the documents in these directories were produced in response to documents requests served in other Power Plants cases with Rule 30(b)(6) deposition notices on Clean Air Act issues, including New Source Review, the Routine Maintenance Repair and Replacement exception, and EPA inspections of coal-fired power plants. The United States Bates numbered each document to identify the Region or office of origin, or whether the document was related to a Rule 30(b)(6) document request or other

request from a Power Plants defendant. *See* Attachment A. These documents have been served in seven cases, including *United States v. East Kentucky Power Coop., United States v. Illinois Power Co., United States v. Kentucky Utilities Co., United States v. Westar Energy, United States v. Cinergy Corp., United States v. Alabama Power Co.,* and *United States v. Louisiana Generating, LLC.* The IL-EPA Directory contains approximately 6,000 documents totaling 24,000 pages and the APC Directory contains approximately 24,000 documents totaling 71,000 images.

g. The EPAGEN directory contains native files, including videos and database files, collected during the First and Second Rounds of Production described in Paragraphs 5 and 6 above. It also contains documents duplicative of those in the APC Directory listed above which were included on the hard drive provided to DTE in error.

13. In addition to the external hard drive described in Paragraph 12 above, the United States has also produced additional documents to DTE in response to its requests from EPA Region 5 and Headquarters offices. To date, this production totals approximately 20,400 documents and 286,000 pages. The United States has provided counsel for DTE a list of owners for these additional documents produced, either by e-mail or on the transmittal CD-ROM, and will continue to provide this information for files for subsequent productions. See Attachment L (Furrie E-mail and Document Owner List).

14. I declare, pursuant to 28 U.S.C. § 1746, under penalty of perjury that the foregoing is true and accurate to the best of my knowledge and belief.

Executed this 7 day of April, 2011.

Bethanne Walinskas

Exhibit 2
Attachment A

BATES NUMBER PREFIX LIST FOR EPA DIRECTORY

EPA Region	Bates Prefix	Office/Program Origin
Region 1	EPA1OARM	Documents obtained from Office of Air and Radiation files
	EPA1OEME	Documents obtained from Office of Environmental Measurement and Evaluation files
	EPA1OEP	Documents obtained from Office of Ecosystem Protection files
	EPA1OES	Documents obtained from Office of Environmental Stewardship files
	EPA1OESa	Documents obtained from Office of Environmental Stewardship (second series) files
	EPA1ORA	Documents obtained from Office of Regional Administrator files
	EPA1ORC	Documents obtained from Office of Regional Counsel files
Region 2	EPA2ACB	Documents obtained from Air Compliance Branch files
	EPA2APB	Documents obtained from Air Protection Branch files
	EPA2CEPD	Documents obtained from Carribean Environmental Protection Division files

EPA Region	Bates Prefix	Office/Program Origin
	EPA2IP2	Documents obtained from Region 2 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA2ORC	Documents obtained from Office of Regional Counsel files
Region 3	3AEP/AM or AEP-AMOS	Documents associated with American Electric Power Co. - Amos Plant
	3AEP/CLN or AEP-CLIN	Documents associated with American Electric Power Co. - Clinch River Plant
	3AEP/KAM or AEP/KAM or AEP-KAM	Documents associated with American Electric Power Co. - Kammer Plant
	3AEP/KR or AEP/KR or AEP-KR	Documents associated with American Electric Power Co. - Kanawha River Plant
	3AEP/MCH or AEP/MTCH or AEP-MTCH	Documents associated with American Electric Power Co. - Mitchell Plant
	3AEP/MIS	Region 3 documents pertaining to American Electric Power - miscellaneous matters
	3AEP/SP or AEP/SP or AEP-SP	Documents associated with American Electric Power Co. - Sporn Plant
	3AEP/SC	Region 3 documents pertaining to American Electric Power company-wide matters

EPA Region	Bates Prefix	Office/Program Origin
	3FWC	Documents from Region 3 related to Foster Wheeler (Boilermaker issued Section 114)
	3VEP	Region 3 documents pertaining to Virginia Electric Power Co.
	3WDEP or 3WVDEP	Documents from Region 3 files related to West Va. Division of Environmental Protection
	3WVPSC or WVPSC	Documents from Region 3 files related to West Virginia Public Service Commission
	EPA	Documents produced to AEP in response to discovery requests in *U.S. v. Ohio Power Co.*
	EPA3GEN	Documents obtained from Air Protection Division general files - files not associated with any specific plant in initiative
	EPA3ORC	Documents obtained from EPA Region 3 Office of Regional Counsel files
Region 4	4APC	Documents associated with Alabama Power Co.
	4APC/BA	Documents associated with Alabama Power Co., Barry Plant
	4APC/GO	Documents associated with Alabama Power Co., Gorgas Plant
	4APC/MI	Documents associated with Alabama Power Co., Miller Plant
	4APC/GA	Documents associated with Alabama Power Co., Gaston Plant
	4APC/GR	Documents associated with Alabama Power Co., Green Plant

EPA Region	Bates Prefix	Office/Program Origin
	4APC/MIS	Documents associated with Alabama Power Co. that relate to plants not named in gov't lawsuits & miscellaneous matters
	4GPC	Documents associated with Georgia Power Co.
	4GPC/BO	Documents associated with Georgia Power Co., Bowen Plant
	4GPC/SH	Documents associated with Georgia Power Co., Sherer Plant
	4GPC/MIS	Documents associated with Georgia Power Co. that relate to plants not named in gov't lawsuits & miscellaneous matters
	4GUP	Documents associated with Gulf Power Co.
	4GUP/CR	Documents associated with Gulf Power Co., Crist Plant
	4MPC or MPU	Documents associated with Mississippi Power Co. generally
	4MPC/WA	Documents associated with Mississippi Power Co., Watson Plant
	4SPC	Documents associated with Savannah Power Co.
	4SPC/KR	Documents associated with Savannah Power Co., Kraft Plant
	4SC	Documents associated with Southern Company generally
	4TVA or TVA	Documents associated with Tennessee Valley Authority or any of the TVA plants

EPA Region	Bates Prefix	Office/Program Origin
	4DUK	Documents associated with Duke Energy Co.
	4CPL	Documents associated with Carolina Power & Light
	4TECO	Documents associated with Tampa Electric Co.
	EPA4ENF	Documents obtained from EPA Region 4 Enforcement Section
	EPA4GEN	Documents obtained from Region 4's general files - files not associated with any specific plant in initiative
	EPA4IP2	Documents from Region 4 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA4ORC	Documents obtained from EPA Region 4 Office of Legal Support
	EPA4PER	Documents obtained from EPA Region 4 Permitting Section
	EPA4SIP	Documents obtained from EPA Region 4 SIPS (State Implementation Plans) Section
Region 5	5AEP/SC	Documents associated with American Electric Power (AEP) company-wide matters

EPA Region	Bates Prefix	Office/Program Origin
	5AEP/CON	Documents associated with AEP, Conesville Plant
	5AEP/CRD	Documents associated with AEP, Cardinal Plant
	5AEP/GAV	Documents associated with AEP, Gavin Plant
	5AEP/MR	Documents associated with AEP, Muskingum River Plant
	5AEP/TC	Documents associated with AEP, Tanners Creek Plant
	5AEP/MIS	Documents associated with AEP plants not named in gov't lawsuits and other miscellaneous matters
	5IURC	Documents obtained from Region 5 files related to Indiana Utility Regulatory Commission
	5OEPA or OEPA	Documents from Region 5 related to Ohio Environmental Protection Agency
	CIN	Documents associated with Cinergy Corp. generally
	CIN5/BB-P	Documents produced in *Cinergy* litigation related to deposition of Bonnie Bush, Region 5 engineer
	CIN5/LD-P	Documents produced in *Cinergy* litigation related to deposition of Loren Denton, EPA HQ engineer
	CINBE	Documents related to Cinergy's Beckjord facility
	CINCA	Documents related to Cinergy's Cayuga facility

EPA Region	Bates Prefix	Office/Program Origin
	CINGI	Documents related to Cinergy's Gibson facility
	CINMF	Documents related to Cinergy's Miami Fort facility
	CINORC	Documents obtained from Office of Regional Counsel files related to Cinergy or any of the Cinergy plants
	CINWA	Documents related to Cinergy's Wabash River facility
	EPA5ARF	Documents obtained from EPA Region 5's Acid Rain files
	EPA5EA	Documents obtained from EPA Region 5 Air Enforcement & Compliance Assurance Branch files - Illinois/Indiana Section
	EPA5EB	Documents obtained from EPA Region 5 Air Enforcement & Compliance Assurance Branch files - Michigan/Wisconsin Section
	EPA5EC	Documents obtained from EPA Region 5 Air Enforcement & Compliance Assurance Branch files - Minnesota/Ohio Section
	EPA5EDO	Documents obtained from Region 5 - Cleveland Office files
	EPA5FRA	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Illinois files
	EPA5FRB	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Indiana files

EPA Region	Bates Prefix	Office/Program Origin
	EPA5FRC	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Michigan files
	EPA5FRD	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Minnesota files
	EPA5FRE	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Ohio files
	EPA5FRF	Documents obtained from Region 5, Air Enforcement & Compliance Assurance Branch file room - Wisconsin f
	EPA5GEN	Documents obtained from Region 5 Air and Radiation Division office files - files not associated with any specific plant in initiative
	EPA5GNT	Documents obtained from EPA Region 5's Grant files
	EPA5ILCO	Documents obtained from EPA Region 5's Illinois Construction Permitting Files
	EPA5-IPR	Documents located in Region 5 files responsive to Illinois Power Co.'s supplemental document requests related to PSD/NSPS program in Illinois; EPA's audits of state programs; EPA inspection reports

EPA Region	Bates Prefix	Office/Program Origin
	EPA5IP2	Documents obtained from Region 5 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA5IPB	Documents obtained Region 5 files related to Illinois Power Co.'s Baldwin facility
	EPA5NSP	Documents obtained from Northern Region 5 State Implementation Plan Files
	EPA5OED	Documents obtained from Region 5 files pertaining to Ohio Edison, including Sammis Plant
	EPA5OPR	Documents obtained from EPA Region 5's Ohio Programs Review Public Repository Files
	EPA5ORC, EPA5ORCA, EPA5ORCB, EPA5ORCC, EPA5ORCD, EPA5ORCE, EPA5ORCF, EPA5ORCG, EPA5ORCH	Documents obtained from files of Office of Regional Counsel
	EPA5PIL	Documents obtained from Region 5 Permitting files - Illinois
	EPA5PIN	Documents obtained from Region 5 Permitting files - Indiana

EPA Region	Bates Prefix	Office/Program Origin
	EPA5PMI	Documents obtained from EPA Region 5 Permitting Section - Michigan
	EPA5PMN	Documents obtained from EPA Region 5 Permitting Section - Minnesota
	EPA5POH	Documents obtained from Region 5 Permitting files - Ohio
	EPA5PWI	Documents obtained from Region 5 Permitting files - Wisconsin
	EPA5SIG	Documents obtained from Region 5 files related to Southern Indiana Gas & Electric Co. (SIGECO)
	EPA5SSP	Documents obtained from Southern Region 5 State Implementation Plan Files
	IDEM	Documents obtained from Region 5 files related to Indiana Dept. of Environmental Management
Region 6	EPA6ENF	Documents obtained from Region 6 Enforcement files
	EPA6ORC	Documents obtained from Region 6 Office of Regional Counsel files
	EPA6OTH	Documents obtained from other general files at Region 6
	EPA6PER	Documents obtained from Region 6 Permitting files
Region 7	EPA7APCO	Document obtained from Air Permits and Compliance Branch source files, reading files, or other staff documents
	EPA7GEN	Documents obtained from Region 7 general administrative files

EPA Region	Bates Prefix	Office/Program Origin
	EPA7IP2	Documents from Region 7 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA7ORC	Documents obtained from Region 7 Office of Regional Counsel files
	EPA7REF	EPA Region 7 Reference Library documents
Region 8	EPA8GEN	Documents obtained from Region 8 general files
	EPA8IP2	Documents from Region 8 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA8LEP	Documents obtained from Region 8 Legal Enforcement Program files
	EPA8MOO	Documents obtained from Region 8 Montana Operations Office files
	EPA8ORC	Documents obtained from Region 8 Office of Regional Counsel files
	EPA8PER	Documents obtained from Region 8 Permit Program files

EPA Region	Bates Prefix	Office/Program Origin
	EPA8SIP	Documents obtained from Region 8 State Implementation Plan (SIP) Program files
	EPA8TEP	Documents obtained from Region 8 Technical Enforcement Program files
Region 9	EPA9IP2	Documents from Region 9 offices in response to Illinois Power Co.'s supplemental document requests, including requests for all Section 114 requests issued to utilities, Notices of Violation issued to utilities, documents related to Clean Air Act Modification Rule, documents related to WEPCO rule, and documents related to permitting under NSR
	EPA9OEA	Documents obtained from Region 9 Air Division enforcement files
	EPA9ORC	Documents obtained from Region 9 Office of Regional Counsel files
	EPA9PER	Documents obtained from Region 9 Air Division permitting files
Region 10	EPAXMIS	Documents obtained from Region 10 miscellaneous files
	EPAXOEA	Documents obtained from Region 10 Office of Environmental Assessment files
	EPAXORC	Documents obtained from Region 10 Office of Regional Counsel files
	EPAXPRO	Documents obtained from Region 10 Office of Air Quality Program files
	EPAXSOU	Documents obtained from Region 10 Office of Air Quality Source files
	EPAXWOR	Documents obtained from Region 10 Office of Air Quality Working files

EPA Region	Bates Prefix	Office/Program Origin
EPA HQ	EPAOAQ	Documents obtained from files at Office of Air Quality Planning and Standards (Research Triangle Park, N.C.)
	EPAOAR	Documents obtained from files of Office of Air and Radiation
	EPAOEC	Documents from files of Office of Enforcement and Compliance Assurance, Air Enforcement Division
	EPAOGC	Documents obtained from files of Office of General Counsel, Office of Air and Radiation
	EPACAMD	Documents obtained from files of Clean Air Markets Division, Office of Air and Radiation
	EPADOC	Unendorsed documents from EPA's Office of Enforcement & Compliance Assurance (OECA) originally withheld as privileged but released during meet and confer with other utility Defendants - First Round of Production

BATES NUMBER PREFIX LIST FOR

IL-EPA, APC and EPAGEN DIRECTORIES

(Note: Bates Prefixes Listed in above chart for EPA Directory Not Repeated Below)

Bates Prefix	Region/Office	Subject Matter of Files
CIN30B6RM	Region 5	Documents produced in *Cinergy* litigation in response to document requests associated with Rule 30(b)(6) deposition notice related to Routine Maintenance, Repair and Replacement
CIN30B6_INS	Region 5	Documents produced in *Cinergy* litigation in response to document request associated with Rule 30(b)(6) deposition notice related to EPA inspections of coal-fired facilities
CIN30B6_NSR	Region 5	Documents produced in *Cinergy* litigation in response to document request associated with Rule 30(b)(6) deposition notice related to New Source Review
CIN_AFS	Region 5	Native file production of EPA's AFS database as of May 2004 produced in response to a discovery request from *Cinergy* litigation
OAQPS-IPR	Office of Air Quality Planning and Standards, HQ	EPA's Office of Air Quality, Planning and Standards' responses to Illinois Power specific document requests related to inspection reports related to Illinois facilities and issues related to Illinois' air program

Bates Prefix	Region/Office	Subject Matter of Files
SIGDATA	Region 5	Documents produced in response to Illinois Power Co. request for Applicability & Policy/Guidance Determinations, and Related Background Documents

UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF MICHIGAN

UNITED STATES OF AMERICA,

Plaintiff,

And

NATURAL RESOURCES DEFENSE COUNCIL, INC. AND SIERRA CLUB,

Intervenor-Plaintiffs,

v.

DTE ENERGY COMPANY AND DETROIT EDISON COMPANY,

Defendants.

Civil Action No.
2:10-cv-13101-BAF-RSW

Judge Bernard A. Friedman

Magistrate Judge R. Steven Whalen

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 2
Attachment F

Utility Enforcement Initiative Production Inventory
Region 5 - Non-Privileged Documents
First Production (7/00)

EPA Headquarters
OECA/OGC/OAR

DECLARATION OF DAVID W. SCHNARE
REGARDING PRODUCTION OF
RESPONSIVE DOCUMENTS AT EPA HEADQUARTERS

I, David W. Schnare, do hereby declare:

1. I am an attorney-advisor working for the U.S. Environmental Protection Agency's ("EPA" or "the Agency") Air Enforcement Division in the Office of Enforcement and Compliance Assurance ("OECA").

2. During the pendency of the power-plant litigation, I have been responsible for the search at relevant EPA offices located in Washington, D.C. ("Headquarters") for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in enforcement cases commonly referred to by EPA as the Power Plant Enforcement Initiative, and involving the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of these actions, namely, they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSF") and Standards for New Source Performance ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and/or

operated by Defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. Following my review of the Discovery Requests, and summaries of same prepared by the Department of Justice and consultation with counsel for the Department of Justice, I initiated a review of Headquarters records to identify responsive documents. I consulted the following agency components in EPA Headquarters to coordinate production of responsive documents: the Office of the Assistant Administrator for Enforcement and Compliance Assurance ("OECA"); the Office of the Director of the Office of Regulatory Enforcement ("ORE"); the Air Enforcement Division; the Office of Compliance Assurance; the Federal Facilities Enforcement Office; the Office of Congressional Liaison; the Office of the Assistant Administrator for Air and Radiation ("OAR"), including the Office of Policy Analysis and Review; and, the Air and Radiation Legal Office within the Office of General Counsel. I forwarded summaries of the Discovery Requests prepared by the Department of Justice to personnel in these offices likely to have responsive documents so that the personnel could conduct a good faith review to identify responsive documents. Prior to the actual searches and production, I met with personnel in the various offices to discuss the Discovery Requests. Thereafter, personnel in these offices sought responsive documents in their offices' file rooms, other spaces in and near their offices used to file documents and in their individual staff files.

4. The information sought by the Discovery Requests and searched for by Headquarters personnel include the following:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fueled fired utility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,
(b) potential to emit,
(c) net emissions increase,
(d) representative actual emissions,
(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

i. Fossil-fuel fired steam generators;

ii. Commencement of construction

C. Any files or documents on any of the power plants at issue in this initiative;

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between the terms 'routine maintenance" and 'major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence

between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any the actions against the coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. files or collections of documents that relate to any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions,

estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this Power Plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

xv. The number of administrative or judicial enforcement actions

brought against fossil fuel-fired utilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification;

E. Remedy documents to include:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the defendants' plants, including NOx, SO2, ground level ozone, particulate matter or acid rain;

ii. Any collections of documents or files relating to the transport of emissions from the coal-fired boilers that are the subject of the litigation;

iii. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

i. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

ii. The appropriate injunctive relief at any of the Defendants' plants;;

iii. The civil penalty that should be imposed against any of the Defendants' plants.

G. Agreements between EPA and any of the states within which Defendants' plant are located, that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests to all facilities dated after January 1, 1999,

and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any CBI;

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired power plant other than those listed in Attachment A.

I. Additional Requests for Documents

i. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims;

ii. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal-fired utility;

iii. All documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule;

iv. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers;

v. All documents related to techniques for inspection of coal-fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives;

vi. Any letters from States to EPA commenting on the Power Plant initiative;

vii. Reports and studies received by EPA from EPA contractors

analyzing any aspect of New Source Review compliance issues for fossil fuel fired power plants.

6. Each agency component to which information described in paragraph 4 above was forwarded responded, either by providing responsive documents or by reporting that no

responsive documents were found. Documents responsive to the Discovery Requests have been located in each of the offices identified above.

7. The search took place over the course of 12 months, reflected numerous production requests and was conducted in two cycles - a "first production" and a "second production." The aforementioned personnel spent approximately 1625 hours conducting the search, the privilege review and compiling the privilege log. Roughly 2000 linear feet of material was searched. The non-privileged production consisted of approximately of 25 linear feet of documents.

8. Once responsive documents were identified, EPA attorneys in the Office of Enforcement and Compliance Assistance and the Office of General Counsel screened the documents in order to protect privileged documents. Thereafter, non-privileged documents were labeled (bates-numbered), copied and then sent (rolling production) to the Department of Justice for production to the defendants.

9. In addition, I was asked to assist the EPA records officer for Headquarters and a DOJ attorney in identifying potentially responsive boxes of documents located at the Federal Records Center in Suitland, Maryland, by reviewing Forms SF-135 (Records Transmittal and Receipt) in our files that describe to some degree the contents of the boxes. With the assistance of the

Headquarters records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Suitland, Maryland, were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on 9-23-2002.

Schnare Declaration 9-23-02

EPA Headquarters
OAQPS

DECLARATION OF NANCY MAYER
REGARDING PRODUCTION OF
RESPONSIVE DOCUMENTS AT EPA IN RESEARCH TRIANGLE PARK

I, Nancy Mayer, do hereby declare:

1. I am an environmental engineer employed by the U.S. Environmental Protection Agency's ("EPA" or "the Agency") Air Quality Standards and Strategies Division, ("AQSSD"), Office of Air Quality Planning and Standards ("OAQPS").

2. During the pendency of the power-plant litigation, I have been variously responsible for managing the search for and production of documents responsive to written discovery requests propounded by the Defendants in the Power Plants Enforcement Initiative by the following EPA offices located in Research Triangle Park, North Carolina ("RTP"): Office of Air Quality Planning and Standards and Office of Research and Development. The Power Plant Enforcement Initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). Generally, my responsibilities for the management and production of documents included identifying the specific EPA offices that were likely to have responsive documents, identifying the location(s) of responsive documents within such offices, and reviewing documents for

responsiveness, privilege and production.

3. Specifically, following my review of summaries of the discovery requests prepared by the Department of Justice, and in consultation with counsel for the Department of Justice, I consulted the following agency components in EPA RTP to coordinate production of responsive documents: the Office of Air Quality Planning and Standards, and the Office of Research and Development. I forwarded the summaries of the discovery requests prepared by the Department of Justice to EPA employees in these offices likely to have responsive documents so that the personnel could conduct a review to identify responsive documents. Prior to the actual searches and production efforts, I met with personnel in the various offices to discuss the Discovery Requests. Thereafter, personnel in these offices sought responsive documents in their office's file rooms, other spaces in and near their offices used to file documents and in their individual staff files .

4. The information sought by the Discovery Requests and searched for by RTP personnel include the following:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fueled fired utility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,
(b) potential to emit,
(c) net emissions increase,
(d) representative actual emissions,
(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

vi. Commencement of construction;

C. Any files or documents on any of the power plants at issue in this initiative ;

D. Documents relating to interpretation and application of the Clean Air Act requirements for Modification and the difference between the terms 'routine maintenance" and 'major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source, at any plant in Attachment A, is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any the actions against the coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. files or collections of documents that relate to any testimony or statement, written or oral, in <u>any</u> proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification";

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule:

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the

NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

xv. The number of administrative or judicial enforcement actions brought against fossil fuel fired utilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification;

E. Remedy documents to include:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, particulate matter or acid rain;

ii. Any collections of documents or files relating to the transport of emissions from the plants listed in attachment A;

iii. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

i. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

ii. The appropriate injunctive relief at any of the plants listed in Attachment A;

iii. The civil penalty that should be imposed against any of the plants listed in Attachment A.

G. Agreements between EPA and with any of the states including all correspondence with the States listed in Attachment A on any matters related to this litigation that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Copies of NOVs and Section 114 requests to utilities dated after January 1, 1999, and sent to any fossil-fueled power plant other than those against

whom we have current action under the coal-fired power plant initiative.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired power plant other than those listed in Attachment A.

I. Additional Requests for Documents

i. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims.

ii. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal fired utility.

iii. All documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule.

iv. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers.

v. All documents related to techniques for inspection of coal fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

vi. Any letters from States to EPA commenting on the Power Plant initiative.

vii. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel fired power plants.

5. The files of the following EPA RTP employees were searched for information described in paragraph 4 above:

6. Each agency component to which information described in paragraph 4 above was forwarded has responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in all offices identified above.

7. The search took place over the course of 12 months, reflected numerous production requests and was conducted in two cycles - a "first production" and a "second production". The aforementioned personnel spent over 2000 hours conducting the search and production of documents.

8. Once responsive documents were identified, personnel labeled (bates-numbered) and copied the documents found. Government attorneys in Washington, D.C. screened the documents in order to protect privileged documents.

9. In addition, I was asked to assist the EPA records officer for the Research Triangle Park and a DOJ attorney in identifying potentially responsive boxes of documents located at the

Federal Records Center in Atlanta, Georgia by reviewing Forms SF-135 (Records Transmittal and Receipt) in our files that describe to some degree the contents of the boxes. With the assistance of the EPA Research Triangle Park records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Atlanta, Georgia were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on Sept 25, 2002

EPA Region 1

DECLARATION OF JEFFREY C. NORCROSS

I, Jeffrey C. Norcross, do hereby declare:

1. I am employed by the United States Environmental Protection Agency (EPA) as a Paralegal Specialist in the Region 1 Office of Environmental Stewardship in Boston, Massachusetts.

2. On behalf of EPA-Region 1, I am responsible for coordinating the search for information responsive to Defendants' discovery requests ("Discovery Requests") that were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative ("Initiative"). This initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp., et al.* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp., et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York, et al. v. Ohio Edison Co., First Energy Corp., et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and I am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the United States Department of Justice ("DOJ") provided summaries of the records sought by the defendants, collectively, in the

Initiative. Following my review of these summaries and consultation with counsel for DOJ, I coordinated a search of EPA-Region 1's records to identify responsive documents. I consulted the following agency personnel to determine the location and volume of documents that may be responsive to the document production requests: managers of EPA-Region 1's Office of Environmental Stewardship (OES) and Office of Ecosystem Protection (OEP), attorneys in EPA-Region 1's Office of Regional Counsel (ORC), and staff in EPA-Region 1's Office of the Regional Administrator (ORA) and Office of Environmental Measurement and Evaluation (OEME). I selected these individuals as the points of contact based upon their years of experience at EPA and their personal knowledge of issues related to the underlying actions.

4. Through the consultation and scoping efforts described in Paragraph 3, I identified the following potential locations of responsive documents, all of which were searched for responsive documents:

A. Documents in the custody of the following EPA-Region 1 staff;

Name	**Job Title**	**Office/Section**
Averback, Jonathan	Senior Assistant Regional Counsel	ORC
Blumstein, Joel	Chief, Supervising Attorney	OES, Regulatory Legal Office
Calder, Steven	Environmental Engineer/Attorney	OES, Air Technical Unit
Chin, William	Enforcement Counsel	OES, Regulatory Legal Office
Cohen, Ian	Environmental Scientist	OEP, Air Permits Program
Conroy, David	Supervisory Environmental Engineer	OEP, Air Quality Unit
Courcier, John	Environmental Engineer	OEP, Air Permits Program
Crystal, Roy	Environmental Engineer	OES, Air Technical Unit
Dahl, Donald	Environmental Engineer	OEP, Air Permits Program
Dain, Gregory	Senior Enforcement Counsel	OES, Regulatory Legal Office

Dart, Denny	Senior Enforcement Coordinator	OES, Air Technical Unit
Edmundson, Lucy	Chief of Operation	ORA
(Fishman) Kurowski, Rebecca	Environmental Engineer	OES, Air Technical Unit
Gagnon, Ida	Environmental Engineer	OEP, Air Permits Program
Hamjian, Lynne	Manager	OEP, Connecticut State Program Unit
Hennessey, Brian	Environmental Engineer	OEP, Air Permits Program
Kenyon, Michael	Associate Director of Air Policy	OEP
Koopman, Doug	Environmental Engineer	OES, Air Technical Unit
Lancey, Susan	Environmental Engineer	OEP, Air Programs Unit
Leighton, Ira	Acting Regional Administrator	ORA
Leriche, Arnold	Environmental Engineer	OES, Air Technical Unit
Martinez, Hugh	Senior Enforcement Counsel	OES, Regulatory Legal Office
McCahill, Brendan	Environmental Engineer	OEP, New Source Review Program
McCusker, Thomas	Environmental Engineer	OES, Air Technical Unit
Mohamoud, Abdi	Environmental Engineer	OES, Air Technical Unit
Muller, Susan	Senior Enforcement Counsel	OES, Regulatory Legal Office
Murphy, Linda	Director	OEP
Olivier, Thomas	Senior Enforcement Counsel	OES, Regulatory Legal Office
Owens, James T., III	Deputy Director	Office of Administration and Resource Management
Perkins, Stephen	Acting Deputy Regional Administrator	ORA
Peterson, David	Senior Enforcement Counsel	OES, Regulatory Legal Office
Potamis, Gerald	Manager	OEP, Vermont State Program Unit
Rapp, Steven	Manager	OEP, Air Permits Program
Rosenstein, Marv	Chief	OEP, Chemicals Management Branch
Studlien, Susan	Deputy Director	OEP
Van Arsdale, Allan	Environmental Scientist	OEME
Viggiani, Steven	Senior Enforcement Counsel	OES, Regulatory Legal Office

Weeks, Fred	Chief	OES, Air Technical Unit
Williamson, Timothy	Senior Assistant Regional Counsel	ORC

B. Documents located in the OES Records Center, EPA-Region 1, One Congress Street, 10th Floor, Boston, Massachusetts.

C. Documents located in the ORA Records Center, EPA-Region 1, One Congress Street, 10th Floor, Boston, Massachusetts.

D. Documents located in the OEP Records Center, EPA-Region 1, One Congress Street, 11th Floor, Boston, Massachusetts.

5. I sent copies of the Defendants' Discovery Requests, or summaries thereof, to EPA-Region 1 staff identified in Paragraph 4(A). I requested that all EPA-Region 1 staff identified in Paragraph 4(A) conduct a thorough search for all potentially responsive documents, including the following:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fired facility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions;

(b) potential to emit;

(c) net emissions increase;

(d) representative actual emissions;

(e) source-specific allowable emissions;

iii. what constitutes a major modification;

iv. EPA's restart policy;

v. fossil-fuel fired steam generators;

vi. commencement of construction.

C. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between the terms "routine maintenance" and "major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any actions against coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. files or collections of documents that relate to any testimony or statement,

written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. all documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of the Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule;

xi. any cases or matters that involved a BACT determination for any coal fired utility;

xii. any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the Initiative (i.e., increased numbers of permit writers, etc.).

D. Remedy documents, including:

i. any collections of documents or files relating to the transport of emissions from coal-fired boilers in the plants listed in Attachment A;

ii. any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

E. Documents relating to injunctive relief and control technology, including BACT or LAER determinations applicable to coal-fired boilers from 1980 to present.

F. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

G. NOVs and 114 Requests, including:

i. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any

confidential business information ("CBI");

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired facility.

H. Additional Requests for Documents. To the extent that these requests seek different information than has already been produced or will be produced, documents related to these requests (also referred to as the "SIGECO" documents) were also searched:

i. all documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal fired utility;

ii. all documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule;

iii. all documents related to techniques for inspection of coal fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives;

iv. any letters from States to EPA commenting on the Initiative;

v. reports and studies received by EPA from EPA contractors analyzing any aspect of NSR compliance issues for fossil fuel fired power plants.

6. Each EPA-Region 1 employee to whom the information described in Paragraph 5 above was forwarded has responded, either by providing responsive documents or by reporting that no responsive documents were found. EPA-Region 1 staff spent approximately 200 hours searching for responsive documents in the following locations:

A. Documents in the custody of the EPA-Region 1 staff identified in Paragraph 4(A);

B. Documents located in the OES Records Center, EPA-Region 1, One Congress

Street, 10th Floor, Boston, Massachusetts;

C. Documents located in the ORA Records Center, EPA-Region 1, One Congress Street, 10th Floor, Boston, Massachusetts.

D. Documents located in the OEP Records Center, EPA-Region 1, One Congress Street, 11th Floor, Boston, Massachusetts.

The search took place over the course of approximately one month. The approximate volume of material searched by Region 1 personnel was 240 linear feet of documents. Approximately 34 linear feet of responsive documents were collected.

7. Except as provided in Paragraph 8 of this Declaration, Region 1 bates-stamped and copied responsive documents utilizing the following procedures: 1) to the extent possible, documents were kept in the order in which they were maintained by the custodian of the documents; 2) numbered labels were created with prefixes to help identify the office within EPA-Region 1 from which the document was produced (e.g. document number EPA1OES000001 identifies the document as having been produced from the files of a staff-person from EPA-Region 1's Office of Environmental Stewardship or from the OES Records Room); and 3) a numbered label was affixed to every page of every document.

8. Certain of the responsive documents were not produced through the procedure set forth in Paragraph 7 of this Declaration. Documents described in Paragraph 5(G)(i) of this Declaration were made available for Defendants to review at the EPA Region 1 Office in Boston, Massachusetts. The documents described in Paragraph 5(G)(i) of this Declaration produced through this in-place production included bulk responses submitted by various utilities pursuant to information requests issued by EPA to those utilities. This in-place production of information request responses did not

include any information claimed by responders to be confidential business information. The Defendants reviewed the documents produced at the EPA Region 1 office in Boston and identified which of those documents the Defendants desired to have produced on CD-ROM. The documents so identified by Defendants were then sent by Region 1 to DOJ for scanning and production.

9. After numbering the documents, our office undertook a privilege review to determine which documents were privileged. The following procedures generally describe the efforts undertaken to screen documents for privilege and to create a privilege log: 1) OES attorney Susan Muller, OES attorney Steven Calder and I conducted an initial privilege screen; 2) documents determined to be releaseable (i.e. not privileged) were scanned at EPA-Region 1's offices as arranged by DOJ; 3) Susan Muller conducted a second review of all documents identified as privileged; 4) all documents that upon further review were deemed to be releaseable by Ms. Muller were copied and sent to DOJ for scanning; 5) all documents subject to privilege (i.e. attorney-client privilege, work product privilege, deliberative process privilege, confidential business information, privacy act information and settlement communications) were listed on a privilege log pursuant to instructions from DOJ. More specific information on the assertion of the deliberative process privilege will be provided in Declaration of Robert W. Varney Asserting the Deliberative Process Privilege, Declaration of Ira W. Leighton Asserting the Deliberative Process Privilege, Declaration of Susan G. Muller in Support of the Declaration of Robert W. Varney Asserting the Deliberative Process Privilege and Declaration of Susan G. Muller in Support of the Declaration of Ira W. Leighton Asserting the Deliberative Process Privilege.

10. In addition, I was asked to assist the EPA records officer for Region 1 and a DOJ attorney in identifying potentially responsive boxes of documents located at the Federal Records

Center in Waltham, Massachusetts by reviewing SF-135 Forms (Records Transmittal and Receipt Forms) in our files that describe to some degree the contents of the boxes. With the assistance of Region 1's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Waltham, Massachusetts were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 16th, 2002

EPA Region 2

I, Kenneth Eng, do hereby declare:

1. I am the Chief of the Air Compliance Branch of the Division of Enforcement and Compliance Assistance of the Region 2 Office of the Environmental Protection Agency located in New York City.

2. On behalf of Region 2 of the U.S. Environmental Protection Agency ("EPA"), I have inquired of the offices involved in the search for information responsive to Defendant's discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative. This initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am generally aware of the subject matter of the underlying actions namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act, including applicable State Implementation Plans, at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice (DOJ) provided summaries of the records sought by the defendants, collectively, in the initiative.

Following review of these summaries and consultation with counsel from DOJ, I consulted the following agency components in EPA Region 2, including supervisors and knowledgeable staff, to determine which locations might contain responsive documents: the Air Compliance Branch, the Air Programs Branch, the Office of Regional Counsel, the Caribbean Environmental Protection Division, the Division of Environmental Science and Assessment, and the Communications Division. These components were selected based upon personal knowledge of the organizational structure within EPA Region 2.

4. Through the consultation and scoping efforts described in paragraph 3, EPA Region 2 identified each of those offices as potential locations to be searched for responsive documents.

5. DOJ representatives met or consulted at various times with representatives of the above mentioned offices and provided documents and interpretations of the Discovery Requests. Region 2 personnel sent summaries of the information sought by the Discovery Requests to agency components identified as potential sources of documents, and requested a thorough search for all potentially responsive documents. Based on the summaries, Region 2 personnel requested the following information:

A. All final applicability determinations made by EPA under 40 C.F.R. 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil-fuel fired facility (if the facility makes steam);

i. Routine maintenance,

ii. Emissions calculations supporting a determination that a physical change or change in the method of operation was significant, to include interpretation and application of the

terms:

(a) actual emissions

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

C. Documents relating to interpretation and application of the Clean Air requirements for modification and the difference between the terms "routine maintenance" and "major modification," for any source (except as noted below), including:

i. Files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. Files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any of the actions against coal-fired electric generating facilities;

iii. Files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. Files or collections of documents that relate to any testimony or statement,

written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. Files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. Any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants initiative;

(b) files or collections of documents relating to the number of projects or physical or operational changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and

application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

D. Remedy documents, including any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

E. Documents relating to control technology, including BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

F. NOVs and 114 Requests

i. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any CBI.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired facility other than those listed in Attachment A.

6. The following EPA employees were requested to search files for information described in paragraph 5 above:

Air Compliance Branch: Bruce Augustine, Lakisha Brooks, John Chiang, Daniel Ciobanu, Jeremy Eng, Kenneth Eng, Avia Eyllon, Diane Fiorito, Mozafar Ghaffari, Lisa Kim, Gaetano Lavigna, Chao Leung, Daniel Manasia, Karl Mangels, James Nyemchek, Harish Patel, Venkata Rao, Raymond Slizys

Air Programs Branch: Suilin Chan, Gerald DeGaetano, Umesh Dholakia, Frank Jon, Steven Riva, Lauren Steele

Office of Regional Counsel: David Stone, Joseph Siegel

Caribbean Environmental Protection Division: Francisco Claudio

7. Each person who was requested to search files for information described in Paragraph 5 above has responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in the following locations: Air Compliance Branch, Air Programs Branch, Office of Regional Counsel and the Caribbean Environmental Protection Division. The bulk of the search took place between March 7 and March 23, 2001. The approximate amount of time spent conducting the search was 45 work days. The approximate volume of material searched was 620 linear feet.

8. Except as provided in Paragraph 9 of this Declaration, once responsive documents were identified, the documents were Bates-stamped and copied, and a copy of the Bates-stamped documents was then sent to DOJ for scanning and production.

9. Certain of the responsive documents were not produced through the procedure set forth in Paragraph 8 of this Declaration. Documents described in Paragraph 5(F)(i) of this Declaration were made available for Defendants to review at the EPA Region 2 Office in New York, New York. The documents described in Paragraph 5(F)(i) of this Declaration produced through this in-place production included bulk responses submitted by various utilities pursuant to

information requests issued by EPA to those utilities. This in-place production of information request responses did not include any information claimed by responders to be confidential business information. The Defendants reviewed the documents produced at the EPA Region 2 office in New York and identified which of those documents the Defendants wished to have produced on CD-ROM. The documents so identified by Defendants were then sent by Region 2 to DOJ for scanning and production.

10. David Stone, Chief of the Air Branch of the Office of Regional Counsel for Region 2, reviewed all responsive documents for which a claim of privilege was suggested and identified which of those documents were potentially privileged. He then forwarded that information to DOJ for creation of a privilege log.

11. In addition, David Stone was asked to assist the EPA records officer for Region 2 in identifying potentially responsive boxes of documents located at the Federal Records Center in Kansas City, Missouri by reviewing Forms SF-135 (Records Transmittal and Receipt) in our files that describe to some degree the contents of the boxes. With the assistance of Region 2's records officer and Labat, Inc. (DOJ's contractor), potentially responsive documents in the Federal Records Center in Kansas City, Missouri were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on 9/26/02.

Kenneth Eng
Chief, Air Compliance Branch
U.S. EPA, Region 2
290 Broadway
New York, New York 10007

EPA Region 3

DECLARATION OF DONNA L. MASTRO

I, Donna L. Mastro, do hereby declare:

1. I am a Senior Assistant Regional Counsel for the United States Environmental Protection Agency, Region III ("EPA Region III") in Philadelphia, PA.

2. On behalf of EPA Region III, I am responsible for coordinating the search in EPA Region III for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative. The Initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and I am generally familiar with the kinds of information sought by the

Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice ("DOJ") provided summaries of the records sought by the defendants, collectively, in the Initiative. Following my review of these summaries and consultation with counsel for DOJ, I consulted the following agency components in EPA Region III to determine which locations might contain responsive documents: Air Protection Division, Office of Regional Counsel, Office of Environmental Innovation, Office of Communications and Governmental Relations, Office of Enforcement, Compliance, and Environmental Justice, Environmental Services Division, Hazardous Site Cleanup Division, Waste and Chemicals Management Division, Criminal Investigative Division, Office of the Inspector General, and Office of Policy and Management. I selected these components based on my consultation with Region III management and my personal knowledge of the organizational structure within Region III. The scoping efforts undertaken to determine the scope and extent of documents that may be responsive to the document production requests included interviews with knowledgeable personnel, dissemination of the summaries of the Discovery Requests to knowledgeable personnel, and a meeting with personnel in the Air Protection Division in EPA Region III to discuss the Discovery Requests.

4. Through the consultation and scoping efforts described in Paragraph 3, EPA Region III identified the following offices, including the office file room, office file space and individual staff files in each office, as potential locations of responsive documents to be searched: Air Protection Division, Office of Regional Counsel, Office of Environmental Innovation, Office of Communications and Governmental Relations, Office of Enforcement, Compliance, and

Environmental Justice, Environmental Services Division, Hazardous Site Cleanup Division, Criminal Investigative Division, Office of the Inspector General, and Office of Policy and Management.

5. I sent copies of the summaries of the information sought by the Discovery Requests to the agency components identified as potential locations of responsive documents and requested a thorough search for all potentially responsive documents. The summaries sought the following information:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil-fuel fired utility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

vi. Commencement of construction

C. Any files or documents on any of the power plants at issue in this initiative (Attachment A);

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between the terms "routine maintenance" and "major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any actions against coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. files or collections of documents that relate to any testimony or statement, written or oral, in <u>any</u> proceeding by anyone affiliated with EPA or on behalf of EPA,

concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. Any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal-fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

xv. The number of administrative or judicial enforcement actions brought against fossil fuel-fired utilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification;

E. Remedy documents to include:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, particulate matter or acid rain;

ii. Any collections of documents or files relating to the transport of emissions from coal-fired boilers in the plants listed in Attachment A;

iii. Any studies or collections of documents discussing the impacts on

human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

i. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

ii. The appropriate injunctive relief at any of the plants listed in Attachment A;

iii. The civil penalty that should be imposed against any of the plants listed in Attachment A.

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests to utilities dated after January 1, 1999;

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired power plant other than those listed in Attachment A.

I. Additional Requests for Documents

i. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims.

ii. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal-fired utility.

iii. All documents that relate to any USEPA proposals to revise or

modify or provide further guidance on the WEPCO Rule.

iv. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers.

v. All documents related to techniques for inspection of coal-fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

vi. Any letters from states to EPA commenting on the Power Plant initiative.

vii. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel-fired power plants.

6. The files of the following EPA Region III employees were searched for information described in Paragraph 5 above:

Office of Regional Counsel: Robert Smolski, Wanda Lewis, Neil Bigioni, A.J. D'Angelo, Judith Hykel, Donna Mastro, Doug Snyder, Russell Swan, James Baker, Dennis Abraham, William Smith, Hilda Burgos, Charles Howland, Beth Termini.

Hazardous Site Cleanup Division: David Turner.

Office of Environmental Innovation: Steven J. Donohue, Charles Howland, Beth Termini.

Office of Communications and Governmental Regulation: David Sternberg.

Air Protection Division: Humberto, Monsalvo; McGuigan, David; McFadden, Angela; Au,

Doreen; Clibanoff, Andrew; Foley, Patrick; Katz, Judith M.; Brooks, Sally; Wright, Elaine B.; Bowen, Russ; Diggs, Carrie; Duhadway, Karen; Febbo, Carol; McBride, Robert; Serrano, Olga; Turlinski, Bernie; Mendez, Marilyn; Baltera, Danielle; Guarni, Robert; Madison-Glen, Louvinia; Valls, Gerallyn; Spink, Marcia; Gonzalez, Carmen; Frankford, Harold; Morris, Makeba; Roselli, Jeanne; Browne, William; Campbell, David; Chalmers, Raymond; Drago, Helena; Dufficy, Grant; Ioff, Michael; Miller, Linda; Paez, Angela; Pandya, Perry; Spain, Melik; Weiss, Donna; Wentworth, Paul; Pilla, Chris; Samuels, Rosetta; Curtin, Jerome; Eaton, Richard; Hagedorn, James; Horgan, Theresa; Hosford, Bowen; Killian, Richard; McNally, Dianne; Seligman, Andrew; Arnold, David; Purnell, Rhonda; Wilkie, Walter; Walker, Beverly; Bunker, Kelly; Chow, Alice; Cimorelli, Alan; Cripps, Christopher; DeVose, Pauline; Ellsworth, Todd; Fernandez, Cristina; Flores-Brown, Pat; Harris, Betty; Knapp, Ruth; Kremer, Janet; Lewis, Janice; Lohman, Denis; Magliocchetti, Cathy; Markowski, Mike; Quinto, Rose; Rehn, Brian; Smith, J.D.; Stahl, Cynthia; Topsale, James; Webster, Jill; Wentworth, Ellen; Kramer, Robert; Paul, Ruth; Belanger, Bill; Budney, Larry; Denmark, Mindee; Dougherty, Fran; Ellis, Darice; Fellisen, Lewis; Minnick, Sheri; Schulingkamp, Cristina; Smith, Bruce; Valdez, Brian.

7. Each agency component which was requested to search files for information described in Paragraph 5 above has responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in the following locations: Air Protection Division, Office of Regional Counsel, Office of Environmental Innovation, Office of Communications and Governmental Relations, Office of Enforcement, Compliance, and Environmental Justice, Hazardous Site Cleanup Division, and Office of the Inspector General.

8. The search took place over the course of four months. The approximate amount of time spent conducting the search was at least 1,168 hours. The approximate amount of linear feet searched was at least 634 linear feet.

9. Once responsive documents were identified, EPA Region III personnel bates-stamped and copied the documents. A set of documents was then sent to the Department of Justice which, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

10. Prior to determining the set of responsive documents for the earlier Round I production during 2000, DOJ undertook a privilege review to determine which documents should be withheld on the grounds of privilege. DOJ attorneys then reviewed the documents for privilege and directed the preparation of a privilege log for those documents determined to be potentially privileged. Prior to determining the set of responsive documents for the Round II production during 2001, the Office of Regional Counsel undertook a privilege review to determine which documents should be withheld on the grounds of privilege. EPA Region III attorneys in the Office of Regional Counsel reviewed the documents for privilege. EPA Region III attorneys directed the preparation of a privilege log for those documents determined to be potentially privileged. Documents determined not to be potentially privileged were sent to the Department of Justice for scanning. More specific information on the assertion of the deliberative process privilege will be provided in a Declaration from EPA Region III's Regional Administrator asserting the deliberative process privilege.

11. The production of responsive documents from the Federal Records Centers (FRCs) across the country was coordinated in Washington, D.C. by DOJ and its contractor, Labat, Inc. Doug Snyder, Senior Assistant Regional Counsel, and I were asked to assist our EPA

records officer in identifying potentially responsive boxes of documents located at the FRC in Philadelphia, PA by reviewing Forms SF-135 (Records Transmittal and Receipt) and accompanying box lists in our files that describe to some degree the contents of the boxes. With the assistance of our EPA records officer and Labat, Inc. and attorneys from the DOJ, potentially responsive boxes in the FRC in Philadelphia, PA were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 19, 2002

EPA Region 4

DECLARATION OF CHARLES V. MIKALIAN

I, Charles V. Mikalian, do hereby declare:

1. I am an Associate Regional Counsel for the United States Environmental Protection Agency, Region 4 ("EPA Region 4") in Atlanta, Georgia.

2. On behalf of the Environmental Protection Agency ("EPA"), I am responsible for coordinating the search in EPA Region 4 for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative. This initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice (DOJ) provided summaries of the records sought by the defendants, collectively, in the initiative. Following my review of these summaries and consultation with counsel for DOJ, I consulted the following agency components in EPA Region 4 to determine which locations might contain responsive documents: Air Pesticides and Toxics Management Division, Environmental Accountability Division, Office of the Regional Administrator, the Athens laboratory, the Gulf of Mexico field office, and the South Florida field office. I selected these components based on my consultation with Region 4 management and my personal knowledge of the organizational structure within Region 4. Through this scoping effort, EPA Region 4 identified each of those offices as potential locations to be searched for responsive documents.

4. I sent copies of summaries of the information sought by the Discovery Requests to the agency components identified in Paragraph 3 and requested a thorough search for all potentially responsive documents. Based on the summaries, I requested the following:

A. Applicability Determinations, regardless of industrial category;

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter that resulted in an applicability determination with regard to any of the power plants in this initiative:

(i). routine maintenance;

(ii). emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

a. actual emissions,

b. potential to emit,

c. net emissions increase,

d. representative actual emissions,

e. source-specific allowable emissions;

(iii). What constitutes a major modification;

(iv). EPA's restart policy;

(v). Fossil-fuel fired steam generators;

C. Files on sources in any of the power plants at issue in this initiative.

D. Documents relating to interpretation and application of the Clean Air Act Modification Rule and the differentiation between "routine maintenance" and "major modification", as follows:

(i). files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source, at any plant in the Utility Initiative were subject to regulation under PSD, NSPS, or a state SIP;

(ii). files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any actions against the coal-fired electric generating facilities;

(iii). files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production";

(iv). files or collections of documents that relate to any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the case against Illinois Power in any way;

(v). All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the case against Illinois Power in any way;

(vi). files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to

differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

(vii). Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under 35 Illinois Administrative Code § 201.102;

(viii). Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

a. files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative;

b. files or collections of documents relating to the number of projects or physical or operational changes undertaken by utilities from 1977 to the present;

(ix). Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

(x). Any cases or maters that involved the issuance of the WEPCO rule;

(xi). Any cases or matters that involved a BACT determination for any coal fired utilities;

(xii). Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

(xiii). Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

(xiv). The number of NSR permits issued to utilities from 1977 to the present;

(xv). The number of administrative or judicial enforcement actions brought against utilities from 1971 to 1996 asserting that a utility performed a modification.

E. State Implementation Plans

(i). Collections of documents or files relating to PSD or NSPS applicability determinations made by Illinois or any determination made by Illinois regarding the applicability of construction permit

requirements to existing sources undergoing a "modification" as defined by 35 Illinois Administrative Code § 201.102.

(ii). Collections of documents or files relating to whether EPA has published or is required to publish the Illinois SIP and the implementation plans of other states.

(iii). Collections of documents or files referring to publication of SIPS pursuant to §110 of the Clean Air Act, 42 U.S.C. § 7410(h).

F. Remedy Issues

(i). Any collections of documents or files relating to the health or environmental effects of emissions from any of the plants in the Utility Initiative, including NOx, SO2, ground level ozone, and acid rain;

(ii). Any collections of documents or files relating to the transport of emissions from any of the plants in the Utility Initiative;

(iii). Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, or particulate matter from coal-fired boilers.

G. Injunctive relief/control technology:

(i). BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

(ii). The appropriate injunctive relief at any of the plants in the initiative;

(iii). The civil penalty that should be imposed against any of the plants in the initiative.

H. Agreements with the States

Any agreements between EPA and any of the states with plants in the initiative that relate to the authority of the states to administer the PSD or NSPS program.

I. NOVs and 114 Requests

(i). Section 114 requests and responses (but no confidential business information) dated after January 1, 1999, and sent to any fossil-fueled power plant.

(ii). NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired power plant.

5. The following EPA Region 4 employees searched for information described in Paragraph 4:

Air, Pesticides and Toxics Management Division

Winston Smith, Dick Schutt, Randy Terry, Scott Martin, Joey Levasseur, Michelle Notorianni, Alison Humphies, Stacey Bouma, Jean Campbell, Jason Dressler, Floyd Ledbetter, David Lloyd, Wendell Reed, Dan Lucero, Yvonne Lawson, Dennis Kler, Todd Russo, Doug Neeley, Karen Cody, Greg Worley, Ed Carreras, Jim Little, Joel Huey, Len Haynes, Keith Goff, Art Hofmeister, Jenny Jachim, Gracy Danois, David McNeal, Kelly Fortin, Kathleen Forney, Stan Kukier, Darrin Palmer, Scott Miller, Scott Davis, Daphne Wilson, Cesar Zapata, Stan

Krivo, Brenda Johnson, Doug Jager, John Ackerman, Vivian Doyle, Thomas Dzomba, Richard Guillot, Van Shrieves, Richard Gilliam, Ken Mitchell, Thomas Lyttle.

Environmental Accountability Division

Phyllis Harris, Bill Anderson, Nancy Tommelleo, Angelia Blackwell, Charles Mikalian, Lynda Crum, Alan Dion

Office of the Regional Administrator

Stanley Meiburg, Daisy Sawicki, Elaine Lewis, Becky Hendrix, Alison Wise, Carl Terry

Athens laboratory

Jim McGuire, Herbert Barden, Danny France, Jim Littell, Jerry Burger, Charles Padgett

South Florida field office

Jan Rogers

Gulf of Mexico field office

Diane Altsman

6. Each individual identified in Paragraph 5 has responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in the following locations: Air, Pesticides and Toxics Management Division, the Environmental Accountability Division, the Office of the Regional Administrator, and the Gulf of Mexico field office.

7. The search took place between March and May, 2001. The approximate amount of time spent conducting the search was at least 255 hours. The approximate volume of material searched by Region 4 personnel is 119 file feet.

8. Except as provided in Paragraph 9 of this Declaration, Region 4 bates-stamped and copied responsive documents. A set of the documents was then sent to DOJ which, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

9. Certain of the responsive documents were not produced through the procedure set forth in Paragraph 8 of this Declaration. Documents described in Paragraph 4(F) of this Declaration, and some documents described in Paragraph 4(I)(i) of this Declaration, were made available for Defendants to review at the EPA Region 4 Office in Atlanta, Georgia. The documents described in Paragraph 4(I)(i) of this Declaration produced through this in-place production included bulk responses submitted by various utilities pursuant to information requests issued by EPA to those utilities. This in-place production of information request responses did not include any information claimed by responders to be confidential business information. The Defendants reviewed the documents produced at the EPA Region 4 office in Atlanta and identified which of those documents the Defendants desired to have produced on CD-ROM. The documents so identified by Defendants were then sent by Region 4 to DOJ for scanning and production.

10. EPA Region 4 attorneys in the Office of Legal Support reviewed the responsive documents for privilege and prepared a privilege log for those documents determined to be potentially privileged. More specific information on the assertion of the deliberative process privilege will be provided in a declaration from EPA Region 4's Regional Administrator asserting the deliberative process privilege.

11. In addition, I was asked to assist EPA records management staff for Region 4 in identifying potentially responsive boxes of documents located at or designated for the Federal

Records Center locations in and near Atlanta, Georgia. Potentially responsive documents were identified by reviewing Forms SF-135 (Record Transmittal and Receipt), box lists and similar documents which describe to some degree the contents of the boxes. Upon review of these forms, box lists and similar documents, and with the assistance of Region 4 records management staff and Labat, Inc., potentially responsive boxes of documents from these locations were pulled and shipped to Washington, D.C. Other files with potentially responsive documents identified by Region 4 records management staff in the files of the Region 4 Environmental Accountability Division were also identified during this effort and were also shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 17, 2002

DECLARATION OF ERIC COHEN

I, Eric Cohen, declare:

1. I am employed by the United States Environmental Protection Agency (EPA) as a Branch Chief for Multi-Media Branch 2 in the Office of Regional Counsel for Region 5 (ORC). I have worked as a Branch Chief for ORC since 1992. As one of the two branch chiefs for ORC my responsibilities include management of approximately 50 attorneys and support staff. I am also responsible for managing ORC's air practice on behalf of Region 5's Air and Radiation Division (ARD). This includes identification and development of air enforcement cases.

2. As a part of my duties as the ORC branch chief liaison for ARD, I oversee Region 5's role in the United States's litigation against a number of coal-fired power plants. On November 3, 1999, the United States filed an initial round of civil judicial actions against these power plants. The United States later amended certain of those civil judicial actions. Collectively, the following cases are referred to as the "Utility Initiative": *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S).

3. I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") of the Clean

Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants in the cases listed in paragraph 2 ("Defendants").

4. The Defendants in the Utility Initiative directed document production requests ("Discovery Requests") to the United States in the above actions. I am generally familiar with the kinds of information sought by the Discovery Requests. I am responsible for staffing the Utility Initiative Production in EPA Region 5 for the purpose of producing information responsive to these Discovery Requests.

5. ORC attorneys reviewed summaries of the Discovery Requests and production guidance prepared by the Department of Justice ("DOJ") and consulted with counsel from DOJ regarding the document search. ORC attorneys were then assigned to consult with the following agency components in EPA Region 5 to determine which locations might contain responsive documents: Air Enforcement and Compliance Assurance Branch, Air Monitoring Section, Air and Radiation Front Office, Eastern District Office, Chicago Federal Records Center, Information Management Branch, Resource Management Division's Acquisition and Assistance Branch, Permits and Grants Northern States Section, Permits and Grants Southern States Section, Office of Public Affairs, ORC, Office of Regional Administrator, Regional Library, Regulation Development Northern States Section, and Regulation Development Southern States Section. The efforts undertaken to determine the scope and extent of documents that may be responsive to the Discovery Requests based upon DOJ guidance and advice included: interviews with knowledgeable personnel, dissemination of the summaries of the Discovery Requests to knowledgeable personnel, and meetings with personnel in the relevant EPA Region 5 offices to discuss the Discovery Requests.

6. Through the consultation and scoping efforts described in paragraph 5, EPA Region 5

identified the following offices as potential locations of responsive documents to be searched: Air Enforcement and Compliance Assurance Branch, Air Monitoring Section, Air and Radiation Front Office, Eastern District Office, Chicago Federal Records Center, Information Management Branch, Resource Management Division's Acquisition and Assistance Branch, Permits and Grants Northern States Section, Permits and Grants Southern States Section, ORC, Office of Regional Administrator, Regional Library, Regulation Development Northern States Section, and Regulation Development Southern States Section.

7. After identifying the offices described in paragraph 6, the following EPA Region 5 personnel were either provided the DOJ summaries of the Discovery Requests and/or briefed on the content of the DOJ summaries of the Discovery Requests and were instructed to, or assisted in, the search for responsive documents in accordance with DOJ guidance: **Air Enforcement and Compliance Assurance Branch:** Immediate Office - Mary Clark, George Czerniak, Frances Dean, Debra Flowers, Barbara Mack, Patric McCoy, David Schulz, Bruce Varner, Edward Wojciechowski; Illinois/Indiana Section - Nicholas Autry, Eugenia Bauer, Shaun Burke, Bonnie Bush, Howard Caine, Cynthia Curtis, Sara Dauk, Loren Denton, Sarah Graham, Linda Hamsing, Katherine Keith, Morgan Jencius, Brent Marable, Nhien Pham, Lucille Penson, Lynne Suesse, Noel Vargas, Betty Williams; Michigan/Wisconsin Section - Farro Assadi, Andre Bielanski, Tanya Boomer, Spiros Bourgikos, Joseph Cardile, Jennifer Darrow, Newton Ellens, Michelle Farley, Sherry Finley, Jeffrey Gahris, Renee Honore, Rochelle Marceillars, Monojkumar Patel, Shanee Rucker, Peter Spyropoulos, Kathy Triantafillou, Stephanie Valentine; Minnesota/Ohio Section - Versia Boyd, Jeffrey Bratko, Will Brooke, Julie Capasso, Greg Chomycia, Charles Hall, Erik Hardin, Lisa Holscher, William MacDowell, Julie Monahan, Nancy Mugavero, Peter Poon, Christina Prasinos, John Shepler, Margaret Sieffert, Rae Trine, Kevin Vuillemier.

Air Monitoring Section: Basim Dihu, Scott Hamilton, Loretta Lehrman, Dania Rafiu, Gordon Jones, Michael Rizzo.

Air and Radiation Front Office: Sharon Freeman, Naimah Karim, Mardi Klevs, Bharat Mathur, Cheryl Newton, Stephen Rothblatt, Stephen See, James Vander Kloot, Geraldine Worthy.

Eastern District Office: Region 5 Chicago Office personnel assisted the Eastern District Office in conducting a search of the files the Eastern District Office personnel informed them were potentially responsive to the summary.

Chicago Federal Records Center and Information Management Branch: Region 5 reviewed the indices for the archived boxes. Region 5 personnel also assisted in the national effort to produce documents from the Federal Records Centers.

Resource Management Division's Acquisition and Assistance: Region 5 provided all on-site air program files located in this office's file room as part of an in-place production.

Permits and Grants Northern States Section: Constantine Blathras, Shaheerah Fateen, Faye Biondin, Benjamin Giwojna, Laura Hartman, Robert Miller, Kathleen Mullen, Rachel Rineheart, Susan Siepkowski, Beth Valenziano, Eaton Weiler.

Permits and Grants Southern States Section: Jorge Acevedo, Richard Cox, Genevieve Damico, Steve Gorg, Kaushal Gupta, Janet Harris, John Kelly, Steve Marquardt, Cecilia Mijares, Sam Portnova, Pallavi Reddy, Lauren Steele, Kushal Som, Noreen Weimer, Dennis Wychocki.

Office of Regional Administrator: Mary Canavan, Shirley Dorsey, Phil Hoffman, Frank Lyons, Anne Rowan, David Ullrich, Kenneth Westlake

Office of Regional Counsel: Sabrina Argentieri, Ignacio Arrazola, Donald Ayres, Brian Barwick, Michael Berman, Randa Bishlawi, Hedi Bogda, Terry Branigan, Jeff Cahn, Nicole

Cantello, Deborah Carlson, Tamara Carnovsky, James Cha, Monesh Chabria, Kevin Chow, Richard Clarizio, Eric Cohen, David Cohen, Ann Coyle, Andre Daugavietis, Jose de Leon, Diana Embil, Sherry Estes, Peter Felitti, Rodger Field, Catherine Fox, Bertram Frey, Mary Fulghum, Eileen Furey, Deborah Garber, Mark Geall, Gail Ginsberg, Joanna Glowacki, Maria Gonzalez, Roger Grimes, Louise Gross, Robert Guenther, Stuart Hersh, Nola Hicks, Larry Johnson, Cynthia Kawakami, Thomas Kenney, Thor Ketzback, Cynthia King, Cheryl Klebenow, Padmavati Klejwa, Thomas Krueger, Jerome Kujawa, Larry Kyte, Sandra Lee, Christine Liszewski, Janice Loughlin, Jame Lupton, Thomas Martin, John Matson, Mary McAuliffe, Michael McClary, Craig Melodia, Stephen Mendoza, Orelia Merchant, Edward Messina, Jacqueline Miller, Jim Morris, David Mucha, Richard Murawski, Richard Nagle, Thomas Nash, Leverett Nelson, Nidhi Omeara, Mark Palermo, Reginald Pallesen, Karen Peaceman, Susan Perdomo, Lillian Pinzon, Gary Prichard, Susan Prout, Connie Puchalski, Kathleen Schnieders, Michael Smith, Robert Smith, Terence Stanuch, John Steketee, Deirdre Tanaka, Susan Tennenbaum, Robert Thompson, Timothy Thurolow, John Tielsch, Jeffery Trevino, Thomas Turner, Gaylene Vasaturo, Richard Wagner, William Wagner, Alan Walts, Barbara Wester, Joseph Williams, Tom Williams, Jane Woolums.

Regional Library: Electronic card catalogue was searched.

Regulation Development Northern States Section: Douglas Aburano, Alexis Cain, Kathleen D'Agostino, Charles Hatten, Suzanne King, Michael Leslie, John Mooney, Carlton Nash, Todd Nettesheim, Jacqueline Nwia, Michele Palmer, Christos Panos, Randall Robinson, Erin White.

Regulation Development Southern States Section: Francisco Acevedo, Ryan Bahr, Jay Bortzer, Randy Cano, Edward Doty, Jeremiah Hall, William Jones, Israel Martinez, Patricia Morris, Phuong Nguyen, John Paskeviscz, David Pohlman, Mary Portanova, Mathew Rau, John

Summerhays.

8. ORC attorneys informed me that each agency component that was determined to potentially have responsive documents responded either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in the following locations: Air Enforcement and Compliance Assurance Branch, Air Monitoring Section, Air and Radiation Front Office, Eastern District Office, Chicago Federal Records Center, Information Management Branch, Resource Management Division's Acquisition and Assistance Branch, Permits and Grants Northern States Section, Permits and Grants Southern States Section, ORC, Office of Regional Administrator, Regional Library, Regulation Development Northern States Section, and Regulation Development Southern States Section.

9. Once responsive documents were identified, efforts were undertaken to Bates-label and copy the documents in EPA Region 5. The document production was conducted in two phases. For Phase I of the production, two sets of the documents were sent to DOJ, where a privilege review was conducted. For Phase II of the production, ORC conducted a privilege review of a set of the documents and created a privilege log for those documents determined to be either privileged or claimed as confidential business information ("CBI"). Then, ORC sent a copy of the non-privileged and non-CBI set of documents to DOJ which, through its contractor Labat, Inc., arranged for the scanning of the documents on to CD-ROMs.

10. EPA Region 5 personnel reported that they spent at least 26,739 hours on the Utility Initiative Document Production. This includes time EPA Region 5 personnel spent searching, collecting, labeling, copying, privilege reviewing, and logging the documents. This time does not include the hundreds of hours contractors spent working on the Utility Initiative Document

Production. EPA Region 5 personnel reported that they searched at least 6,927 feet of documents to locate responsive documents. This does not include the volume of documents searched from the Federal Records Center. This also does not include the volume of documents searched by contractors working on the Utility Initiative Document Production.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that to the best of my knowledge the foregoing is true and correct.

Executed on 9/24/02.

EPA Region 6

DECLARATION OF JOHN HEPOLA

I, **John Hepola**, do hereby declare:

1. I am the Chief of Air/Toxics and Inspection Coordination Branch, Compliance Assurance and Enforcement Division, EPA Region 6, Dallas, Texas.

2. On behalf of Region 6 of the U.S. Environmental Protection Agency ("EPA"), I am responsible for coordinating the search for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative, including the following cases *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S) (the "Initiative). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice ("DOJ") provided summaries of the records sought by the defendants, collectively in the Initiative. Following my review of the information sought by the Discovery Requests and consultation with counsel for the DOJ , I coordinated Region 6's review of its records to identify responsive documents. I consulted the following agency components to determine which locations might contain responsive documents: Air Enforcement, Air Permitting, Air Planning and Regional Counsel and selected these components based on my personal knowledge of the organizational structure within Region 6.

The scoping efforts undertaken to determine the scope and extent of documents that may be responsive to the document production requests included consultations with the knowledgeable staff, supervisors and DOJ .

4. Through the consultation and scoping efforts described in para. 3, I identified the following potential locations of responsive documents, all of which were searched for responsive documents: the files located in the offices of Permitting, Planning, Enforcement, and Regional Counsel.

5. I sent summaries of the information sought by the Document Requests to the agency components identified as potential sources of documents, and requested a thorough search for all potentially responsive documents. Based on the summary of information sought by the Discovery Requests, I requested the following information:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fueled fired facility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

C. Any files or documents on any of the power plants at issue in this initiative (Attachment A);

D. Documents relating to interpretation and application of the Clean Air Act requirements for Modification and the difference between the terms 'routine maintenance" and 'major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air

Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any the actions against coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

iv. files or collections of documents that relate to any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

vii. Any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

xv. The number of administrative or judicial enforcement actions brought against fossil fuel fired facilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification;

E. Remedy documents, to include:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, or acid rain;

ii. Any collections of documents or files relating to the transport of emissions from coal-fired boilers (from the plants listed in Attachment A);

iii. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

i. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

ii. The appropriate injunctive relief at any of the plants listed in Attachment A;

iii. The civil penalty that should be imposed against any of the plants listed in Attachment A.

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any CBI.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired facility other than those listed in Attachment A.

6. The following EPA employees searched files for information described in paragraph 5 above:

Air Enforcement: Toni Allen, Donna Ascenzi, Martin Britain, Elizabeth Cannon, Minera Deleon,David Garcia, Barry Feldman, John Hepola, Virginia Hughes, Michelle Kelly,John Jones,Ray Magyar, Gerald Mokry, Richard Raybourne, Joe Winkler, and Jon York.

Air Permitting: Richard Barrett, Bonnie Braganta, Daron Page,and Stanley Spruiell.

Air Planning: John Crocker

Regional Counsel: Rick Bartley, Trevor Black, Mark Ford, Jan Gerro, Ben Harrison, Rusty Herbert, Suzanne Murray, Lucinda Watson, and Jon Weisberg.

7. Each agency component to which information described in par. 5 above was forwarded has responded, either by providing responsive documents or by reporting that no responsive documents were found. The person(s) responsible for the document search in each agency component office has provided a Certification that the search had been completed and that all responsive documents had been identified. Documents responsive to the Discovery Requests have been located in the following locations: files of EPA Region 6, Permitting, Enforcement, and Regional Counsel.

The bulk of the search took place over the course of 03/10/01 - 04/10/01. The approximate amount of time spent conducting the search was 325 hours.

8. Once responsive documents were identified, efforts were undertaken to bates-stamp and copy the documents.

A set of documents was then sent to the Department of Justice which, I understand, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

10. Prior to determining the set of responsive documents, our Office of Regional Counsel undertook a privilege review to determine which documents should be withheld on the grounds of privilege. The documents were reviewed by attorneys and any privileged documents were accounted for on a privilege log.

11. In addition, Trevor Black, with the assistance of the EPA records officer for Region 6, and in consultation with a DOJ attorney, identified potentially responsive boxes of documents located at the Federal Records Center in Ft. Worth, Texas by reviewing Forms SF-135 (Records Transmittal and Receipt) in our files that describe to some degree the contents of the boxes. With the assistance of Region 6's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Ft. Worth, Texas were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on SEPT. 24, 2002.

EPA Region 7

DECLARATION OF Jon Knodel

I, Jon Knodel, do hereby declare:

1. I am an Environmental Engineer with EPA Region 7's Air Permitting and Compliance Branch located in Kansas City, Kansas.

2. On behalf of the U.S. Environmental Protection Agency ("EPA"), I am responsible for coordinating the search in EPA Region 7 for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative. This initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S).

I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

vi. Commencement of construction

C. Any files or documents on any of the power plants at issue in this initiative (Attachment A);

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between the terms "routine maintenance" and "major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source, is subject to regulation under PSD, NSPS, or a state SIP;

vii. Any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of and application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to

ii. The appropriate injunctive relief at any of the plants listed in Attachment A;

iii. The civil penalty that should be imposed against any of the plants listed in Attachment A.

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any CBI.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel fired facility other than those listed in Attachment A.

5. The following EPA employees were requested to search files for information described in paragraph 4 above:

Current Air Program staff: Donald Toensing, Angela Catalano, Bill Peterson, Dan Rodriguez, Gary Schlicht, Jon Knodel, Lisa Hanlon, Michael Bronoski, Richard Tripp, Ward Burns, Kevin Barthol, and Earlyne Hill;

Former Air Program Staff: Anthony Petruska, JoAnn Heiman, Mary Mindrup, Steve Kovak, and Ed Buckner, Mark Gettle and Wayne Leidwanger.

EPA7GEN --- documents taken from our general administrative files
EPA7REF --- documents taken from our reference library
EPA7APCO --- documents taken from the Air Permits and Compliance Branch (APCO) source files, reading files, or other staff documents
EPA7ORC --- documents provided by our Office of Regional Counsel

The labeling and copying process took an approximate 165 staff-hours to complete. Following completion of the bates-stamping and copying process, we sent each series of documents to the Department of Justice which, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

9. Certain of the responsive documents were not produced through the procedure set forth in paragraph 8 of this Declaration. Approximately 120 linear feet of Air Permitting and Compliance Branch and Air Planning and Development Branch technical library documents, along with Region 7's general NSR and NSPS administrative files and NAAQS criteria documents, were made available for Defendants to review at the EPA Region 7 office in Kansas City, Kansas. The Defendants reviewed the documents produced at the EPA Region 7 office on December 4-6, 2001, December 17-19, 2001, and February 3-5, 2002. Defendants identified approximately 10,100 pages of those documents which the Defendants desired to have produced on CD-ROM. The documents so identified by Defendants were then sent by Region 7 to the Department of Justice for scanning and production.

10. EPA Region 7 attorneys in the Office of Regional Counsel reviewed the responsive documents for privilege and prepared a privilege log for those documents determined to be potentially privileged. The privilege review took approximately 72 staff-hours to complete. More

 ATTACHMENT A

A SUMMARY OF THE UTILITIES, THEIR POWER PLANTS, AND THEIR LOCATIONS:

Parent and Operating Cos.	Power Plant Name	Location
American Electric Power Columbus, OH (AEP Service Corp., Indiana Michigan Power, Ohio Power, Appalachian Power, Cardinal Operating, Central Operating Co.) EPA Region 8

DECLARATION OF RONALD L. RUTHERFORD

I, Ronald L. Rutherford, do hereby declare:

1. I am the Senior Air Enforcement Coordinator for U.S. EPA Region VIII in Denver, Colorado.

2. On behalf of the U.S. Environmental Protection Agency ("EPA"), I am responsible for coordinating the search for information responsive to Defendants' discovery requests ("Discovery Requests") that were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Enforcement Initiative. The Initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying action, namely, that there are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice (DOJ) provided summaries of the records sought by the defendants, collectively, in the Initiative. Following my review of these summaries and in consultation with counsel for DOJ, I consulted the following agency components in EPA Region VIII to determine which locations might contain responsive documents: personnel of Region 8's Office of Partnerships and Regulatory Assistance, Office of Regional Counsel, and Office of Enforcement, Compliance and Environmental Justice. I selected these components based on my consultation with Region VIII management and my personal knowledge of the organizational structure within Region VIII. The scoping efforts undertaken to determine the potential locations of documents that may be responsive to the document production requests included notifying by email and/or conducting personal conversations and meetings with all managers and staff in Region VIII that had the potential for possessing responsive documents.

4. Through the consultation and scoping efforts described in paragraph 3, we identified the following potential locations of responsive documents, all of which were searched for responsive documents: National Records Center in Denver, Colorado, managers' and staffs' offices and file rooms located in the Office of Regional Counsel, Office of Partnerships and Regulatory Assistance, Office of Enforcement, Compliance and Environmental Justice in the EPA Region VIII offices at 999 18th Street, Denver, Colorado.

5. I sent copies of the information sought by the Discovery Requests, or summaries of such information, to the agency components identified as potential locations of responsive documents, and requested a thorough search for all potentially responsive documents. In addition, I conducted a meeting of all managers and staff who believed they might have responsive documents to further explain the scope of the documents requested and answer clarifying questions. Based on the

summaries, I requested the following:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or § 60.15 from December 23, 1971 to date for any source, regardless of industrial category;

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter with regard to any fossil fuel-fired facility (if the facility makes steam):

i. Routine maintenance.

ii. Emissions calculations supporting a determination that physical change or change in the method of operation was significant. Interpretation and application of the terms:

a. actual emissions

b. potential to emit

c. net emissions increase

d. representative actual emissions

e. source-specific allowable emissions

iii. What constitutes a major modification.

iv. EPA's restart policy.

v. Fossil-fuel fired steam generators.

vi Commencement of construction

C. Any files or documents on any of the power plants at issue in this initiative (Attachment A).

D. Documents Identified by the Court as Relating to Interpretation and Application of the Clean Air Act Modification Rule and the Differentiation between 'Routine Maintenance" from 'Major Modification. These are as follows:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP.

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any actions against coal-fired electric generating facilities.

iii. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production."

iv. files or collections of documents that relate to any testimony or statement, written or oral, in <u>any</u> proceeding by anyone affiliated with you or on behalf of you concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has

brought against the power plants.

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants.

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act.

vii. Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under 35 Illinois Administrative Code § 201.102.

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements.

a. files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this power plants Initiative.

b files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present.

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments.

x. cases or matters that involved the issuance of interpretation of and application of the WEPCO rule.

xi. Any cases or matters that involved a BACT determination for any coal fired utilities.

xii. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring).

xiii. Any documents regarding state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc).

xiv. The number of NSR permits issued to utilities from 1977 to the present.

xv. The number of administrative or judicial enforcement actions brought against utilities from 1971 to 1996 asserting that a utility performed a modification.

E. Remedy documents, including:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, particulate matter, and acid rain.

ii. Any collections of documents or files relating to the transport of emissions from the plants listed in Attachment A.

iii. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground level ozone, or particulate matter.

F. Injunctive Relief/control technology

i .BACT or LAER determinations applicable to coal fired boiler from 1980 to the present.

ii. The appropriate injunctive relief at any of the plants listed in attachment A.

iii. The civil penalty that should be imposed against any of the plants listed in attachment A.

G. Agreements between EPA and any of the States listed in attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests and responses dated after January 1, 1999 to any fossil fueled power plant other than those in Attachment A, excluding

any CBI.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fueled power plant other than those in Attachment A.

I. Additional Requests for Documents.

i. All EPA guidance and policy documents on "continuing violations" theory as a defense to statute of limitations claims under the Clean Air Act..

ii. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal fired utility.

iii. All documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule.

iv. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers.

v. All documents related to techniques for inspection of coal fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

vi. Any letters from States to EPA commenting on the Power Plant initiative.

vii. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel fired power plants.

6. The files of the following EPA Region VIII employees were searched for information described in paragraph 4 above: Albion Carlson, Meredith Bond, Catherine Collins, Thomas Driscoll, James Eppers, Kevin Golden, Mark Komp, Douglas Latimer, Sara Laumann, Scott Lee, Richard Long, Teresa Lukas, Monica Morales, Dennis Myers, Laurie Ostrand, Michael Owens, Art Palomares, Kathleen Paser, Amy Platt, Cindy Reynolds, David Rochlin, Cindy Rosenberg, Ellen Rubin, Tim Russ, Ronald Rutherford, Carol Smith, Brenda South, Jonah Staller, Larry Svoboda, Tami Thomas-Burton, Callie Videtich, Lawrence Wapensky, Scott Whitmore, Vicki Stamper, and Megan Williams.

7. Each agency component which was requested to search files for information described in paragraph 5 above has responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests were located in managers' and staffs' offices and file rooms located on the 3rd, 6th, 7th and 8th floors of the EPA Region VIII Offices.

8. The search took place over the course of approximately 5 weeks, from March 4, 2001 through about April 18, 2001. The approximate amount of time spent conducting the search and producing the documents is 1300 hours. The approximate volume of material searched in all Region VIII locations is equivalent to 178 five-drawer file cabinets.

9. Once responsive documents were identified, efforts were undertaken to bates-stamp and copy the documents, utilizing the following procedures:

Documents were brought to a central location where they were bates-labeled using prefixes to identify the program of origin, logged and copied. The original documents were returned to the owner with instructions to retain until further notice. A set of document copies was then sent to DOJ which, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

10. Certain of the responsive documents were not produced through the procedures set forth in Paragraph 9 of this Declaration. Documents described in Paragraph 5.H.i. of this declaration were made available for Defendants to review at the EPA Region VIII Offices in Denver, Colorado. The documents described in Paragraph 5.H.i. of this Declaration produced through this in-place production included bulk responses submitted by various utilities pursuant to information requests issued by EPA to those utilities. This in-place production of information request responses did not include any information claimed by the responders to be confidential business information. The Defendants reviewed the documents produced at the EPA Region VIII office in Denver and identified which of those documents the Defendants desired to have produced on CD-ROM. The documents so identified by Defendants were then sent by Region VIII to DOJ for scanning and production.

11. Prior to determining the set of responsive documents, our office undertook a privilege review to determine which documents should be withheld on the grounds of privilege. The following procedures generally describe the efforts undertaken to screen documents for privilege and to create a privilege log the Region VIII ORC attorneys were provided with procedures and criteria to use in the screening process. They then reviewed each document to determine which documents should be withheld on the grounds of privilege. They noted information about each document was noted on a cover sheet and sent the cover sheets to DOJ, where a log of all the documents was prepared. Additionally, during the privilege review, a number of documents were identified as non-responsive

and these documents were pulled from the responsive documents. More specific information on the assertion of the deliberative process privilege will be provided in our Declaration of Jack W. McGraw asserting the deliberative process privilege.

12. In addition, I was asked to assist the EPA records officer for Region VIII in identifying potentially responsive boxes of documents located at the Federal Records Center in Denver, Colorado by reviewing Forms SF-135 (Records Transmittal and Receipt) in our files that describe to some degree the contents of the boxes. With the assistance of Region VIII's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Denver were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 13, 2002

Ronald L. Rutherford
Senior Air Enforcement Coordinator
Environmental Protection Agency, Region VIII
999 18th Street, Suite 500
Denver, Colorado 80202

EPA Region 9

DECLARATION OF BRIAN RIEDEL

I, Brian Riedel, do hereby declare:

1. I am an Assistant Regional Counsel for the United States Environmental Protection Agency, Region IX ("EPA Region IX"), Air Enforcement Office, in San Francisco, California.

2. On behalf of the Environmental Protection Agency ("EPA"), I am responsible, along with Steven Frey, Environmental Engineer for EPA Region IX, for coordinating the search in EPA Region IX for information responsive to discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Initiative. This initiative includes the power plants listed in Attachment A which are the subject of the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice provided summaries of the records sought by the defendants, collectively, in the initiative. A scoping exercise was undertaken to determine the potential locations of documents that may be responsive to the document production requests included notifying by email and/or conducting personal conversations and meetings with all managers and staff in Region IX that had the potential for possessing responsive documents. Following my review of these summaries and consultation with Steven Fey, I consulted the following agency components in EPA Region IX to determine which locations might contain responsive documents: Air Enforcement Office, Air Permits Office, Air Rulemaking Office, Office of Regional Counsel and Office of Communications and Government Relations. I selected these components as the points of contact based upon my experience and knowledge regarding the air programs at EPA Region IX. Through this scoping effort, EPA Region IX identified each of those offices as potential locations to be searched for responsive documents.

4. Steve Frey and I provided copies of summaries of the information sought by the Discovery Requests to the agency components identified in Paragraph 3, and requested all potentially responsive documents, including the following documents:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or § 60.15 from December 23, 1971, to date, for any source regardless of industrial category;

1. pursuant to a specific follow-up request from defendants, documents underlying the Supplemental PSD Applicability Determination for Cyprus Casa Grande Corporation, letter from David P. Howekamp, Director Air Management Division, EPA Region IX, to Robert T. Connery, Esq., Holland & Hart, dated November 6, 1987.

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fired facility (if the facility makes steam);

1. routine maintenance;

2. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

3. What constitutes a major modification;

4. EPA's restart policy;

5. Fossil-fuel fired steam generators;

C. Any files or documents on any of the power plants listed in Attachment A;

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between "routine maintenance" and "major modification", for any source (except as noted below), including:

1. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source at any plant in the Power Plants Initiative were is subject to regulation under PSD, NSPS,

or a state SIP;

2. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any the actions against the coal-fired electric generating facilities in the Power Plants Initiative;

3. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

4. files or collections of documents that relate to any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

5. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

6. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

7. Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under 35 Illinois Administrative Code § 201.102;

8. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

a. files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this Power Plants Initiative;

b. files or collections of documents relating to the number of projects or physical or operational changes undertaken by utilities from 1977 to the present;

9. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

10. Any cases or maters that involved the issuance of the WEPCO rule;

11. Any cases or matters that involved a BACT determination for any coal fired utilities;

12. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

13. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

14. The number of NSR permits issued to utilities from 1977 to the present;

15. The number of administrative or judicial enforcement actions brought against fossil fuel-fired facilities that produce electricity or heat from 1971 to 1996 asserting that a utility

performed a modification.

E. Remedy documents, including:

1. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, and acid rain;

2. Any collections of documents or files relating to the transport of emissions from the coal-fired boilers in the plants listed in Attachment A;

3. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

1. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

2. The appropriate injunctive relief at any of the plants that are listed in Attachment A;

3. The civil penalty that should be imposed against any of the plants that are listed in Attachment A;

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

1. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any confidential

business information.

2. Notices of Violation ("NOVs") and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel-fired facility other than those listed in Attachment A.

I. Additional requests for documents

1. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims.

2. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal fired utility.

3. All documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule.

4. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers.

5. All documents related to techniques for inspection of coal fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

6. Any letters from States to EPA commenting on the Power Plants Initiative.

7. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel fired power plants.

5. The following EPA Region IX employees searched for information described in Paragraph 4:

Air Enforcement Office

Brian Riedel, Charles Aldred, John Brock, Jeff Darcy, Cyntia Steiner, John Kim, John Borton, Duane James, Barbara Toole O'Neil, Margaret Waldon

Air Permits Office

Ed Pike, Mark Sims, Roger Kohn, Nahid Zoueshtiagh, Steven Barhite, Ginger Vagenas, Matt Haber, David Albright, Duong Nguyen, David Wampler, Robert Baker

Air Rulemaking Office

Andrew Steckel

Office of Regional Counsel

Nina Spiegleman, Suzette Leith, Christopher Sproul, Allan Zabel, Pamela Schultz, Dan Reich, David Rabbino, JulieWalters, Ann Lyons, Thomas Mintz, Kara Christenson

Office of Public Affairs

Denise Nelson

6. Each individual identified in Paragraph 5 has responded, either by providing responsive documents or by reporting that no responsive documents were found and provided certifications regarding the search conducted. Documents responsive to the Discovery Requests have been located in the following locations: Air Enforcement Office, Air Permits Office, Air Rulemaking Office and Office of Regional Counsel.

7. The search took place over the course of a three month period. The approximate amount of time spent conducting the search is 97 hours. The approximate volume of material searched by Region IX personnel is 835 linear feet of files.

8. Except as provided in Paragraph 10 of this Declaration, EPA Region IX and the

Department of Justice arranged for the bates-stamping and copying of responsive documents. A set of the documents was then sent to the Department of Justice which, I understand, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

9. Certain of the responsive documents were not produced through the procedure set forth in Paragraph 8 of this Declaration. Approximately six boxes of documents contained in the Region IX Permits files were made available for defendants to review at the EPA Region IX Office in San Francisco, California. On December 10, 2001, defendants' counsel reviewed these documents and marked approximately one box of these documents for duplication. EPA Region IX then copied approximately one box of marked documents and sent them to the Department of Justice which, as I understand, through its contractor Labat, Inc. arranged for their scanning and production. Counsel for defendants did not wish to review two documents, over which a claim of Confidential Business Information had been asserted, located within the six boxes of Region IX Permits Files. Consequently, these two documents were not produced.

10. I reviewed the responsive documents for privilege and prepared a privilege log for those documents determined to be potentially privileged.

11. In addition, I assisted the EPA records officer for Region IX in identifying potentially responsive boxes of documents located at the Federal Records Center in San Bruno, California by reviewing Forms SF-135, Records Transmittal and Receipt, and accompanying box lists in our files that describe to some degree the contents of the boxes. With the assistance of Region IX's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Atlanta, Georgia were retrieved and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

	Riverbend	Gaston County, NC

DECLARATION OF STEVEN FREY

I, Steven Frey, do hereby declare:

1. I am an Environmental Engineer for the United States Environmental Protection Agency, Region IX ("EPA Region IX"), Air Enforcement Office, in San Francisco, California.

2. On behalf of the Environmental Protection Agency ("EPA"), I am responsible, along with Brian Riedel, Assistant Regional Counsel for EPA Region IX, for coordinating the search in EPA Region IX for information responsive to discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Initiative. This initiative includes the power plants listed in Attachment A which are the subject of the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* (S.D. Ind., No. IP99-1692 C-M/S). I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by the defendants, and am generally familiar with the kinds of information sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice provided summaries of the records sought by the defendants, collectively, in the initiative. A scoping exercise was undertaken to determine the potential locations of documents that may be responsive to the document production requests included notifying by email and/or conducting personal conversations and meetings with all managers and staff in Region IX that had the potential for possessing responsive documents. Following my review of these summaries and consultation with counsel for the EPA Region IX, I consulted the following agency components in EPA Region IX to determine which locations might contain responsive documents: Air Enforcement Office, Air Permits Office, Air Rulemaking Office and Office of Regional Counsel. I selected these components as the points of contact based upon my experience and knowledge regarding the air programs at EPA Region IX. Through this scoping effort, EPA Region IX identified each of those offices as potential locations to be searched for responsive documents.

4. Brian Riedel and I provided copies of summaries of the information sought by the Discovery Requests to the agency components identified in Paragraph 3, and requested all potentially responsive documents, including the following documents:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or § 60.15 from December 23, 1971, to date, for any source regardless of industrial category;

1. pursuant to a specific follow-up request from defendants, documents underlying the Supplemental PSD Applicability Determination for Cyprus Casa Grande Corporation, letter from David P. Howekamp, Director Air Management Division, EPA Region IX, to Robert T. Connery, Esq., Holland & Hart, dated November 6, 1987.

B. Documents that refer to any instances where any of the following matters were at

issue in any case or permitting matter, for any fossil fuel-fired facility (if the facility makes steam);

1. routine maintenance;

2. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

3. What constitutes a major modification;

4. EPA's restart policy;

5. Fossil-fuel fired steam generators;

C. Any files or documents on any of the power plants listed in Attachment A;

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between "routine maintenance" and "major modification", for any source (except as noted below), including:

1. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source at any plant in the Power Plants Initiative were is subject to regulation under PSD, NSPS, or a state SIP;

2. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any the actions against the coal-fired electric generating facilities in the Power Plants Initiative;

3. files or collections of documents that describe the criteria or other basis the EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production;"

4. files or collections of documents that relate to any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

5. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

6. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act;

7. Any documents, including communications between EPA and Illinois, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under 35 Illinois Administrative Code § 201.102;

8. Any files or collections of documents relating to predictions, estimates, or

determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

a. files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this Power Plants Initiative;

b. files or collections of documents relating to the number of projects or physical or operational changes undertaken by utilities from 1977 to the present;

9. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

10. Any cases or maters that involved the issuance of the WEPCO rule;

11. Any cases or matters that involved a BACT determination for any coal fired utilities;

12. Any summaries that indicate the typical amount of time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

13. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

14. The number of NSR permits issued to utilities from 1977 to the present;

15. The number of administrative or judicial enforcement actions brought against fossil fuel-fired facilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification.

E. Remedy documents, including:

1. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground level ozone, and acid rain;

2. Any collections of documents or files relating to the transport of emissions from the coal-fired boilers in the plants listed in Attachment A;

3. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

1. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

2. The appropriate injunctive relief at any of the plants that are listed in Attachment A;

3. The civil penalty that should be imposed against any of the plants that are listed in Attachment A;

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

1. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any confidential business information.

2. Notices of Violation ("NOVs") and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel-fired facility other than those listed in Attachment A.

I. Additional requests for documents

1. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims.

2. All documents that relate to USEPA's interpretation and application of the WEPCO decision to any coal fired utility.

3. All documents that relate to any USEPA proposals to revise or modify or provide further guidance on the WEPCO Rule.

4. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of utility workers.

5. All documents related to techniques for inspection of coal fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

6. Any letters from States to EPA commenting on the Power Plants Initiative.

7. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel fired power plants.

5. The following EPA Region IX employees searched for information described in Paragraph 4:

<u>Air Enforcement Office</u>

Steven Frey, Charles Aldred, John Brock, Jeff Darcy, Cyntia Steiner, John Kim, John Borton, Duane James, Barbara Toole O'Neil, Margaret Waldon

Air Permits Office

Ed Pike, Mark Sims, Roger Kohn, Nahid Zoueshtiagh, Steven Barhite, Ginger Vagenas, Matt Haber, David Albright, Duong Nguyen, David Wampler, Robert Baker

Air Rulemaking Office

Andrew Steckel

Office of Regional Counsel

Nina Spiegleman, Suzette Leith, Christopher Sproul, Allan Zabel, Pamela Schultz, Dan Reich, David Rabbino, JulieWalters, Ann Lyons, Thomas Mintz, Kara Christenson

Office of Public Affairs

Denise Nelson

6. Each individual identified in Paragraph 5 has responded, either by providing responsive documents or by reporting that no responsive documents were found and provided certifications regarding the search conducted. Documents responsive to the Discovery Requests have been located in the following locations: Air Enforcement Office, Air Permits Office, Air Rulemaking Office and Office of Regional Counsel.

7. The search took place over the course of a three month period. The approximate amount of time spent conducting the search is 97 hours. The approximate volume of material searched by Region IX personnel is 835 linear feet of files.

8. Except as provided in Paragraph 10 of this Declaration, EPA Region IX and the Department of Justice arranged for the bates-stamping and copying of responsive documents. A

set of the documents was then sent to the Department of Justice which, I understand, through its contractor Labat, Inc., arranged for the scanning of the documents on CD-ROMs.

9. Certain of the responsive documents were not produced through the procedure set forth in Paragraph 8 of this Declaration. Approximately six boxes of documents contained in the Region IX Permits files were made available for defendants to review at the EPA Region IX Office in San Francisco, California. On December 10, 2001, defendants' counsel reviewed these documents and marked approximately one box of these documents for duplication. EPA Region IX then copied approximately one box of marked documents and sent them to the Department of Justice which, as I understand, through its contractor Labat, Inc. arranged for their scanning and production. As I understand, defendants' counsel did not wish to review two documents, over which a claim of Confidential Business Information had been asserted, located within the six boxes of Region IX Permits Files. Consequently, these two documents were not produced.

10. As I understand, Brian Riedel, Assistant Regional Counsel in EPA Region IX reviewed the responsive documents for privilege and prepared a privilege log for those documents determined to be potentially privileged.

11. In addition, I was asked to assist the EPA records officer for Region IX in identifying potentially responsive boxes of documents located at the Federal Records Center in San Bruno, California by reviewing Forms SF-135, Records Transmittal and Receipt, and accompanying box lists in our files that describe to some degree the contents of the boxes. With the assistance of Region IX's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Atlanta, Georgia were retrieved and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on 9/18/02.

EPA Region 10

DECLARATION OF JULIANE MATTHEWS

I, Juliane R.B. Matthews, do hereby declare:

1. I am an Assistant Regional Counsel in the Office of Regional Counsel, U.S. Environmental Protection Agency, Region 10, Seattle, Washington.

2. On behalf of the U.S. Environmental Protection Agency ("EPA"), I am responsible for coordinating the search for information responsive to Defendants' discovery requests ("Discovery Requests") which were directed to the United States in the enforcement cases commonly referred to by EPA as the Power Plants Utility Initiative. This initiative includes the following cases: *United States and State of New York, et al. v. American Electric Power Service Corp. et al* ("AEP") (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action, et al. v. American Electric Power Service Corp. et al.* (S.D. Ohio, No. C2-99-1250); *United States v. Duke Energy Corp.* (M.D.N.C., No. 1:00 CV 1262); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); and *United States v. Southern Indiana Gas & Electric Co.* ("SIGECO") (S.D. Ind., No. IP99-1692 C-M/S).

I am aware of the subject matter of the underlying actions, namely, that they are actions for violations of the Prevention of Significant Deterioration ("PSD"), non-attainment New Source Review ("NSR") and New Source Performance Standards ("NSPS") provisions of the Clean Air Act and applicable State Implementation Plans at coal-fired electric generating plants owned and operated by Defendants, and am generally familiar with the kinds of information

sought by the Discovery Requests.

3. As an element of the production of documents from EPA, the Department of Justice (DOJ) provided summaries of the records sought by the defendants, collectively, in the Initiative. Following my review of these summaries and consultation with counsel for DOJ, I consulted the following agency components in EPA Region 10 to determine which locations might contain responsive documents: the Office of Air Quality, the Office of Environmental Assessment, the Office of Regional Counsel, and the External Affairs office in Seattle, Washington; the Alaska Operations Offices in Juneau and Anchorage, Alaska; the Idaho Operations Office in Boise, Idaho; the Oregon Operations Office in Portland, Oregon; and the Washington Operations Office in Olympia, Washington. I selected these components based on my consultation with Region 10 management and my personal knowledge of the organizational structure within Region 10. The scoping efforts undertaken to determine the potential locations of documents that may be responsive to the document production requests included interviews with knowledgeable personnel in the Office of Air Quality, the Office of Environmental Assessment and the Office of Regional Counsel.

4. Through the consultation and scoping efforts described in paragraph 3, I identified the following potential locations of responsive documents, all of which were searched for responsive documents: the Office of Air Quality, the Office of Environmental Assessment, the Office of Regional Counsel, in Seattle, Washington; the Alaska Operations Offices in Juneau and Anchorage, Alaska; the Idaho Operations Office in Boise, Idaho; the Oregon Operations Office in Portland, Oregon; and the Washington Operations Office in Olympia, Washington.

5. I sent copies of the information sought by the Discovery Requests, or summaries of

such information, to the agency components identified as potential locations of responsive documents, and requested a thorough search for all potentially responsive documents. Based on the summaries, I requested the following:

A. All final Applicability Determinations made by EPA under 40 C.F.R. § 60.14 or 60.15 from December 23, 1971, to date, for any source regardless of industrial category;

B. Documents that refer to any instances where any of the following matters were at issue in any case or permitting matter, for any fossil fuel-fired facility (if the facility makes steam):

i. routine maintenance;

ii. emissions calculations supporting a determination that physical change or change in the method of operation was significant, to include interpretation and application of the terms:

(a) actual emissions,

(b) potential to emit,

(c) net emissions increase,

(d) representative actual emissions,

(e) source-specific allowable emissions;

iii. What constitutes a major modification;

iv. EPA's restart policy;

v. Fossil-fuel fired steam generators;

vii. Commencement of construction

C. Any files or documents on any of the power plants at issue in this initiative

(Attachment A);

D. Documents relating to interpretation and application of the Clean Air Act requirements for modification and the difference between the terms "routine maintenance" and "major modification," for any source (except as noted below), including:

i. files or collections of documents relating to EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP;

ii. files or collections of documents relating to correspondence between EPA and either (1) the General Accounting Office or (2) any members of Congress or Congressional staff concerning the Clean Air Act Modification Rule or any of the actions against coal-fired electric generating facilities;

iii. files or collections of documents that describe the criteria or other basis EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production";

iv. files or collections of documents that relate to any testimony or statement, written or oral, in <u>any</u> proceeding by anyone affiliated with EPA or on behalf of EPA, concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

v. All documents relating to any speeches or other public announcements by or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases EPA has brought against the power plants;

vi. files or collections of documents prepared by or dated at any time since 1971 that relate to or identify criteria to be applied to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act; .

vii. Any documents, including communications between EPA and any state, reflecting, referring or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law;

viii. Any files or collections of documents relating to predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements;

(a) files or collections of documents relating to the ability or capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this Power Plants Initiative;

(b) files or collections of documents relating to the number of projects or physical or operations changes undertaken by utilities from 1977 to the present;

ix. Documents that relate to the need for or benefit from the acid rain provisions of the Clean Air Act Amendments;

x. Any cases or matters that involved the issuance of, interpretation of, and application of the WEPCO rule;

xi. Any cases or matters that involved a BACT determination for any coal fired utility;

xii. Any summaries that indicate the typical amount of time it takes for a

PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requisite information (including ambient air monitoring);

xiii. Any state or federal changes in cost or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants (i.e., increased numbers of permit writers, etc);

xiv. The number of NSR permits issued to utilities from 1977 to the present;

xv. The number of administrative or judicial enforcement actions brought against fossil fuel-fired facilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification;

E. Remedy documents, including:

i. Any collections of documents or files relating to the health or environmental effects of emissions from the plants listed in Attachment A, including NOx, SO2, ground-level ozone, particulate matter, and acid rain;

ii. Any collections of documents or files relating to the transport of emissions from coal-fired boilers in the plants listed in Attachment A;

iii. Any studies or collections of documents discussing the impacts on human health or the environment from SO2, NOx, ground-level ozone, or particulate matter from coal-fired boilers.

F. Documents relating to injunctive relief and control technology, including:

i. BACT or LAER determinations applicable to coal-fired boilers from 1980 to present;

ii. The appropriate injunctive relief at any of the plants listed in Attachment A;

iii. The civil penalty that should be imposed against any of the plants listed in Attachment A.

G. Agreements between EPA and any of the states listed in Attachment A that relate to the authority of the states to administer the PSD or NSPS program.

H. NOVs and 114 Requests

i. Section 114 requests to all facilities dated after January 1, 1999, and responses to all Section 114 requests issued to any fossil fuel-fired facility, excluding any CBI.

ii. NOVs and materials related to the NOVs, dated after January 1, 1999, including responses by the companies, sent to any fossil fuel-fired facility other than those listed in Attachment A.

I. Additional Requests for Documents

i. All EPA Guidances and policy documents on "continuing violations" theory as a defense to statute of limitations claims under the Clean Air Act.

ii. All documents that relate to EPA's interpretation and application of the WEPCO decision to any coal-fired utility.

iii. All documents that relate to any EPA proposals to revise or modify or provide further guidance on the WEPCO Rule.

iv. All documents that relate to whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or for the safety of

utility workers.

v. All documents related to techniques for inspection of coal-fired power plants for purposes of determining compliance with the CAA, including EPA manuals and directives.

vi. Any letters from states to EPA commenting on the Power Plant Initiative.

vii. Reports and studies received by EPA from EPA contractors analyzing any aspect of New Source Review compliance issues for fossil fuel-fired power plants.

6. The following EPA employees were requested to search files for information described in paragraph 5 above:

Paul Boys
Dave Bray
Don Dossett
Bill Dunbar
Jim Greaves
Deborah Hilsman
Doug Hardesty
John Keenan
Jeff Kopf
Paul Koprowski
Laurie Kral
Christine Lee
Julie Matthews
Rich McAllister
Dan Meyer
Raymond Nye
John Pavitt
Bill Puckett
Rindy Ramos
Elliot Rosenberg
Adan Schwartz
Emad Shahin
Margaret Silver
Bonnie Thie

Kory Tonouchi
Julie Vergeront
Elizabeth Waddell
Betty Wiese
Robert Wilson

Individual files and file cabinets contained within individual cubicles belonging to each of the individuals likely to have responsive documents as well as the shared file saver spaces in the Office of Air Quality and the Office of Regional Counsel were searched for responsive documents.

The following administrative staff do not maintain files that are likely to contain responsive records but did assist in responding to the production request:

Valerie Badon,
Trina Bortko
Carol Kennedy
Mary Shillcutt
Melissa Whitaker.

7. Each agency component and individual which was requested to search files for documents described in paragraph 5 above responded, either by providing responsive documents or by reporting that no responsive documents were found. Documents responsive to the Discovery Requests have been located in the following locations: individual cubicles from some of the individuals identified in paragraph 6 above, shared space savers in the Office of Air Quality and the Office of Regional Counsel, Office of Environmental Assessment, the Alaska Operations Office, Oregon Operations Office, and Idaho Operations Office.

8. The volume of material searched in all locations is approximately 420 linear feet in the Office of Air Quality and Office of Regional Counsel space savers and the individual cubicles for each of the individuals identified in paragraph 6 above.

The search took place over the course of approximately 5 months. The approximate amount of time spent conducting the search, reviewing the documents for privilege, and compiling the privilege log is estimated at 1,765 hours.

9. Once responsive documents were identified, Valerie Badon, Region 10 paralegal, requested Bates- numbered stickers from DOJ. Upon receiving the Bates-numbered stickers, Ms. Badon, with assistance from other support staff in the Office of Regional Counsel, applied a Bates number to each page of each responsive document. The documents and the Bates numbers are divided into six categories: Office of Environmental Assessment, Office of Regional Counsel, Work, Program, Source, and Miscellaneous. The Work, Program, and Source categories generally comprise the records originating in the Office of Air Quality or in the Operations Offices.

10. The EPA Region 10 Office of Regional Counsel undertook a privilege review to determine which of the responsive documents should be withheld on the grounds of privilege. The following procedures generally describe the efforts undertaken to screen documents for privilege and to create a privilege log: Utilizing guidance provided by DOJ, I reviewed each responsive document provided by the Office of Air Quality, the Office of Environmental Assessment, and the Operations Offices to determine if it was privileged. For documents originating in the Office of Regional Counsel, the privilege review was completed either by the attorney who produced the documents or by me. A bright pink cover sheet was attached to each document identified as privileged. After the privileged documents were identified, Jackson Fox, Regional Counsel, and Margaret Silver, Associate Regional Counsel, reviewed each of the documents identified as privileged to confirm that it was appropriate to withhold the particular

document, identify the applicable privilege, and describe the document. Using the information Mr. Fox and Ms. Silver provided, Ms. Badon compiled the privilege log. The log was divided into the same six categories described in paragraph 9 above. The log identified the bates number, applicable privilege, a brief description of each document and, if known, the document date, type, author, and recipient. Other Office of Regional Counsel support staff in the office helped to compile the privilege log. Mr. Fox, Ms. Silver and I each reviewed the privilege log after it was compiled. Upon completion of the privilege log it was sent electronically to the DOJ. More specific information on the assertion of the deliberative process privilege is provided in the Declaration of L. John Iani, Region 10 Regional Administrator, Asserting the Deliberative Process Privilege.

11. With the exception of the documents that were to be produced in place, arrangements were made for DOJ, through its contractor Labat, Inc., to scan the responsive documents on CD-ROMs. In June 2001, working out of the EPA Region 10 offices, the contractors scanned the original documents. The contractor were instructed to scan each document identified as responsive but not identified as privileged. The scanning was conducted after the privilege review was completed, but prior to creation of the privilege log.

12. For those documents that were produced in our office, Defendants' representative reviewed and selected documents for copying in December 2001. Copies of the documents that Defendant's representative requested were provided to DOJ.

13. In addition I was asked to assist the EPA records officer for Region 10 and a DOJ attorney in identifying potentially responsive boxes of records located at the Federal Records Center in Seattle, Washington by reviewing Forms SF-135 (Records Transmittal and Receipt) in

our files that describe to some degree the content of the boxes. With the assistance of Region 10's records officer and Labat, Inc., potentially responsive documents in the Federal Records Center in Seattle, Washington were pulled and shipped to Washington, D.C.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on Sept. 17, 2002

Juliane R.B. Matthews

Juliane R.B. Matthews

Re: Stage 2 of the Court-Ordered Electronic Production in *United States v. Cinergy*

You are receiving this memorandum because you recently participated in a court-ordered search and production from individual electronic files in one of the power plants cases, *United States v. Cinergy*. We thank you all for your participation and cooperation in that process. We realize that, for many of you, compliance with our memorandum was time-consuming and difficult (particularly in light of the summer vacations many of you had planned). Unfortunately as a result of a recent court order, we must ask you for further assistance and cooperation.

As you may recall, on June 24, 2004, the court issued an Order granting the Defendants' motion to compel. That Order requires the United States to conduct a "good faith memory-based search" of the individual electronic files of its current employees who are responsible for administering or enforcing the New Source Review ("NSR"), Prevention of Significant Deterioration ("PSD"), and New Source Performance Standards ("NSPS") programs under the Clean Air Act. As we were in the process of conducting the search described in Richard Gladstein's memorandum of July 2, 2004, the Court issued an order on our Motion for Clarification. This order identified an "expanded" area of inquiry based upon the entirety of the Defendants' discovery requests. Accordingly, we must ask each of you to once again conduct an inquiry and, if appropriate, produce individual electronic files in

UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF MICHIGAN

UNITED STATES OF AMERICA, Plaintiff, And NATURAL RESOURCES DEFENSE COUNCIL, INC. AND SIERRA CLUB, Intervenor-Plaintiffs, v. DTE ENERGY COMPANY AND DETROIT EDISON COMPANY, Defendants.	Civil Action No. 2:10-cv-13101-BAF-RSW Judge Bernard A. Friedman Magistrate Judge R. Steven Whalen

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 2
Attachment I

accordance with the procedures outlined in this memorandum.

PLEASE NOTE THE DEADLINES AND REQUIREMENTS IN THIS MEMORANDUM ARE NOT VOLUNTARY AND ARE PART OF EPA'S COMPLIANCE WITH A COURT ORDER.

DEADLINE

The Court has specifically approved and made the schedule set forth in this memorandum part of a Court order. We must make regular reports to the Court and, if the Court determines the production is not being pursued in good faith and as quickly as possible, it may impose sanctions upon us, up to and including a finding of contempt of court.

Under the Court's order, the Regional and Office coordinators must provide at least half the declarations required by this memorandum and any associated responsive non-privileged individual electronic files within 30 days from the date of this memorandum. The remaining declarations and non-privileged individual electronic files must be provided to the Department of Justice no more than 60 days from the date of this Memorandum.

We encourage the Regions and Offices to produce individual electronic files in reasonable installments, rather than waiting for the 30 days to pass before making a production. We have committed to the Court that we will turn the individual electronic files over to the Defendants as they become available to us. One caveat, for management purposes, do not send a person's individual files until you have received ALL of their individual electronic files.

We ask the Regions and Offices to complete the review and logging of privileged individual electronic files for the first half of the production within 75 days of the date of this memorandum. We also ask the Regions and Offices to complete the review and logging of privileged individual electronic files for the second half of the production within 100 days of the date of this memorandum.

PROCEDURE

STEP ONE: Understand the Instructions

Please review this memorandum carefully. If you have any questions, you may call your regional contact (identified in the "through" line on the first page of this memo) or your DOJ regional contact:

Regions 1 and 4:	Jeffrey K. Sands	202-514-3908
Regions 2, 3, & HQ:	Sarah D. Himmelhoch	202-514-0180
Regions 6 and 7:	Richard Gladstein	202-514-1711
Regions 5 and 8:	Steven Ellis	202-514-3163
Regions 9 and 10:	Larry M. Corcoran	202-305-0370.

As you review this memorandum, here are some definitions that should guide your responses:

Good Faith Memory Based Search: According to the Court, a good faith memory-based search "requires the USA to search for and produce an employee's electronic documents only if the employee affirmatively recalls having responsive documents in electronic form. If an employee cannot recall, the USA is not required to make further inquiry or conduct further searches of that employee's computerized records."

Individual Electronic Files: Any electronic medium (such as a hard drive, floppy disc, memory stick, compact disc, zip drive or disc, or dedicated space on a network server) to which only you and (if applicable) your system administrator have access. Please note, this term includes the hard drive of your laptops and home computers if those are used for work purposes and also includes your *personal* inbox, outbox, and archives for emails.

Individual Electronic Files do not include shared drives to which more than you and the system administrator have access, such as the G:\Usershare drives and most H:\usershare space, archive or back up tapes maintained by the agency, or electronic files available on the internet, such as the Acid Rain Database, the Applicability Determination Index, electronic rule-making dockets, etc. Further, Individual Electronic Files do not include the Power Plants Mailbox.

Individual Electronic Files also do not include any documents created by or at the direction of an attorney on or after November 3, 1999.

Clean Air Act Modification Rule: Refers to those rules and regulations set forth in Title 40 of the Code of Federal Regulations that define the term "modification" or "major modification" for purposes of the application of the New Source Review and New Source Performance Standards programs authorized under Title I of the Clean Air Act for new and modified stationary sources. These rules and regulations include, but are not limited to, 40 C.F.R. §§ 51.156, 51.166, 52.21, 52.24, 60.2, 60.14, and all previous versions of these regulations.

Document: Refers to any writings, drawings, graphs, charts, photographs, sound recordings, or other data compilations from which information can be obtained.

Enforcement Action: Means a formal enforcement action, including a notice of violation, referral, administrative order, administrative complaint, judicial complaint, or judicial or administrative settlement.

Power Plants Initiative: Means the actions brought by the United States and its co-plaintiffs since approximately 1999 against coal-fired utilities including *United States et al. v. Cinergy Corp et al* (S.D. Ind.), *United States v. Southern Indiana Gas & Elec. Co.* (S.D. Ind.), *United States v. Duke Energy Corp.* (M.D. N.C.), *United States et al v. American Electric Power Service Corp. et al.* (S.D. Ohio), *United States v. Illinois Power Co.* (S.D. Ill.), and *United States et al. v. Ohio Edison Co. et al* (S.D. Ohio).

Responsive Individual Electronic Files: Means any individual electronic files that refer or relate to any of the topics identified in Part II of the Declaration Re: Stage 2 Individual Electronic Files Search (Attachment B). Unless otherwise specified in the description of the topic, the request covers records created between 1980 and the present.

Utility: A utility for purposes of these request means regulated utilities, and does not include co-generation or wholesale generators.

STEP TWO: Determine Whether You Have to Search Your Records

We are required to conduct a "good faith memory-based search." This means that we must ask you if you have a **good faith, affirmative** memory of any **individual** electronic files (including emails) referring, relating to, or describing the topic areas set forth in Part II of Declaration Re: Stage 2 Individual Electronic Files Search (Attachment B).

This list of topics may call for individual electronic files other than those previously produced. Specifically, we identified only 6 topics in our first round of requests. In response to the Court's order, however, we are required to ask you more specifically about the 46 topics

listed in the attached declaration. We recognize that some of you may have included these topics in your earlier search, and if you did, then you should respond accordingly in the declaration.

Please review these topics closely and determine whether, in good faith, you recall any individual electronic files that relate to these topics. **Once you have searched your recollection, please fill out Parts I and II of the Declaration Re: Stage 2 Individual Electronic Files Search (Attachment B).**

In addition, please determine whether, in good faith, you know of any other individual at EPA who may have individual electronic files that relate or refer to these topics and who is not identified in Attachment A. **If you are aware of any such individual, identify them in Part III of the Declaration Re: Stage 2 Individual Electronic Files Search (Attachment B).**

If you did not recall any responsive individual electronic files, then sign the Declaration and return it to your regional coordinator. You do not need to conduct a search and you do not need to fill out Part IV of the Declaration. Please make sure to include your printed name under your signature, since often individual signatures are difficult to read and we may not realize we have your declaration if we cannot read your signature.

STEP THREE: Search, If Necessary

If, and only if, you checked "Yes" in any of the boxes in Part II of the Declaration Re: Stage 2 Individual Electronic Files Search (Attachment B), you have determined that you have a memory of responsive individual electronic files. Accordingly, you must search your individual electronic files to locate and produce the responsive files.

In conducting your search, you must look in all places where you might reasonably find the records that you recall. For instance, if you recall that you may have emails relating to a certain topic, you should look in both your in and out boxes. If, however, you do not recall any emails and only recall word processing documents, you need not search your in or out box.

If, in the course of looking for the document you recall, you come across a responsive individual electronic file, you must produce it even if you did not originally recall its existence.

If, after you complete your search, you cannot find the individual electronic files that you recalled, you may check the first option in Part IV and then sign the Declaration and return it to your regional coordinator. Please make sure to include your printed name under your signature, since often individual signatures are difficult to read and we may not realize we have your declaration if we cannot read your signature.

STEP FOUR: Produce the Documents to Your Regional or Office Coordinator

If you recalled having responsive individual electronic files, conducted a search for those files, and located responses files, you must produce those individual electronic files to your Regional or Office coordinator. The procedure for production is as follows:

For Materials that are NOT EMAILS: Clearly label a compact or floppy disc with your name and region or office. In addition label the disc as containing documents responsive to the "Stage 2 Individual Electronic Production." On that compact or floppy disc, create three folders: (1) "Non-Privileged Documents"; (2) "Potentially Privileged Documents"; and (3) "CBI Materials." Copy the responsive files into the appropriate folder on the disc. If you are not sure whether a document is privileged or not, consult with your Regional or Office or DOJ coordinator.

Generally, potentially privileged documents consist of documents prepared for purposes of obtaining legal advice, documents providing legal advice, documents created at the direction of attorney, pre-decisional deliberative materials including draft documents, law enforcement documents, CBI materials, or documents that you would withhold as exempt from a FOIA request. The Regional, Office, or DOJ coordinators will be reviewing the documents to make the final privilege call, so please consult with them if you have any questions.

For Emails: Transfer your responsive emails to the special Lotus notes database created for this production. If you need technical assistance in accomplishing that task, please contact your Regional or Office coordinator.

STEP FIVE: Sign the Declaration and Return it to Your Coordinator

If you recalled having responsive documents, conducted a search of responsive documents, and located responsive documents, once you complete your production, you must sign your declaration and return it to your Regional or Office coordinator. Please make sure to include your printed name under your signature, since often individual signatures are difficult to read and we may not realize we have your declaration if we cannot read your signature.

SPECIAL INSTRUCTIONS TO THE REGIONAL OR OFFICE COORDINATORS

1. Meeting: Please offer a group meeting to the individuals in your region who receive this memorandum and schedule that meeting in conjunction with your DOJ coordinator so that he or she can be available to participate by telephone. This meeting should occur as soon as possible after this memorandum has been distributed.

2. Deadlines: Within a week after this memorandum has been distributed, please identify any individuals who have left the office or agency to us, so that we can remove them from our list and tracking efforts.

3. Production: Please ensure the following:
   a. All discs are clearly labeled with the individual's name (or in the case of the email database, that it is the email database)
   b. That the documents have been separated into clearly labeled "non-privileged," "potentially privileged," and CBI folders BEFORE they are sent to DOJ
   c. That each individual has LEGIBLY written their name and region on the first page of the Declaration.

ATTACHMENT B: DECLARATION

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF INDIANA

UNITED STATES OF AMERICA, et al. Plaintiffs, v. CINERGY CORP., et al., Defendants.	Civil Action No. IP99-1693 C-M/S

DECLARATION RE: STAGE 2 INDIVIDUAL ELECTRONIC FILES SEARCH

Name: _____

Region or Office: _____

PART I

Have you read the Memorandum from Sarah D. Himmelhoch regarding Stage 2 of the Court-Ordered Electronic Production in *United States v. Cinergy* (September ___, 2004)?

Yes _____ No _____

For purposes of completing this declaration have you used the definitions for terms and complied with the instructions set forth in the the Memorandum from Sarah D. Himmelhoch regarding Stage 2 of the Court-Ordered Electronic Production in *United States v. Cinergy* (September ___, 2004)?

Yes _____ No _____

PART II

Do you recall any electronic documents within your individual electronic files as defined above that:

(1) Have not previously been produced to your regional coordinator as part of the power plants initiative; AND

(2) Were not created by or at the direction of an attorney on or after November 3, 1999; AND

(3) refer, relate to, or discuss any of the following topics:

#	Yes	No, or document has already been provided to regional coordinator	Description of Request
1			All final applicability determinations made by EPA, the State of Ohio, or the State of Indiana under 40 C.F.R. § 60.14 or 60.15 or the applicable state SIP from December 23, 1971 to the present for any source, regardless of industrial category
2			Any permit or enforcement action in which "routine maintenance" or "routine maintenance, repair and replacement" were at issue
3			Any permit or enforcement action in which there were issues related to emissions calculations supporting a determination that a physical change or change in the method of operation at a fossil-fuel fired electricity resulted in a significant net increase in emissions, including the interpretation of any of the following terms: (a) actual emissions; (b) potential to emit; (c) net emissions increase; (d) representative actual emissions; (e) source-specific allowable emissions.
4			Any permit or enforcement action in which the determination of what constitutes a major modification was at issue.
5			Any permit or enforcement action in which EPA's restart policy was at issue.
6			Any permit or enforcement action in which the compliance of a fossil-fuel fired steam generator with the PSD, NNSR, NSR, or NSPS requirements of the Clean Air Act was at issue.
7			Any permit or enforcement action in which the interpretation of the term "commencement of construction" was at issue.
8			EPA's interpretation of the Clean Air Act as it relates to EPA's allegations that any modification or construction of a new emission source is subject to regulation under PSD, NSPS, or a state SIP
9			Communications between EPA and either (1) the General Accounting Office, (2) any members of Congress or Congressional staff, (3) any state; or (4) any member of the public concerning the Clean Air Modification Rule or any of the actions against the coal-fired electric generating facilities
10			Criteria or other basis EPA uses, if any, to determine whether a "physical change or change in the method of operation" does or does not include "an increase in the hours of operation or in the rate of production"

#	Yes	No, or document has already been provided to regional coordinator	Description of Request
11			Any testimony or statement, written or oral, in any proceeding by anyone affiliated with EPA or on behalf of EPA concerning the Clean Air Act Modification Rule or otherwise relating to the subject matter of the cases brought against the power plants.
12			Any speeches, press releases, or other public announcements made by or on behalf of EPA concerning the Clean Air Act Modification Rule, the Ohio SIP, the Indiana SIP, or otherwise relating to the subject matter of the cases EPA has brought against the power plants.
13			The criteria that has been or will be applied by EPA to differentiate maintenance, repair, or replacement that is "routine" from that which is "non routine" under the Clean Air Act.
14			Communications between EPA and any agency of the states of Indiana or Ohio reflecting, referring, or relating to what constitutes a modification or the manner or method of calculating emissions increases for purposes of the definition of "modification" under state law.
15			Any predictions, estimates, or determinations regarding the number of existing electrical utility plants or units that had or would become subject to NSPS or PSD requirements.
16			The capacity of the states or EPA to handle NSR program permits submitted after January 1, 1998 as a result of this Power Plants Initiative.
17			The number of projects or "physical changes or changes in the method of operation" undertaken by utilities from 1977 to the present.
18			The need for or benefit from the acid rain provisions of the Clean Air Act.
19			EPA's interpretation and application of the WEPCO decision or the WEPCO rule, including any efforts to communicate that interpretation to the regulated community and the public, including the development and impact of the WEPCO regulation
20			Any enforcement actions or matters that involved a formal BACT determination for any coal fired utility.
21			Estimates of the typical time it takes for a PSD permit to be issued, or the amount of time necessary for an applicant to obtain and compile the requested information (including ambient air monitoring)

#	Yes	No, or document has already been provided to regional coordinator	Description of Request
22			Federal or state changes in costs or staffing required to administer the NSR or NSPS programs as a result of the enforcement initiative against the power plants cases (i.e. increased number of permit writers, etc.)
23			The number of NSR permits issued to utilities from 1977 to the present.
24			Any enforcement actions brought against fossil fuel-fired utilities that produce electricity or heat from 1971 to 1996 asserting that a utility performed a modification
25			Any BACT or LAER determinations applicable to coal-fired boilers from 1980 to the present.
26			Agreements between EPA and Ohio or Indiana that relate to the authority of the states to administer the PSD or NSPS program.
27			Section 114 requests to any fossil fuel-fired facility dated after January 1, 1999 and responses to any such requests (except for CBI material), including any analysis or compilations of the information contained in the responses
28			NOVs and related documents dated after January 1, 1999, including any responses by the companies, sent to any fossil fuel-fired power plant.
29			All EPA guidances and policies documents on "continuing violations" theory as a defense to statute of limitations claims in actions under the Clean Air Act.
30			Whether application of NSR to repair and replacement activities will adversely impact the ability of electric utilities to provide an adequate and reliable supply of power and consequences for public health and welfare or the safety of workers.
31			The techniques for inspection of coal-fired power plants for purposes of determining compliance with the Clean Air Act, including EPA manuals and directives.
32			Letters from any state to EPA commenting on the EPA power plants initiative.
33			Reports and studies received by EPA from EPA contractors analyzing any aspect of NSR compliance issues for fossil fuel-fired power plants.
34			Congress' intent in enacting the PSD and NNSR provisions of the Clean Air Act

#	Yes	No, or document has already been provided to regional coordinator	Description of Request
35			The December 21, 1988 letter from the Honorable John D. Dingell to Lee Thomas, then EPA Administrator, Former Administrator Lee Thomas's April 19, 1999 response to the letter from Dingell, and any information obtained by EPA in response or in relation to either letter
36			The meaning of the term "life extension" or any maintenance schedules and life expectancies of equipment and electricity generating units
37			With respect to any EGU owned by the United States that meets the definition of a major stationary source under the Clean Air Act, any physical change or change in the method of operation, any applicability determinations regarding those changes and any emissions calculations for those changes, any life extension studies prepared for those EGUs, or any alleged violation of the Clean Air Act's PSD, NSR, NNSR, or NSPS programs
38			The October 2003 General Accounting Office (GAO) report, GAO-04-58, entitled "Clean Air Act: New Source Review Revisions Could Affect Utility Enforcement Cases and Public Access to Emissions Data" (hereinafter GAO Report), including any communications within EPA or between EPA and GAO regarding the report or the investigation leading to the report
39			The meaning or EPA's interpretation of the terms "construction," "modification," "major modification," "physical change," "reconstruction," "life extension," "routine," "maintenance," "repair," and "replacement," or any phrase containing one or more of these terms as relates to the Modification Rule and the overall NSR program, including, but not limited to, proposals to amend the Clean Air Act or its implementing regulations, EPA guidance or policy to define, clarify or modify the terms, or communications discussing the meaning of any of the terms.
40			Whether EPA is required by law to provide or considered providing public notice or an opportunity for public comment upon EPA's current interpretation (as articulated in the power plants initiative) of any of the following terms: "construction," "modification," "major modification," "physical change," "reconstruction," "life extension," "routine," "maintenance," "repair," and "replacement," or any phrase containing one or more of these terms as relates to the Modification Rule and the overall NSR program
41			Outages at any electric generating unit, plant, or generating system on a local, regional, national or international level.

#	Yes	No, or document has already been provided to regional coordinator	Description of Request
42			The October 2003 Public Citizen Report including any communications within EPA or between EPA and Public Citizen regarding the report or the investigation leading to the report
43			EPA's interpretation of the Clean Air Act, its implementing regulations, the Ohio SIP or the Indiana SIP as they relate to the procedure and requirement (if any) to obtain an applicability determination
44			U.S. Region V EPA's May 23, 2000 letter to Henry Nickel, counsel for Detroit Edison Company, including all information relied upon in preparing the response
45			The January 26, 1996 letter by John S. Seitz to the Hon. Robert Byrd.
46			Evaluations, analyses, communications or other documents prepared by Plaintiff (including EPA) that interpret the term "operator" under 42 U.S.C. § 7411(a)(5)

PART III

Do you know of any current EPA employee not identified in Attachment A to the Memorandum from Sarah D. Himmelhoch regarding Stage 2 of the Court-Ordered Electronic Production in *United States v. Cinergy* (September ___, 2004) who may have any electronic documents that have not been previously produced and refer, relate to, or discuss any of the topics identified in Part I?

Yes ___ No ____

If yes, these people are:

Name	Current Office (if known)

PART IV

Only complete this section if you answered yes to any question in Part II.

I recalled that I may have documents responsive to one of the 46 topics set forth in Part

II and conducted a good faith memory based search of my individual electronic files, and EITHER (check only one):

_____ After conducting this search, I was unable to locate any responsive documents that were not (1) previously produced in hard copy; (2) produced in stage 1 of the individual electronic production; or (3) prepared by or at the direction of an attorney on or after November 3, 1999.

____ I located responsive documents and have provided a copy of any responsive materials that I found in accordance with the instructions set forth in the Memorandum from Sarah D. Himmelhoch regarding Stage 2 of the Court-Ordered Electronic Production in *United States v. Cinergy* (September ___, 2004).

Notes or Comments (use this space only to record limitations or qualifications to your search or production based upon instructions you receive from either your Regional or DOJ coordinator):

_____

_____

_____

I certify under penalty of perjury that the foregoing statements are true and accurate.

Dated: _____ Signature: _____

Name (please print): _____

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF INDIANA
INDIANAPOLIS DIVISION

UNITED STATES OF AMERICA, et al.,	)	
	)	
Plaintiffs,	)	
	)	
vs.	)	**CAUSE NO. 1:99-cv-1693-LJM/VSS**
	)	
CINERGY CORP., et al.,	)	
	)	
Defendants.	)	

ENTRY FOR SEPTEMBER 8, 2004

The parties appeared, by counsel, this date before the magistrate judge for a status conference, during which the following was discussed and determined:

1. The USA's motion for extension of time to respond to the defendants' motion to compel is **moot** due to the passage of time; however, the magistrate judge notes that the motion would have been granted had it been referred to her prior to it being mooted. In order to avoid such delays in the future, the magistrate judge suggests that the parties email her courtroom deputy, Michelle Imel, to notify her whenever either (1) a motion becomes fully briefed; or (2) a motion or notice is filed that requires judicial attention prior to it becoming fully briefed.

2. The magistrate judge heard oral argument on defendants' Motion to Compel the United States to Produce All Information and Documents Responsive to Interrogatory No. 35 and the USA's related motion for protective order, and on defendants' Motion to Compel Plaintiff-Intervenor States to Provide Discovery . A ruling on these motions will be forthcoming.

3. The USA reported as to the status of its production of electronic documents. Stage One of the production is nearly completed, and the USA anticipates completing it

within a few weeks. The USA has provided the defendants with a proposed instructional memorandum for Stage Two of the production and is awaiting the defendants' approval of or comments regarding it. From the date the instructional memorandum is agreed upon, the USA proposes the following schedule: USA employees will be instructed to produce documents to the Department of Justice on a rolling basis, with the additional requirement that at least one-half of the documents be produced to the DOJ within 30 days and the remaining documents be produced within 60 days. Production to the defendants also will occur on a rolling basis, with the turn-around time from the DOJ to the defendants expected to be approximately two weeks. Over the defendants' objection, the magistrate judge approves this schedule.

4. The issue of the defendants' request for inspection-related documents was discussed. The defendants have narrowed the universe of inspections involved from approximately 1000 to approximately 450; the USA so far has produced only those documents relating to inspections of the defendants' own plants. The USA agrees that some of the remaining requested documents are at least tangentially relevant to the issues in this case, but argues that many are not, and that many also are privileged. The magistrate judge determines that the issue is best resolved as follows: the defendants shall choose up to 10% of the inspections that remain at issue to serve as a representative sample and shall provide that list to the USA. Within 20 days thereafter, the USA shall produce a privilege log and also shall file a motion for protective order directed toward those documents in the representative sample that it does not wish to produce to the defendants, on privilege or any other

grounds. The motion shall then be briefed pursuant to Local Rule 7.1.

5. The issue of deposition protocol was discussed, and specifically whether inappropriate objections have been made during recent depositions. If the problem arises again, the magistrate judge suggests that the parties contact her so that she may audit the deposition by telephone and provide guidance as needed.

6. The USA inquired whether requests for admission that certain documents are admissible under the business records exception to the hearsay rule count toward the total number of requests for admission permitted each party. Defense counsel agrees to consider whether the defendants will agree that such requests do not count toward the total; if no agreement is reached, the issue will have to be briefed.

7. The USA alerted the magistrate judge to several issues relating to the forecasting and modeling depositions. Because those depositions have not yet been completed, those issues are not ripe for resolution at this time.

8, A telephonic conference is scheduled for **Friday, October 1, 2004, at 9:00 a.m.** so that the parties may present argument regarding two discovery motions that are not yet fully briefed. The USA shall arrange the call and inform the magistrate judge and all counsel of the arrangements.

9. The next status conference in this case is is set for **Tuesday, October 26, 2004, at 11:00 a.m.** The parties may appear in person or telephonically; those parties who wish to appear telephonically shall so notify Michelle Imel by October 22, 2004, so that sufficient telephone lines can be arranged. The parties shall file a proposed agenda for the conference by noon on October 22, 2004.

10. A status conference also is scheduled for **Tuesday, December 14, 2004, at 11:00**

a.m

ENTERED this 16th day of September, 2004.

[1]The magistrate judge notes that there are ten attorneys of record in this case who still have not provided the court with an email address for distribution purposes, despite the magistrate judge's urging that they do so. As of September 1, 2004, the failure to register to use the court's electronic filing system constitutes a violation of Local Rule 5.7(b). Until these attorneys comply with the local rules and register to receive electronic notification, it will be the responsibility of their co-counsel to ensure that they are aware of the court's entries and orders.

And

NATURAL RESOURCES DEFENSE COUNCIL, INC. AND SIERRA CLUB,

Intervenor-Plaintiffs,

v.

DTE ENERGY COMPANY AND DETROIT EDISON COMPANY,

Defendants.

Civil Action No.
2:10-cv-13101-BAF-RSW

Judge Bernard A. Friedman

Magistrate Judge R. Steven Whalen

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 2
Attachment J

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF INDIANA

UNITED STATES OF AMERICA, et al. Plaintiffs, v. CINERGY CORP., et al., Defendants.	Civil Action No. IP99-1693 C-M/S

THE UNITED STATES' RESPONSE TO DEFENDANTS' REQUEST FOR PRODUCTION OF EPA SHARED ELECTRONIC SYSTEMS

The United States has made a good-faith memory based search of EPA's shared electronic systems. For purposes of this inquiry, the Department of Justice sent representatives to each of the ten EPA Regions and EPA Headquarters and asked EPA representatives whether or not any office, which possesses or possessed responsive documents, recalls using or uses any "shared electronic system" that may contain responsive electronic documents that have not otherwise been produced, either in electronic or some other format. EPA employees were informed that the term "shared electronic systems" means any electronic, computer or digital system used by more than one person, including but not limited to databases or shared computer drives.[1]

The attached shared electronic system descriptions include the name of the office or department that has the potentially responsive documents, the title of the database or document, the date created (if known), the database or document size, and the estimated number of potentially responsive documents or files contained in the database. The attached two Tables contained descriptions of shared electronic systems from EPA Regions 1, 3, 4, 6, 7, 8, 9, and Headquarters. The United States will endeavor to supplement these descriptions of shared

[1]The term does not include systems that can be accessed only by an individual and the network administrator and used only by that particular individual. Such individual electronic documents or files are the subject of a separate ongoing search which will be reported on by August 9, 2004, assuming the Court grants the United States' Motion for Clarification of the Court June 24, 2004 Order. The term also does not include electronic systems that are publicly accessible.

electronic systems with descriptions from EPA Regions 2, 5 and 10 by July 15, 2004.

As the United States proposed in its Motion for Clarification filed on June 30, 2004, and the defendants did not object in their Response to the United States' Motion for Clarification, within 15 days of receiving a request from defendants for the production of any database or file described in Attachment A, the United States will notify defendants whether it objects to the production of such database or file. If the United States has not objected to such production, within 30 days of receiving a request from defendants for the production of any database described in Attachment A, the United States will produce the requested data. The resolution of disputes about the production of documents or files will be subject to the provisions of Fed. R. Civ. P. 26 and the Local Rules of this Court.[2]

DATED: July 10, 2004

Respectfully submitted,

THOMAS L. SANSONNETI
Assistant Attorney General
Environment & Natural Resources Division

EPA SHARED ELECTRONIC SYSTEMS

Database/Drive	Description	Date	Size[1]	No. of Files[2]
EPA Region 1				
Q:\share\OEP\Air\AirDivDirMtgs	information regarding changes to "modification" and "routine" under NSR reform	December 2001	1.16MB	14
Q:\share\OEP\Air\CAA presentations	information regarding changes to "modification" and "routine" under NSR reform	December 2001	85MB	109
Q:\share\OEP\Air\Varney grams	information regarding changes to "modification" and "routine" under NSR reform	December 2001	10MB	111
Q:\share\OEP\Air\NSR Revisions	information regarding changes to "modification" and "routine" under NSR reform	December 2001	1.3MB	36
EPA Region 4				
NCTIMS	Database used for tracking controlled correspondence in the Region. Only contains control sheets, not actual letters	early 1996	367MB	38

[1] "Size" refers to the total size of the shared drive or database.

[2] "No. of Files" refers to the *total* number of potentially responsive files in the database or directory. It does not necessarily represent the number of responsive documents contained in the database or directory. EPA has identified those shared electronic systems that *may contain* responsive electronic documents. In the event that Cinergy requests information from one of these systems, EPA reserves the right to raise objections and make any claims of privilege or protection at that time, in accordance with the agreement reached between the parties. Listings from certain of the Regions have made certain privilege references at this time. A comprehensive privilege review will performed for a particular system if the defendant requests information from such system.

"Air Permits Log"	Contains the National Combustion Turbine list (also available at www.epa.gov/region4/air/permits)			
H:\AIR\ADI\for UpLoad Review	Directory temporarily holds NSPS, NESHAP, and MACT related documents pending submission to EPA's national "Applicability Determination Index"	N/A	2.46Mb	51
H:\DATABASE\AIR\NSRP&G	Repository for all documents included in the national "NSR Policy & Guidance Database" that is publicly available on the Internet	N/A	25.8Mb	583
H:\AIR\ACIDRAIN	Directory contains a large number of files related primarily to CEMS activities at acid rain affected sources. Also contains a limited amount of information on deposition research and privileged enforcement documents	N/A	39.7Mb	200
H:\AIR\New Source Review\National Coal Projects	Comprehensive spreadsheet of all of the coal-fired utility projects undertaken since 1999. Directory contains the latest update along with some past archived versions of the spreadsheet		4.76Mb	58
H:\AIR\New Source Review\EPA-Issued PSD Permits	Contain a series of spreadsheets and permit documents related to permitting actions taken by the region and states since the inception of the PSD program. Older versions of these spreadsheets were produced in earlier rounds of discovery	N/A	16.6Mb	27
H:\AIR\New Source Review\State-issued PSD Permits		N/A	50.8Mb	160
H:\AIR\New Source Review\Major NSR Tracking Spreadsheets		N/A	1.93Mb	19
H:\AIR\New Source Review\Turbines	Contains latest update of Region 4's comprehensive spreadsheet of all of the utility turbine projects undertaken since approximately 1999. Also contains a subset of projects undertaken in Region 7	N/A	16.1Mb	81
H:\AIR\New Source Review\Turbines\National CT List		N/A	1.01Mb	4

H:\AIR\New Source Review\Turbines\Region 7 Turbine Projects		N/A	0.16Mb	6
H:\AIR\Utility Litigation	Contains PSD-related calculations and project timelines for many of the utility companies now under investigation in Region 7	N/A	440Mb	1770
H:\AIR\Utility Litigation\Calculations		N/A	13.7Mb	33
H:\AIR\Utility Litigation\Targeting Data	Contains PSD-related calculations and project timelines for many of the utility companies now under investigation in Region 7	N/A	1.6Mb	5
H:\AIR\Utility Litigation\Project Timelines		N/A	6.31Mb	18
H:\AIR\Utilitiy Litigation\Calculations\Westar	Contain PSD-related calculations and involve the issuance of, interpretation of, and application of the WEPCO rule	N/A	0.076Mb	2
H:\AIR\Utility Litigation\Enforcement Documents\Civil Filings\Westar		N/A	0.192Mb	1
H:\AIR\New Source Review\NSR Reform\Presentations	Contain documents relating to public announcements by EPA concerning the Clean Air Act Modification Rule or EPA's coal-fired utilities initiative	N/A	3.65Mb	10
H:\AIR\New Source Review\Training Slides		N/A	0.34Mb	5
H:\AIR\ACIDRAIN\Latest Research	Contain studies or collections of documents discussing the impacts on human health or the environment from SO_2, NOx, ground level ozone, or PM from coal-fired boilers	N/A	5.92Mb	7
H:AIR\Clear Skies Initiative\Benefits		N/A	27.2Mb	15

H:\AIR\Clear Skies Initiative\Interstate Air Quality Rule		N/A	7.18Mb	5

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 2
Attachment L

Walinskas, Bethanne (ENRD)

From: Furrie, Kristin (ENRD)
Sent: Friday, April 15, 2011 11:20 AM
To: Rosser, Brent; Bierbower, Mark; Johnson, Pete
Cc: ENRD-Detroit Edison Case Emails; Benson, Thomas (ENRD)
Attachments: List of Doc Owners for U.S. Response to First RFP.PDF

Hi Brent,

In following up on our discussion last night, attached is the custodian information for the CDs (i.e. the documents produced in addition to the hard drive) that we have provided you starting on March 7, 2010. Additionally, you received documents on CD volume 2 with the following the bates prefix USEXP_DTERFP. These documents are responsive to Requests 26-29 as they are documents related to our experts. The individual experts are listed as the document owner in the attached list. For the documents produced on April 8th and for future productions, the United States will be producing document owner information as part of the metadata in the load files contemplated in our electronic discovery agreement.

Also, we wanted to confirm the information that we told you about the documents on the hard drive. As we mentioned in our Response to your Request for Production, the hard drive consists of 9 directories. In East Kentucky, we produced 7 of these directories but did not produce the following directories: Settlement, EPAAPC2, and APC-EPAAPC01-13. In Westar, all the directories with the exception of APC-EPAAPC01-13. We will be providing additional information on the hard drive as we are able to gather it.

Please let me know if you have additional questions.

Best,
Kristin

Exhibit 3

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF MICHIGAN

UNITED STATES OF AMERICA Plaintiff, v. DTE ENERGY COMPANY, and DETROIT EDISON COMPANY Defendants.	)

DECLARATION OF
MARK J. PALERMO

I, Mark J. Palermo, declare as follows under penalty of perjury:

1. I am an Associate Regional Counsel for the United States Environmental Protection Agency, Region 5 (EPA Region 5) Office of Regional Counsel (ORC) in Chicago, Illinois. I have been in this position since 2001. Prior to my current position, I was an Environmental Protection Specialist for the EPA Region 5 Air and Radiation Division (ARD) between 1995 and 2001.

2. On behalf of EPA Region 5, I am the lead ORC attorney working on *United States v. DTE Energy Company and Detroit Edison Company* (*United States v. DTE Energy Co.*). I am also responsible on behalf of EPA for coordinating EPA's search, production, and review of documents potentially responsive to Requests for Production served by the Defendants in *United States v. DTE Energy Co.* I am aware of the subject matter of the underlying actions of this case, namely, that they are actions for violations of the Prevention of Significant Deterioration and non-attainment New Source

Review (collectively referred to as "NSR") provisions of the Clean Air Act and applicable Michigan State Implementation Plan at the Monroe Generating Station owned and operated by the Defendants, and I am familiar with the kinds of information sought by the Defendants' discovery requests.

3. Previous to the filing of *United States v. DTE Energy Co.,* I worked extensively on collecting, processing, and reviewing EPA's responses to discovery production requests in several similar coal-fired power plant New Source Review (NSR) cases, including *United States and State of New York, et al. v. American Electric Power Service Corp. et al* (S.D. Ohio, No. C2-99-1182), consolidated with *Ohio Citizens Action et al. v. American Electric Power Service Corp., et al.* (S.D. Ohio, No C2-99-1250); *United States v. Illinois Power Co. and Dynegy Midwest Generation, Inc.* (S.D. Ill., No. 99-833-MJR); *United States and State of New York et al. v. Ohio Edison Co., First Energy Corp. et al.* (S.D. Ohio, No. C2-99-1181); *United States v. Southern Indiana Gas & Electric Co.* (S.D. Ind., No. IP99-1692 C-M/S); and United *States v. Cinergy* (S.D. Ind., No. 99-1693). I am familiar with EPA's discovery production in these cases as well as other coal-fired power plant NSR cases brought by the United States.

4. On February 1, 2011, Defendants served on the United States 31 separate Requests for Production, many of which include multiple sub-requests. The Requests for Production include descriptions of requested categories of documents that generally lack specificity, are vague, are not limited to relevance to this case (e.g., documents related to all industrial source categories, not just coal-fired power plants), are subject to multiple possible interpretations, and are often confusing. This required EPA to search through a wide swath of both past and present rulemaking, permitting, and enforcement matters and

respective files for potentially responsive documents. In an abundance of caution, EPA personnel were instructed to err on the side of determining a given document was responsive to the Requests for Production in those instances where it was not entirely clear whether the document was responsive to the Requests for Production.

5. At the time the Requests for Production were served, the trial date set for this case was May 11, 2011, which required EPA to rapidly conduct a broad search and production of potentially-responsive documents under time constraints the Agency generally is not faced with in similar civil discovery matters. This required EPA to rely upon the existing ESI collection and processing methods available to it.

6. At the time the Requests for Production were served, several EPA offices, including EPA Region 5, the Office of Enforcement and Compliance Assurance (OECA), and the Office of General Counsel (OGC) were generally relying upon an internally-designed Lotus-Notes based collection and processing database templates (hereinafter referred to as "EPA Discovery Production Database") developed by EPA Information Technology (IT) personnel to execute collection, processing, and privilege review functions in preparing EPA responses to civil discovery, Freedom of Information Act (FOIA), and Congressional document requests involving ESI. The EPA Discovery Production Database allows Agency custodians of ESI to directly upload copies of potentially-responsive emails, email attachments, and non-email electronic documents (hereinafter referred to as "loose e-documents") into a dedicated collection database using Agency's existing Lotus-Notes email system and existing servers, while maintaining the native format and metadata of the files being uploaded. The collected files then are transferred, with original metadata intact, to a Lotus-Notes based processing

database where identical emails (i.e., email held by the sender and each recipient) are de-duplicated, and where uploaded files can be viewed and reviewed in many available organizations (e.g., organized by submitter, by office, by author, by recipient by email subject-line, etc.) to aid in reviewing the files for responsiveness and privilege. The processing database also has functions where a reviewer can mark (identify) a given file as responsive and non-privileged, non-responsive, or privileged (and specific privilege designations can be applied). Those files deemed responsive and non-privileged have been transferred via portable thumb or hard-drive, segregated by file custodian, to Department of Justice for production to the Defendants.

7. In conducting its search, EPA identified the following Agency offices as having potentially responsive documents to the Defendant's Request for Production: EPA Region 5 Air Enforcement & Compliance Assurance Branch, EPA Region 5 Air Programs Branch, Air Permits Section and Immediate Office, EPA Region 5 Office of the Regional Administrator, EPA Region 5 Office of Regional Counsel, EPA Office of Enforcement and Compliance Assurance (OECA) Air Enforcement Division, EPA OECA Office of the Assistant Administrator, EPA Office of General Counsel, Air and Radiation Law Office, EPA Office of Air Quality Planning & Standards (OAQPS), Air Quality Policy Division Immediate Office and New Source Review Group and Operating Permits Group, and OAQPS Sector Policies and Programs Division Immediate Office and Energy Strategies Group.

8. Agency documents used by the offices identified in Paragraph 7 above are kept in the ordinary course of business by either: (a) individual personnel in their offices, computers, and Local Area Network accounts; (b) the publically-available docket files for

rulemakings and other formal Agency decisions; (c) electronic databases and other ESI storage sites publically-available via EPA's website; (d) internal Agency electronic databases and other ESI storage sites; (e) Agency office file rooms; and when matters are closed, files for such matters are sent to the Federal Records Center for archiving in accord with the Federal Records Act. The vast majority of documents held by the Agency that are potentially responsive to Defendants' Requests for Production are kept by individual personnel for use in the course of their work and organized by each individual in accord with specific work needs.

9. As the majority of potentially responsive documents are kept by individual custodians, individuals in the offices identified in Paragraph 7 above were canvassed to determine those personnel that may have potentially-responsive documents to Defendant's Request for Production. Those personnel were directed to search their hardcopy and electronic document collections in their custody, possession, or control and produce potentially responsive documents from their collections. Affected personnel were instructed and directed to upload copies of email and loose e-documents from their collections to the EPA Discovery Production Database. The EPA Discovery Production Database keeps track of the submitter of each document and retains each document file name and associated metadata. Potentially-responsive hardcopy documents of each individual custodian were collected in the organization in which they are kept and either scanned or copied for submittal to Department of Justice.

10. With respect to potentially-response documents in publically-available files in either the public docket or EPA's website, such documents were not collected since they are publically-available and easily searchable by Defendants, making

collection unreasonably cumulative and duplicative. EPA has most of its Clean Air Act policy, guidance, rulemaking and other decision documents available on its website, and EPA personnel routinely use the EPA website-accessible ESI collections to search for, review, and obtain EPA policy, guidance and decision documents relevant to their work. The United States has provided the Defendants with a list of specific EPA website portals where potentially-responsive documents may be kept. This list includes the New Source Review Policy and Guidance data base (sometimes referred to as the "Region VII database"), which is EPA's formal collection of over 600 EPA-issued policy and guidance documents that interpret the NSR regulations housed in a searchable database. Persons may access the database directly via an on-line search or by downloading the database to the person's personal computer or corporate network. Searching for documents related to particular topic, for example, the routine maintenance, repair and replacement exemption, can easily be done with the database's key-word searching function. The database also includes indices sorted by date or document title for quick link to each document in the database. Many of the other publically-available databases have similar search-functions to facilitate identification and review of documents relevant to a given topic.

11. With respect to internal Agency shared-database collections of ESI (not accessible via EPA's website) that may have potentially-responsive documents, these databases were identified to Defendants in the United States' Response to Defendants' Interrogatories and EPA personnel have conducted searches of the databases and have been and are collecting potentially-responsive documents for processing as part of EPA's response to the Requests for Production. Central file rooms of the Offices listed in

Paragraph 7 above that may have responsive documents are also being searched for potentially-responsive documents that may not have been duplicated in other document collections. Several archived files from the Federal Records Center that may have potentially-responsive documents have also been recalled for search and collection.

12. With respect to the initially-produced "hard-drive" referred to in the Defendants' Motion to Compel brief, this hard-drive contains the collection of produced documents responsive to Requests for Production served in numerous coal-fired power plant NSR cases. The Requests for Production in these cases are identical or substantially similar to the Defendants' Request for Production. The hard-drive contains tens-of-thousands of documents that, by virtue of the enormously-broad scope of Defendants' Request, are potentially-responsive to their Request. In conducting its current discovery collection and production in this case, EPA has not gone back to re-collect and re-process for production documents contained in this collection, since such effort would be unreasonably cumulative and duplicative, and would unreasonably burdensome in light of the fact that such documents have already been collected, reviewed, and bates-stamped in the previous production. Bates-number prefixes on the documents identify the office where the documents originated so that the origin of the documents can be readily-ascertained.

13. For the production in response to Defendants' Request for Production, in addition to the considerable resources expended to locate and produce the documents included on the hard-drive, documents have been collected from more than 104 Agency personnel. The magnitude of the ESI collection has required the use of a dedicated server for processing, and EPA IT personnel have put in over 240 hours to date to manage the

technical aspects of the EPA Discovery Production Database and the ESI collection, review and production effort. Beyond the document search-and-collection effort, 40 attorneys have been taken off regular duties to review the documents collected for responsiveness and privilege. In total, as of this date, federal employees have expended over 3,000 hours of time searching for, collecting, reviewing, and producing documents in response to the Defendants' Requests for Production.

14. Region 5 ORC has contacted the other nine EPA regional offices to estimate the potential amount of documents that would needed to be searched to respond to Defendants' Requests for Production. I received estimates from 107 personnel from several Regional Offices that would be required to conduct searches in the event the Regional offices had to respond to Defendants' discovery request. These personnel have reported that, collectively, over 1.946 million emails, over 1,434 Gigabytes (GB) of loose e-documents, and over 5,119 linear feet of paper documents would need to be searched to identify potentially responsive documents to Defendants' Requests for Production. This does not include the entire expected volume of material to be searched in the other nine Regional Offices, as not all of the Regional personnel who would need to search through their files in response to the Defendants' discovery request have reported to me in time for the filing of this declaration.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on April 22, 2011, at Chicago, Illinois.

PROCEEDINGS

OPENING STATEMENT ON BEHALF OF PLAINTIFF BY MR. BENSON 6

OPENING STATEMENT ON BEHALF OF DEFENDANT, MR. BROWNWELL 54

W I T N E S S E S

LYLE CHINKIN

DIRECT EXAMINATION BY MR. SAVAGE 91

1 does it mean when you have a darker color on this picture?
2 A So in this particular picture the darkest color, this
3 kind of brown color, that's the highest concentration
4 range, greater than a half microgram.
5 So as we go through the animations in a moment
6 you'll see many of the days are in a yellow-orangish color,
7 but also many of the days have many areas, large areas in
8 red and brown.
9 So that's a sense of scale. When you start
10 seeing the reds and browns you're into several tenths of a
11 microgram, greater than a half of microgram.
12 All I'm trying to point out there will be several
13 days where it's greater than a whole microgram. It might be
14 a microgram and a half on some days.
15 Q Now, these pictures are found in animated form,
16 Appendix F to your declaration. Are you sitting here today
17 able to remember the handful of days you want to point out
18 and why you want to point them out to the Court?
19 A I have a pretty good memory but I can't memorize those
20 exactly.
21 MR. SAVAGE: With your Honor's permission, Mr.
22 Chinkin has prepared a small sheet of summaries. I'd like
23 to hand up to the Court.
24 THE COURT: Did you prepare this yourself?
25 THE WITNESS: Yes, I did.

1 THE COURT: And you went through your records in
2 order to make a summary so you could testify?
3 THE WITNESS: That's correct.
4 THE COURT: He can use it.
5 You know, now is probably a good time to break
6 for lunch, but more importantly -- and before we break for
7 lunch, you know, I'm listening to the testimony and I think
8 the testimony is important. I think it's compelling. But I
9 think what we're doing today perhaps is a bit premature. I
10 think we have such a substantial question as to the main
11 issue and that is the likelihood of success. I mean, it's
12 going to be the battle of the experts. I've read, you know,
13 everything -- and I think weighing the public interest and
14 listening to the testimony and reading it, you know, it's
15 so compelling that I think why not confront the issue. You
16 both have witnesses, why not try this case. I can try this
17 case in 30 days, 60 days so that once we decide the issue
18 and that's whether or not it comes within the statute if
19 the Government prevails and this information is very
20 important so I can attach a remedy. If the Government
21 doesn't prevail then I think it's still important maybe to
22 some extent but I think I have much of it in the exhibits
23 to determine which we still do, I mean, even if the
24 Government doesn't prevail there's still an issue, and
25 we're going to have to, you know, talk about that. But I

1 can try this case very quickly. Tell me if I'm wrong. I
2 mean, the parties have done their homework, you've got
3 experts. One expert says it is, one expert says it isn't.
4 I think it's going to be a question of fact for the trier
5 of fact to determine. As I say in weighing the interest to
6 the public, if we can do it in a very short period of time
7 then, you know, especially in the winter, before summer, we
8 can balance it.
9 So at lunch why don't you guys talk about that.
10 As I say, I'm here and I have nothing to do. I also set
11 aside Friday for this hearing in case it went on. But what
12 I'm listening to goes to remedy. So why not just confront
13 the issue. You guys tell me, you know, when you can try
14 it. I'm looking at my schedule. I've got nothing but time
15 especially in March. February is pretty tight. I put it
16 as nothing but priority.
17 I don't believe anybody has requested a trial by
18 jury, but if they do I have no problems with that
19 especially in this case where there's already jury
20 instructions. It's always the most difficult thing to
21 start crafting jury instructions in these kind of cases,
22 and I'm not suggesting these are the one we would use, but
23 at least the exhibit number, I think it's number 9.
24 So at lunch, why don't you talk about that. As I
25 say I think that's the solution, get the first issue tried

1 and these issues are very important for remedy. So talk
2 about it at lunch. We'll reconvene at 2:00 o'clock, and go
3 from there.
4 MR. BENSON: Yes, your Honor.
5 (Court recessed, 12:45 p.m.)
6 - - --
7 (Court reconvened, 2:00 p.m.)
8 THE COURT: You may continue.
9 MR. BENSON: Your Honor, the other side stepped
10 out for a moment.
11 THE COURT: No problem. I'm here a couple minutes
12 early. Sometimes it's better that I'm early or I can get
13 stuck on the phone.
14 MR. RUBIN: I'm sorry, your Honor.
15 THE COURT: Not a problem.
16 Have you had a chance to discuss it between
17 yourselves and between your clients?
18 MR. BENSON: We have your Honor. We've started
19 that discussion anyway, and we've discussed it with the
20 other side, and I think we're ready -- we speak for the
21 United States in going forward and we haven't heard back
22 from the defendants --
23 THE COURT: Do you want a little more time to
24 discuss it together or do you want to talk about it here on
25 the record, either way. We can talk about it off the

1 record, any way you want to do it. We can go back and talk
2 about it in chambers, whatever way you think is the most
3 productive.
4 MR. BROWNWELL: Your Honor, why don't we talk
5 about it off the record and we tell you what our
6 respective positions are at this point and can decide
7 --
8 THE COURT: You want it off the record?
9 MR. BROWNWELL: Yes.
10 THE COURT: No problem.
11 Government?
12 MR. BENSON: That's fine.
13 You Honor, we appreciate the feedback we've
14 gotten today and I think we're ready to go forward and try
15 this on an expedited schedule. I think what probably makes
16 the most sense for us we think maybe on the window of about
17 90 days from now I think we can do it. We're willing to
18 work with the other side and work out whatever discovery is
19 necessary in that interim. I think it makes sense to view
20 it, and the Court can merge the preliminary and the
21 permanent injunction in this case and continue this until
22 that time. If the Court would prefer we don't need to go
23 through the rest of the testimony now. We can just sort of
24 take what we've heard so far and add the rest later.
25 THE COURT: Okay. My thought is, we first decide

1 the issue in terms of whether was it a major or was it
2 modification. Once we do that, then I think this kind of
3 testimony would be very relevant to determine which way,
4 whatever way it came out in terms of remedy.
5 MR. BENSON: And that really makes sense, your
6 Honor.
7 The one other thing we would suggest and we think
8 it's important particularly as we continue farther and
9 farther from the date in which we originally set the order,
10 that Detroit Edison would abide by pre-project emissions
11 levels. We would like to add a like a little specificity to
12 that order. Right now I think it just says almost literally
13 pre-project level.
14 As one of their experts said and you saw it in
15 Mr. Chinkin's testimony they sort of -- one of their
16 experts took February of 2010 as a benchmark for monthly
17 emissions path and we can go ahead and use that instead of
18 a monthly emissions path going forward as it were a little
19 bit premature and the evidence would pass on the company
20 based on what they've --
21 MR. BROWNWELL: Your Honor, first on the order
22 issue, we feel the order that the Court has issued is
23 perfectly appropriate. It's clear maintaining emissions at
24 pre-project level, the daytime levels, they were based on
25 Monroe, is a pre-project modification that are annual

1 emissions --
2 THE COURT: I'm not opposed to putting a date in
3 there. Should there be an alleged violation we have a
4 benchmark because I suspect if there should be that problem
5 how I am going to determine what the benchmark is. So we
6 can talk about whether it's February or what date it is in
7 a second, but what do you think about the trial?
8 MR. BROWNWELL: What is important, your Honor, are
9 annual emissions. Annual emissions are regulated under the
10 New Source Review Program is what triggered modification.
11 As far as the trial goes Detroit Edison has been
12 focused, of course, on preparing for this preliminary
13 injunction hearing and have had only a very limited
14 constrained period of time for its expert preparation, and
15 expert reports. So Detroit Edison would have difficulty in
16 getting ready for trial that soon if we want to supplement
17 its expert reports and expert discovery and perhaps other
18 discovery we thought we would need. The Government has had
19 a lot of discovery against Detroit Edison because it was
20 issuing administrative information under Section 114 of the
21 Clean Air Act going back to earlier this year. So Detroit
22 Edison would want sufficient time for discovery, experts'
23 supplementation and expert discovery.
24 We also are not sure, your Honor, just how big
25 this case is. They are talking about Monroe 2, but there's

1 this other outstanding motion of violations in July of
2 2009, August, 35 additional projects. If this - the
3 Complaint would be amended to pick up additional projects
4 as the Government suggested that it might be to get a
5 preliminary injunction filed then it's a much different
6 case.
7 THE COURT: Well, two things: Number one, for the
8 Government, the only thing that is before me of what I've
9 read and what I'm concerned with today is the original
10 Complaint which is Monroe 2. Government, are we talking
11 about Monroe 2 or are we talking about something else?
12 MR. BENSON: Your Honor, I think for the expedited
13 trial we're talking about here, it would make sense to
14 focus on Monroe 2 because as the Court knows we've got all
15 the information for the most part together and I think if
16 Mr. Brownwell -- if you guys think there might be some
17 additional discovery, if they want to supplement expert
18 reports in a reasonable time maybe we'll do the same if
19 they do. We can figure out a way to work all that out I
20 think. We probably like to come back before the Court in
21 short order to hammer all that out. But if we want to go
22 ahead on that and then the Government is still considering
23 whether or not to bring additional claims I think those
24 would go forward on a separate track.
25 THE COURT: Those I don't know anything about.

1 This one I think -- I feel fairly comfortable that in a
2 reasonable period of time if we concentrate on Monroe 2
3 that we can try this case. If it goes to other things I
4 can't deal with that now. As I've said, I've read it in
5 relation to this.
6 In terms of preparation --
7 MR. BROWNWELL: Your Honor, let me suggest if I
8 could that if the case is going to be limited to Monroe 2,
9 it might make sense for additional discussions on the case
10 management proposed order.
11 THE COURT: Well, I can do it today if we agree.
12 We're going to sit down and hammer out a schedule. I have
13 to know an end date first. I need to know whether it's 90
14 days, or 60 days or a 120 days, or it isn't then we can go
15 back and we can talk about when reports are due and so
16 forth.
17 Also, neither side as requested a jury and I have
18 no problems if you want to a jury. If either side wants a
19 jury you can have a jury trial. I don't know if you want
20 one or don't want one. Government, I'm not sure what your
21 position is. Again, it has nothing to do with timing. It
22 has to more to do with scheduling in terms of when we get
23 things done.
24 MR. BENSON: Your Honor, we are prepared to try it
25 before the Court. We won't have to have a jury.

1 THE COURT: You won't hurt my feelings.
2 MR. BROWNWELL: Your Honor, we would like time to
3 consult with our clients.
4 THE COURT: Absolutely. Okay. It's not going to
5 change the dates. It doesn't make any difference to me.
6 In a way, I'll be very honest with you I find
7 this case interesting and probably -- I think if we had a
8 jury trial, you would probably have more community finality
9 either way and it may make some sense just from -- you
10 know, this is a major health issue. But just because it's
11 a major health issue doesn't mean, you know -- it's up to
12 you. Let's do it in a reasonable period of time because it
13 won't change it.
14 You know, I think 90 days is not unreasonable,
15 but certainly I need to check my schedule. I want to make
16 sure if we set a date it's a good date.
17 MR. BROWNWELL: Your Honor, we would request more
18 like a 120 days.
19 MR. BENSON: Your Honor, if I could respond to
20 that, this case was filed in August. It's been pending for
21 six months. I think this is something we can do in another
22 90 days as the Court has suggested.
23 THE COURT: I'll compromise. I'll split the
24 difference. I want to see my schedule.
25 I'm looking at May 3rd, May 2nd. Does anybody

1 have a prepaid vacation or family event? I don't like to
2 interfere with any of those.
3 MR. BENSON: As far as I know I don't see any
4 problem on our side. I think that date is fine. I'm not
5 sure how long this trial will be. Particularly if it's a
6 jury trial they've taken up to two weeks.
7 THE COURT: I don't think it would take two weeks
8 if it was a non-jury trial.
9 If you need some time during the trial if you
10 need a day or something to take care of personal affairs or
11 do something --
12 MR. BROWNWELL: Your Honor, I would ask for some
13 leeway to confer with counsel and possibly witnesses.
14 THE COURT: Why don't we do this? Why don't we
15 take a break. Why don't you confer. See if they want to
16 make a decision today on a jury or not, I don't care.
17 That's not going to affect anything today. What we'll do
18 is also kind of confer in terms of a scheduling order. I
19 don't see this case going away as to that issue on
20 dispositive motions so I don't think there's going to be
21 dispositive motions so we don't have to worry about that.
22 It will be a battle of the experts. So what we're really
23 talking about is scheduling, discovery and things of that
24 nature.
25 Why don't we take about to 2:30, let you talk to

1 your clients and then we can do at the same time a
2 scheduling order. I can tell you some of the things I like
3 to do during discovery. We can talk about all that, okay?
4 At 2:30 we'll reconvene. Talk to your clients
5 and your experts. And I'm going to call my wife, too.
6 She'll be happy because I wanted to make a trip and she
7 didn't want to go and I think that was the time so she'll
8 be very happy.
9 Okay. We'll stand in recess.
10 (Court recessed, 2:15 p.m.)
11 - - --
12 (Court reconvened, 3:15 p.m.)
13 THE COURT: Okay.
14 MR. BROWNWELL: Your Honor, we've had some
15 discussions with everyone and we do have some conflicts
16 that first week in May with a vacation. We were wondering
17 if appropriate and your Honor would be willing if we could
18 have just a discussion in chambers about --
19 THE COURT: Come on back. Whoever is involved,
20 they are welcomed to come.
21 We'll take a short recess.
22 Also the trip I wanted to take, it's all sold
23 out.
24 Come on back.
25 (Court recessed, 3:20 p.m.)

1 (Court reconvened, 3:45 p.m.)
2 THE COURT: Okay. Back on the record.
3 We have agreed on a trial schedule. February 1st
4 will be the date for deadlines for either side to file a
5 jury request if they so choose.
6 The 15th of February, expert lists -- witness
7 lists. It says experts but it's really a witness list
8 including experts. I didn't realize that.
9 On March 9th, any subsequent motions, filing
10 deadlines, response 14 days, reply five days.
11 April 26th, motions in limine.
12 May 3rd, we'll have a teleconference for a Final
13 Pretrial. The Final Pretrial Order as per my standing order
14 will be a week before that. If we have a jury, we'll select
15 the jury on the 10th, but we won't start any testimony
16 until the 11th. If there is no jury we'll start the
17 testimony on the 11th.
18 There's also a stipulation as to the baseline.
19 Counsel, one more time, I've forgot your name.
20 MR. JABER: Markam Jaber, your Honor.
21 THE COURT: If you don't mind, the parties have
22 reduced it to writing and they're going to reduce it to an
23 order, a proposed order which I will, of course, sign, but
24 let's put the language on the record so we have it.
25 MR. JABER: Yes, your Honor.

1 The parties have given the following language.
2 Annual emissions from Monroe Unit 2, calculated on the
3 first of each month as the total emissions in the preceding
4 12 months shall not exceed 10,898 tons of N0x and 30,115
5 tons of SO2.
6 THE COURT: Okay. I think both sides agree; is
7 that correct?
8 MR. BENSON: That's correct, your Honor.
9 THE COURT: Okay. I keep looking at lead counsel
10 for no other reason other than -- yes.
11 MR. BROWNWELL: Just to clarify, the trial is on
12 liability only.
13 THE COURT: I'm glad you said it. Liability only.
14 The central -- and it's only on Monroe 2. So it's
15 liability on Monroe 2 with the understanding that it's
16 bifurcated and when we get to the remedy stage we can talk
17 about scheduling, what to do, and so forth, but, again,
18 depending on what which side prevails, I suspect we'll talk
19 about scheduling and so forth.
20 Anything else while we're all here that we should
21 talk about?
22 Again, just to reiterate, the process -- rather
23 than file motions and so forth, if there's something that,
24 you know, a discovery dispute or something of that nature,
25 get me on the phone, we'll resolve it. Any other problems,

1 if anything else comes up don't hesitate, just put together
2 a phone conference and we'll do it.
3 Thank you, very much.
4 For those who came to spectate, thank you. It's
5 always nice -- people in the courtroom, usually you look up
6 and there's nobody out there. You watch who is going by.
7 You are always invited. Hopefully we'll see you all at the
8 trial.
9 Thank you, very much.
10 MR. BENSON: Thank you, your Honor.
11 MR. BROWNWELL: Thank you.
12 (Proceedings concluded, 3:30 p.m.)

1 Detroit, Michigan
2 Tuesday, February 22, 2011
3 (At or about 1:00 p.m.)
4 (Telephonic Conference)
5 -- --- --
6 THE COURT: Everybody here?
7 This is Judge Friedman. I am on the
8 record. I wasn't sure if you wanted it on the
9 record or not so we're on the record if
10 everybody agrees.
11 Tell me some appearances for the record.
12 MR. BENSON: Thank you, your Honor.
13 This is Tom Benson from the DOJ. With
14 me is Ellen Christensen and Kristin Furrie.
15 THE COURT: The last one is who?
16 MR. BENSON: Kristin Furrie.
17 F.U.R.R.I.E.
18 THE COURT: Okay. And for the defense.
19 MR. BROWNELL: For Detroit Edison, we have
20 Bill Brownell, Mark Bierbower, Brent Rosser and
21 Mike Solo.
22 THE COURT: Okay. I don't know anything
23 about this other than there's a big dispute
24 Who's going to speak first?
25 MR. BENSON: I can give you some

1 background, your Honor.
2 There are two separate things we want to
3 talk about today.
4 One, we have a couple proposals that the
5 parties want to put to you. The other is we
6 have a couple disputes on discovery and the
7 like that we just need to get your input on.
8 THE COURT: Okay.
9 MR. BENSON: I can do the proposals
10 first.
11 THE COURT: Please.
12 MR. BENSON: The less controversial one.
13 THE COURT: Okay.
14 MR. BENSON: The first is, the plaintiff,
15 the United States of America, would like to do
16 an inspection of the plant with its expert
17 witnesses. And the parties wanted to see if
18 the Court was interested in joining in that, if
19 the Court was interested in seeing the plant.
20 Then what period of time you wanted to see it
21 if Court was interested in joining in that
22 matter.
23 THE COURT: You know there may come a time
24 when I would like to see the plant, and I think
25 it would be very interesting, but I want you to

1 do it sooner than later, and I don't want my
2 schedule to tie up you guys. So, why don't you
3 do it without me, but that doesn't exclude the
4 fact that I maybe I might go out. I've heard
5 that it's interesting.
6 One of the judges went and saw one of the
7 plants somewhere near Port Huron and came back
8 and said it was very interesting. I don't
9 think Detroit Edison has that plant any more.
10 I would like to see it, but I don't want to
11 interfere. If during the trial, I find it
12 necessary to see the plant, I'll do that.
13 MR. BENSON: Okay. Thanks, your Honor.
14 The second proposal the parties have I
15 think from both sides, both sides want to see
16 if the Court would be interested in setting up
17 monitors in the courtroom for trial rather than
18 using a screen as we did in the preliminary
19 injunction hearing. We could set up monitors
20 for the Court, the witnesses and the parties
21 and the audience. It might be easier for
22 everyone to see all the images in use.
23 THE COURT: Absolutely. It would be fine
24 with me. I have no problems with it. I
25 assume, however, I will -- oh, that's fine. I

1 thought there would be a hard copy, but you're
2 going to do it all on a CD -- is there going to
3 be a hard copy?
4 MR. BENSON: I think both.
5 THE COURT: I'd like a hard copy during
6 the trial because I write on them, and I make
7 notes on them, but I think it would be great
8 for the witness and whoever is observing. I
9 have no problem with that.
10 MR. BENSON: The parties will work that
11 out then.
12 That brings up the discovery disputes we
13 have had. The parties have worked together and
14 I think have agreed on most discovery limits,
15 but there are a couple of things we have not
16 been able to resolve.
17 One is the limit for fact depositions. We
18 had proposed each side gets to take 20 fact
19 depositions. And we have never had one of these
20 New Source Review power plants cases with fewer
21 than 20. And I know the witness list has I
22 think a little more than 30 people on it. And
23 it helps just with the function of the fact
24 that the facts in this case that are relevant
25 to the project are generally held by the

1 defendants. They are the ones who know about
2 the plant, what was done. So we do need to get
3 in there and take a lot of depositions. We
4 haven't been able to agree on that. We just
5 need the Court's help in coming up with a limit
6 for that.
7 THE COURT: Mr. Brownell, what's your
8 position on fact depositions?
9 MR. BROWNELL: Judge, Mark Bierbower is
10 going to address that.
11 THE COURT: Okay.
12 MR. BIERBOWER: Your Honor, of course, the
13 Government had a long process of under Section
14 114 of discovery before they filed this case.
15 We've listed 30 people in our initial
16 disclosure, people that may or likely to have
17 information, but we've only listed seven or
18 eight as likely or may be called at trial.
19 And our proposal was let's do eight fact
20 depositions each. When the Government asked
21 for 20 we said, well, look we're willing to go
22 along with presumptive limit and the rules of
23 ten depositions per side, but anything beyond
24 that is excessive and goes well beyond what we
25 understood based on the conference in chambers

1 at the preliminary hearing would be required to
2 proceed to a liability trial.
3 At that time the representation was that
4 the Government was ready to proceed based
5 basically on what they had in their preliminary
6 injunction papers --
7 THE COURT: What does the Government have
8 to say?
9 MR. BENSON: This is Tom again. A couple
10 of things to that, Mr. Bierbower is correct
11 that the Government was able to get documents
12 through Section 114 provision. We haven't had
13 the opportunity to depose anybody either in a
14 formal or informal setting. As we all know a
15 ton of documents is not equal to being able to
16 depose even one person and that's how you get
17 information.
18 The parties have already agreed to double
19 the limit in the federal rules for
20 interrogatories, request for production of
21 documents. We agreed to allow 50 of each for
22 each side. So the proportion here would be the
23 same if it was 20 fact depositions.
24 And, finally this is a complicated --
25 these are complicated cases. We are now going

1 forward to a liability trial. We do need to
2 make sure we depose folks that Mr. Bierbower
3 has said are potential witnesses at trial,
4 which is at least he mentioned, I guess he's
5 saying the remaining 30 not be witnesses at
6 trial.
7 THE COURT: May not, he said.
8 MR. BENSON: Right.
9 We do need -- we need to be limited to
10 folks who are going to be called at trial. I
11 presume they're calling them at trial.
12 THE COURT: I think we're trying to move
13 as rapidly as we can on this case. I'll limit
14 it to 12, no more than 12 and that's based upon
15 the defendant saying they have seven or eight
16 that they are probably going to call, the rest
17 they're not. Okay.
18 You have another issue?
19 MR. BENSON: One, maybe two more issues.
20 One is we again -- we've sort of worked
21 through an agreement but we have not agreed on
22 an expert disclosure schedule. And in --
23 obviously, this case is -- it's different
24 because most of the experts we are going to use
25 at trial have served declarations of their

1 opinions out there. Plaintiffs have disclosed
2 two additional experts and we will get their
3 reports. The defendants have not disclosed any
4 additional experts. But what I think is
5 important here, we are in the middle of
6 discovery right now. Each side is going to be
7 producing documents in March. Our experts need
8 to look at those and then do whatever
9 supplementation of their prior declaration and
10 that's what we agreed to when we were talking
11 in January.
12 What we have proposed, I don't know if
13 defendants have offered a counterproposal yet
14 but what plaintiff has proposed is that any
15 supplement of existing declarations would be
16 due April 1st, and then any responses would
17 be due April 15.
18 THE COURT: What the defendants' position.
19 MR. BIERBOWER: Your Honor, this is Mark
20 Bierbower again. We, of course, are waiting to
21 see what the Government would disclose in the
22 way of experts in its disclosure and we've not
23 had a chance to see that.
24 If I could correct Tom, I believe the
25 Government actually noticed up three new

1 experts, an accountant, Lou Arkin; a PROMOD
2 witness, Phillip Hyatt; and a statistician,
3 Edward Rothman.
4 For one moment, your Honor, I'd like to
5 point out that today is the 22nd of February
6 and we have ten weeks until the scheduled trial
7 date of May 11, and Department of Justice wants
8 to take at least a dozen fact depositions as
9 your Honor just decided plus expert depositions
10 and they're proposing disclosures of these
11 experts on April 1st and the replies on April
12 15th with no rebuttal. And then, of course,
13 your Honor has scheduled in an order
14 substantive motions on an expedited briefing
15 schedule for those to start March 9. And I
16 know that the defendant will have at least one
17 dispositive motion. These are legal briefs, of
18 course, and the response would due two weeks
19 later on March 23, and a reply five days later
20 on the 28th. We have to do this plant
21 inspection. And then on April 26th motions
22 in limine are due. Those have been quite
23 extensive in all of these cases.
24 As Tom Benson has just indicated these are
25 very complicated cases, and we also have the

1 joint pre-trial order due and our final
2 pre-trial conference on May 3rd. If the
3 Department puts on nine expert witnesses and
4 two fact witnesses then we have a much longer
5 trial than I think anybody expected on
6 January 19th, at the conference in chambers
7 at the preliminary injunction proceeding.
8 We would like to propose that this
9 schedule right now is exceedingly difficult
10 considering the factors the Department of
11 Justice -- the interrogatories that have been
12 served which are sweeping the request for
13 production and they started third-party
14 discovery as well. They served subpoenas on
15 three of defendants' vendors URS, Babcock and
16 Wilcox, and Duce (sp) and Babcock. I'm sure
17 we'll have discovery depositions involving
18 third-parties as well.
19 The defendant, of course, has to look at
20 the plaintiff's expert disclosures and decide
21 whether the defendant needs to call one or more
22 additional experts.
23 So what we would like to propose and
24 suggest is that the Court extend fact discovery
25 for three months starting now. And then have

1 three months for expert discovery, and then
2 schedule a trial at a more appropriate point
3 say in September. Given the very lengthily
4 proceedings that have gone on in similar cases
5 that would be an expedited schedule at any rate
6 and it would be a much more reasonable schedule
7 given the scope of what the Government has teed
8 up here.
9 THE COURT: What does the Government have
10 to say?
11 MR. BENSON: Your Honor, this is Tom. It's
12 a little strange to hear in response to a
13 proposal for expert discovery schedule that we
14 push to put the entire trial back five months
15 or whatever. I think what's important is that
16 when we came together in January, we had -- you
17 know, we were putting on evidence that there's
18 a real health harm here. I think Court
19 responded to that by saying so let's figure out
20 if there's a liability, and then we'll figure
21 out what we're going to do about it, and that's
22 why it's important to have a trial in May and
23 it's important to have a trial as quickly as
24 possible. I think the Court was ready to do it
25 in 30 or 60 days. You know, we ended up

1 agreeing to a schedule giving us four months. I
2 think we'd be able to do that.
3 THE COURT: Let me tell you just listening
4 to both sides right now I was concerned about a
5 couple of things.
6 Number one, I was concerned about getting
7 it done as quickly as we can. But on the same
8 token, I knew it would be a difficult chore for
9 both sides. I shouldn't say difficult, it
10 would be a time consuming chore for both sides.
11 But what the Government now is saying to me is
12 both sides have agreed, and I'm glad you did,
13 you've doubled the amount of interrogatories,
14 you've doubled the amount in terms of
15 production of documents, we've increased the
16 amount under the rules for fact deposition
17 witnesses.
18 You know, I anticipated the Government
19 really being ready to try this case the next
20 day and the only issue was to get the
21 defendants up to speed because the Government
22 filed all this and asked for all the
23 preliminary relief and so forth and was ready
24 to put on evidence for a preliminary
25 injunction. So I never anticipated that the

1 Government was then going to request lots of
2 other things.
3 If I took what the Government wanted to
4 do and use the due date April 1st and the May
5 trial date there is no way that either side can
6 be ready in May if you're going to take those
7 depositions after you have it, and I think
8 there should especially in this case be some
9 quick rebuttal so that each side is prepared to
10 take those deposition or be prepared to
11 cross-examine at the time of trial.
12 If I were to accept the dates the
13 Government has given me in April then no way.
14 I mean, I don't see how even the Government
15 could do it by then because the defense would
16 still have to look at it and decide whether or
17 not they're going to call witnesses or hire
18 have witnesses that would go to that. So if I
19 gave them the same consideration I gave the
20 Government and used those same timetables we're
21 way past May.
22 So there's only two solutions. Number one
23 is the Government is to do it ASAP and --or the
24 second one is and I don't want -- is to put off
25 the trial date because I can't require both

1 sides to be prepared when a response is due
2 April 15. I think it would be a very difficult
3 if not impossible to do just thinking to myself
4 at least three at this point that sound like
5 full heavy-duty kind of witnesses.
6 MR. BIERBOWER: Your Honor, we're prepared
7 to file a motion as early as tomorrow to
8 address this scheduling issue and lay this out
9 before your Honor because as your Honor knows
10 from the time of filing a case on average in
11 the Eastern District is over two years, and
12 what we're proposing is reasonable particularly
13 in view of both sides saying these are
14 extremely complicated and difficult cases.
15 MR. BROWNELL: Your Honor, I would also
16 like to point out that when we were last
17 together the company made more specific and the
18 Court entered an order and that specific
19 commitment to keep emissions --
20 THE COURT: I'm well aware of that. I'm
21 listening to what you both have to say. You
22 know, Tom, I don't know how I could possibly
23 use your schedule and keep the schedule that we
24 have very frankly. I mean -- I think it's not
25 unreasonable. I mean it's due April 1st and

1 April 15 are certainly dates, but it's
2 unreasonable then to expect that everybody can
3 be repaired for trial in May. I think if those
4 are the dates you want that's great, but I
5 think I have to put off the other dates as much
6 as I don't want to do it, but on the same token
7 I want this trial to be a fair, good trial. I
8 want it to be, seek the truth, find the facts,
9 know what's going on because it's very, very
10 important to both sides. So I don't think it's
11 unreasonable to talk about maybe adjusting
12 those dates some. Unfortunately I don't have
13 the order with me. My case manager is not
14 here. I don't have all of the information that
15 usually I would have. I don't think it's
16 unreasonable to let the April 15th -- first the
17 15th and then some time for rebuttal, and then
18 some time for the defense to then notify the
19 the plaintiff as to who they're going to be.
20 MR. BENSON: Your Honor, I think I
21 explained this badly the first time and that is
22 the way the proposal would work I'm willing to
23 negotiate which we have not had a chance to do
24 with the defendant because they haven't
25 provided a counter-proposal until on the phone

1 today, but what I proposed was each side would
2 supplement their experts on the first and then
3 each side would respond on the 15th. And so I
4 understand that's not typically how it's done
5 if there's typically a rebuttal process, it's
6 usually the plaintiff who gets the rebuttal
7 report so we would be sort of giving up that
8 right, and by using the first and 15th as dates
9 each side would have sort of a last opportunity
10 to respond to all the opinions on the table.
11 THE COURT: When do you take the
12 depositions?
13 MR. BENSON: Right and then we would have
14 three weeks after that to take the depositions.
15 And I agree with you that's certainly not a lot
16 time but I think it's something we've done in
17 the past and you know it's something that can
18 be done. It wouldn't be easy --
19 THE COURT: I'm just thinking three weeks,
20 we know you have three witnesses that have to
21 be deposed that probably are very lengthy I
22 would imagine. Then I suspect -- and
23 defendants tell me how many would you think
24 you're going to respond now that you know who
25 the three are, do you have any idea?

1 MR. BIERBOWER: At least one or two, your
2 Honor. This would be -- maybe the United
3 States Government has done this before, but
4 I've never seen a schedule like this. This is
5 really, really difficult.
6 THE COURT: I agree with you now that I'm
7 looking at it now that I have the thing in
8 front of me I was looking for, my
9 correspondence. Even if there's only one by
10 the defense and the defense has one or two even
11 one, four expert witnesses to depose -- and
12 it's really less than three weeks because I
13 think rebuttal would be important so less than
14 three weeks and prepare all the other things
15 that are necessary now that I'm looking at it
16 and listening, I do think it's probably not
17 real reasonable to expect that people can work
18 that quickly and do a good job both from the
19 plaintiff and the defendants.
20 I have no problem with the April dates.
21 We'll use the April dates, but I think we have
22 to put the other dates off. I agree. There's
23 just no way. I'm looing at the calendar and
24 counting the days, the work days, there's just
25 not enough time between -- I don't think

1 there's enough time in three weeks to do three,
2 to be prepared. You guys are located in
3 different locations and travel.
4 With that said, I think rather than you
5 being the defendant having to file a motion I
6 think we do have to rearrange the dates. I
7 still want to do it quickly.
8 I think that -- I think that 90 days is
9 not unreasonable. To give some room to
10 everybody I just don't know what my schedule is
11 like. As I said when I give you a trial date I
12 want to give you two weeks so you have enough
13 time. Hopefully we can speed it up.
14 We'll use the April dates for the experts.
15 And I'll add rebuttal in there, five days or
16 whatever it takes, whatever the usual rebuttal
17 is. And we will move the other dates by 90
18 days and send out a revised order. I don't
19 think that's unreasonable. As I say, I want to
20 move it as quickly as I can.
21 Anything else?
22 MR. BENSON: We very much appreciate your
23 consideration of that request.
24 THE COURT: As I say, just sitting looking
25 at it in writing, you know, sometimes you can

1 say something from the bench and then sitting
2 here looking at it, I've got a calendar to my
3 right, and my notes to the left it jams you
4 guys so much. If we're going to have a trial,
5 I want it to be organized, I want it to be
6 together especially since it's a bench trial, I
7 want it to flow and in order to do that you
8 have to be prepared, both sides.
9 MR. BIERBOWER: The normal practice is you
10 have at least 30 days to respond to an expert
11 disclosure, your Honor, and then have a chance
12 for rebuttal. If we could build that in I think
13 that would be much more appropriate in terms of
14 developing these issues for the Court? And it
15 will also prove what I think to be important
16 when your Honor sees the motions in limine that
17 are typically filed in these cases which are
18 extensive and serious.
19 THE COURT: Why don't you guys -- I will
20 adjust it 90 days. Work on the dates, and get
21 tentative dates that you agree to within that
22 framework, okay, so you can talk about the
23 reports and so forth. And then let us know if
24 we can fit those dates into our schedule. The
25 dates that we have to fit into our schedule are

1 essentially the pre-trial and trial and the
2 motions to make sure we have enough time to
3 work on the motions and decide them in a timely
4 fashion.
5 Why don't you guys work on a proposed
6 order, proposed dates with the 90-day extension
7 in mind. The 90-day extension, I've got a
8 calendar here. Why don't you guys send us a
9 proposed order and fit in those trial dates
10 into your dates. Both make sure you're both
11 available. And if those are not good dates
12 then we'll call you.
13 That will bring us to September somewhere
14 in the week of the 12th. I don't have my case
15 manager here so I don't have our exact
16 schedule. We'll try to work it in.
17 MR. BENSON: Would it be possible to have
18 the trial in July, your Honor? Is that
19 something the parties should talk about? If we
20 were to add some room to the experts' schedule,
21 we can do that and still have all disclosures
22 in May and have depositions taken in May and
23 June, and then the trial be ready for July.
24 MR. BIERBOWER: That is very unfair given
25 the disclosures that we've seen here and the

1 discovery that has been served.
2 THE COURT: Did I say September? I think
3 it's August.
4 MR. BENSON: August could be 90 days.
5 Maybe the parties will think about July or
6 September, we'll find a date.
7 THE COURT: I have no problems if you can
8 agree on July. If you can't agree on August --
9 August or September would be fine, but I think
10 90 days is in August.
11 MR. BIERBOWER: We can work with Mr.
12 Benson to come up with some dates and a
13 proposed order.
14 THE COURT: Work them around your
15 schedules but include Carol when you have some
16 dates that look good for you guys, get a hold
17 of Carol.
18 MR. BIERBOWER: That's fine.
19 THE COURT: We'll await that order. I'll
20 give Carol a heads up and we'll go from there.
21 Okay. Thank you.
22 MR. BENSON: Thank you.
23 MR. BIERBOWER: Thanks.
24 THE COURT: Bye bye.
25 (Proceedings concluded 1:40 p.m.)

Re: United States v. Ohio Edison Corp., Civil Action No. C2-99-1181

Dear Magistrate Judge Kemp:

I have attached for the Court's consideration and signature a proposed Case Management Order to which the parties have agreed. As the parties discussed with the Court during the conference call on October 31, 2001, the proposed Order incorporates two modifications of the prior Order: (i) new dates for the various aspects of the liability phase of the case; and (ii) a statement that the States' standing is not to be encompassed within the issues addressed in the liability phase of the case. Consistent with the last Order issued by the Court, Plaintiffs wanted to also include language in the amended Order for the point that the parties did not anticipate the need to modify the schedule. Defendants would not agree to this language, and the draft provided to the Court does not include it.

Please contact my office if you would like an electronic version of the proposed amended Order.

Respectfully submitted by,

Robert Rosenthal
Assistant Attorney General 96-5-2-10684

Re: *U.S. v. East Kentucky Power Cooperative,* Civ. No. 03-34-KSF, U.S. District Court for the Eastern District of Kentucky -- Request for Return of Inadvertently Produced Documents

Dear Phil:

Following up on our telephone discussions, this will respond to your July 25, 2007 letter to Jay Holloway. Upon review of the two logs attached to your letter, and without waiving its objections, Defendant East Kentucky Power Cooperative agrees to your request concerning documents listed on the two logs and asserted to contain confidential business information or be privileged under the work product, deliberative process or other privilege doctrines. Returned herewith is the computer hard drive produced in the captioned action under cover of Jason Dunn's March 8, 2005 letter to Nash Long (copy enclosed). You have confirmed in your July 25, 2007 letter that you will provide a new set of images on a hard drive that will replicate the contents of the hard drive returned herewith, except for the documents listed on the two logs This will confirm that we have taken steps to ensure that any copies of the documents listed on the two logs have been destroyed and deleted.

Sincerely,

Mark B. Bierbower

Re: United States v. East Kentucky Power Cooperative (E.D. Ky Civ Action No. 04-34-KSF)

Dear Nash:

As we have previously discussed, enclosed is an external hard drive containing non-privileged electronic documents produced by Plaintiff in a related enforcement action against Cinergy Corporation (Civ. Action No. IP-99-1693). The hard drive contains non-privileged electronic documents from shared hard drives in EPA's regional offices, as well as non-privileged electronic documents from EPA employees' hard drives and e-mails that were produced in the Cinergy case.

Also enclosed are six (6) CD-ROMs containing additional documents in response to EKPC's document requests, as well as updated privilege logs (produced in hard copy as well as on a CD-ROM).

Finally, I have enclosed the chart referred to by Mr. Lloyd in his February 25th 30(b)(6) testimony, which Tom Cottingham requested on March 1.

Sincerely,

Jason Dunn
Trial Attorney

Re: *United States, et al. v. East Kentucky Power Cooperative, Inc.*, No. 03-34-KSF (E.D. Ky)

Dear Mr. Bierbower:

Thank you for your letter to Phillip Brooks dated August 30, 2007 returning the external hard drive originally produced to counsel for East Kentucky on March 8, 2005. As Mr. Brooks has indicated in his communications with Jay Holloway, the United States has recently discovered that this hard drive contains inadvertently produced documents claimed by third parties as confidential business information, as well as documents determined to be protected by the attorney-client, work product, and deliberative process privileges. The enclosed replacement hard drive replicates the contents of the hard drive produced to East Kentucky on March 8, 2005, except that the documents listed on the two privilege logs provided by Mr. Brooks in his July 25, 2007 letter to Mr. Holloway have been removed.

Thank you for your cooperation in this matter and, if you have any questions, please feel free to contact me at (202) 514-2306.

Sincerely,

Beth Walinskas
Lead Paralegal

Plaintiff-Intervenors,	)	
v.	)	Civil Action No. 1:00 CV 1262
DUKE ENERGY CORPORATION	)	
Defendant.	)	

UNOPPOSED MOTION FOR EXTENSION OF DEADLINES

The United States of America, acting by the Authority of the Attorney General and at the request of the Administrator of the United States Environmental Protection Agency ("EPA" or "Plaintiff") hereby files this "Unopposed Motion for Extension of Deadlines" and states as follows:

1. This is a civil action under the Clean Air Act (42 U.S.C. §§ 7401 *et seq.*) and federal and state regulations implementing that Act for violations allegedly committed by Duke at its eight coal-fired electrical generation plants located in North and South Carolina. The case is one of eight cases filed against electric utilities in the Midwest and Southeast. The Parties have been diligently conducting discovery pursuant to this Court's Case Management Order of May 22, 2001. To date, the Parties have produced in excess of 1 million pages of documents to each other, as well as answered and are continuing to answer several hundred lengthy interrogatories.

2. By this unopposed Motion, the United States seeks a five month continuance of deadlines in this matter. A proposed schedule, amended to reflect a five month continuance of deadlines is attached as Exhibit A. While all Parties have worked diligently to conduct discovery, the additional time is necessary and warranted. This is the first request for extension of deadlines.

3. Duke, and other utility defendants, have requested production of documents from the United States' Federal Records Centers ("FRCs"). In another case, United States v. Illinois Power Company, Civ. No. 99-833-MJR (S. D. Ill.), Magistrate Judge Proud recently denied the United States' Motion for a Protective Order, and ordered the United States to produce an enormous quantity of documents from the thirteen Federal Records Centers nationwide. (Order attached as Exh. B). There are approximately 158,000 boxes of EPA documents in the FRCs across the country, amounting to many hundreds of millions pages of documents. Even with the deployment of extensive resources, it will be a time-consuming process to screen documents for responsiveness and privilege, and compile a corresponding privilege log. While the United States is exploring ways to expedite the production (including rolling production, document review in place, and others), the ruling of the Court in Illinois Power will impact the production of FRC documents to Duke. According to best estimates, production will not be complete before expert reports are due in this matter: the United States' expert reports are currently due on February 1, 2002, and Duke's are due six weeks later, on March 15, 2002. Consequently, by this unopposed Motion, the United States seeks a five month extension of dates to complete its production.

4. In addition, the parties have recently served additional extensive document requests

and interrogatories upon each other. These requests are in addition to other pending extensive discovery, such as Duke's production of its archived material and microfilm material to the United States. The documents are necessary for upcoming depositions as well as for expert reports. Given the lengthy and complicated nature of these requests (requiring nationwide searches by the United States, and extensive searches by Duke), additional time is necessary to complete case preparation.

5. Views of Counsel. Pursuant to Local Rule 6.1(a), undersigned counsel has contacted counsel for Duke and for Plaintiff-Intervenors. Counsel for these Parties have authorized the United States to represent that this Motion is unopposed.

WHEREFORE, the United States respectfully requests this Court to grant this Motion for Extension of Deadlines.

Respectfully Submitted,

JOHN C. CRUDEN

PLAINTIFF UNITED STATES' MEMORANDUM IN SUPPORT OF ITS MOTION FOR A PROTECTIVE ORDER AND OPPOSITION TO DEFENDANTS' MOTION TO COMPEL

Exhibit 11

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF INDIANA

UNITED STATES OF AMERICA, et al. Plaintiffs, v. CINERGY CORP., et al., Defendants.	Civil Action No. IP99-1693 C-M/S

THE UNITED STATES' MOTION STATUS REPORT PURSUANT TO ENTRY OF JULY 22, 2004

The United States submits this status report pursuant to the Court's Entry for June 24, 2004 and Entry on Motion for Clarification. These entries require the United States to conduct a "good faith memory-based search" of electronic records. The Court defined the scope of this search in its Entry for June 24, 2004, stating that a good faith memory-based search "requires the USA to search for and produce an employee's electronic documents only if the employee affirmatively recalls having responsive documents in electronic form. If an employee cannot recall, the USA is not required to make further inquiry or conduct further searches of that employee's computerized records."

The United States submitted a proposed schedule to the Court for completion of the search. Under that proposed schedule, the United States forwarded an instructional memorandum to all of the current EPA employees who participated in the original search for hard copy records. The United States committed to provide Defendants with status reports on July 16 and July 30, 2004 and to report to the Court on August 9, 2004. The United States expressed concern that the summer vacation schedules of many EPA employees and the unknown extent of responsive documents made it impossible for the United States to state it would complete the search and production of records on a date certain. In its Entry on the Motion for Clarification, the Court approved the United States' proposed schedule and acknowledged the difficulty posed

by the summer vacation season. The Court also ordered the United States to expand the scope of the inquiry and search proposed by the United States. The Court acknowledged that this broader search would take more time than the original search proposed by the United States:

> The magistrate judge acknowledges that the USA may need additional time to produce those responsive documents that do not fall within the five discrete categories set forth in the instructional memorandum, and the USA shall address that issue in its July 30, 2004, status report. However, production of the five discrete categories of documents shall continue and not be delayed because of the now expanded nature of the search.

Accordingly, the United States has continued to work as quickly as practicable to complete the initial search and inquiry before issuing new instructions to address the "now expanded nature of the search." The United States anticipates proposing a new instructional memorandum to defendants and (if the parties cannot agree) the court in mid- to late August and providing a status report to the Court on its efforts to complete the second round of electronic production at the September status conference.

In the meantime, the United States has continued its efforts to complete the initial round of production. As the Court is aware, each current EPA employee who participated in the nationwide search for documents in the power plants initiative received written instructions which required the individual to complete a first declaration stating whether they had a good-faith recollection of documents relevant to the five identified topics. This declaration has come to be known as the Attachment D declaration. If the individual answered that he or she recalled any specific documents, then the individual was required to conduct a search and then complete a second declaration stating that the search had been conducted and either no documents had been found or any responsive documents found during the search had been produced to the EPA Region or office coordinator. This declaration has come to be known as the Attachment E declaration. To ensure that the EPA employees understood their obligations, one representative from the Department of Justice has visited each of the ten EPA regions and has spoken in person or by telephone with employees in the relevant headquarters offices. In addition, each Region or office has designated a coordinator responsible for answering additional questions that arise,

collecting and conveying the executed declarations to the Department of Justice, and performing a privilege review of the responsive documents. As reported by the United States in the Motion for Clarification, a number of employees have been out of touch due to summer vacation schedules. In addition, both Regions 1 and 2 suffered delays associated with the political conventions in New York and Boston. Further, some employees are on extended leaves, such as maternity leave, details to other agencies, medical leave, or are serving overseas in the military. Nonetheless, EPA has been able to contact and obtain declarations regarding individual employees' recollections from the vast majority (approximately 73%) of the employees identified as possibly having a recollection of responsive documents.[1]

In addition, EPA has expended resources to resolve numerous technical issues associated with the exporting of emails and other documents from their resident programs while retaining key bibliographical information. The United States believes it has developed a method of collecting the emails so that the names of the senders and recipients, as well as date of sending and attachments, remain with the document. This method is being tested now and the United States anticipates making its first productions in the near future.

The Department of Justice has also begun to receive other electronic documents for processing and production, though many of the documents still need to be reviewed for privilege. Though the United States anticipates that the final volume of materials will be relatively low, not enough employees have completed their search and production to provide an accurate estimate of the total volume of production.

In all, over six hundred employees have responded. Many employees are now engaged in a search of their personal computers based on their recollection that they *may* have information responsive to the various topics identified in the instructional memorandum. For the Court's information, the following chart summarizes the results of the inquiry conducted by the

---

[1]The United States notes that a number of the employees who have responded were not identified on the initial list of individuals, but have been identified by other employees during the course of the search.

Regions and Headquarters and forwarded to the Department of Justice:

Region	No. Identified as Potentially Recalling Responsive Documents	No. Who Left Agency (or Region)	No. Who Have Returned Attachment D (i.e. stated whether they had a recollection)	No. Who Recall Documents Re Topic 1 (EPA's Interpretation of Certain Key Regulatory Terms)	No. Who Recall Documents Re Topic 2 (Emissions from Cinergy Plants)	No. Who Recall Documents Re Topic 3 (Documents relating to the claims in this case)	No. Who Recall Documents Re Topic 4 (Inspections of Coal-Fired Utilities)	Recalls Documents Re Topic 5 (Oversight or auditing of State NSR Programs)
1	40	1	37	8	0	0	3	2
2	34	0	21	4	0	0	0	0
3	113	17	89	30	1	3	9	8
4	106	1	96	29	1	0	8	12
5	239	32	123	0	0	0	0	0
6	38	0	32	9	0	1	1	2
7	32	0	29	16	0	1	6	8
8	50	0	35	16	0	1	4	3
9	58	2	31	14	0	0	2	7
10	38	0	27	12	0	0	2	8
HQ	221	9	150	41	10	5	7	13
	969	62	670	179	12	11	42	63

Note: The United States has made its best effort to be accurate in this summary of the responses. The declarations, however, are still being submitted and counsel is still in the process of evaluating and clarifying certain of the responses. Accordingly, the numbers presented here are only a best estimate made at this stage of the responses.
Note as to Region 5: The United States believes substantially more individuals have completed their attachment D (their inquiry). For administrative purposes, however, in this region individuals were told not to submit their Attachment D declarations until after they had completed their search and Attachment E declarations. In addition, we note that approximately five Region 5 employees are on extended leave and will not be able to complete their declarations for several months.
Note as to Headquarters: Approximately three employees have been identified as out on either a detail or extended leave. In addition, one individual has been identified as serving in Iraq.

In sum, as expected as a result of the summer vacation and convention schedules, despite the best efforts of the various regional contacts, EPA has not yet been able to complete its inquiry of employees regarding the five initial topics for discovery. The Department of Justice has received some documents from EPA for production and is in the process of concluding the privilege review and production to the Defendants. In the next thirty days, the United States anticipates: (1) completing the inquiry of employees not on extended leave as to the first five topics identified in its Motion for Clarification; (2) submitting to Defendants and (if the Defendants object), the Court a proposed instructional memorandum to the EPA employees who participated in the first round of discovery.

DATED: **August 9, 2004**

Respectfully submitted,

THOMAS L. SANSONNETI
Assistant Attorney General
Environment & Natural Resources Division
