Funding Amount:	**FY 20: $5,000**
Completion Date:	**September 30, 2021**

Project Description:

CARB has planned to training Imperial County to perform air monitoring station gaseous analyzer calibrations in late 2020. Baja SPA and the City of Mexicali will be included in the training. This is recommended due to the results of the audit of the SPA air monitoring network in 2018 that was performed by INECC with CARB support. Several analyzers failed the performance audit where it was found that proper and timely calibrations would have assisted in better audit results. Funding would be used for handouts and CARB staff travel and time.
