Hi, all. The 5YR for Aerojet was finalized in Sept 2016, which required us to step back from the Area 40 FS while the VI investigation moves forward, data is collected, and decisions are made on how to manage risks. I apologize if that was not clear, but I've stated that in meetings several times. The VI investigation is still ongoing, and multiple lines of evidence are required for decision making. In most cases we only have indoor air samples from the wet season or soil gas samples from the wet season. Another round of dry season samples are planned for this Sept/Oct; in most locations we don't have sub-slab samples either. The VI evaluation does play a role in the HHRA and FS for Area 40. I don't have a timeframe on when EPA can finalize comments on the HHRA/FS for Area 40, but I'll discuss it with my team and let you know.
Thanks,
Lynn

I respectfully disagree. I think we need to keep this project moving. None of my comments are contingent on a USEPA forthcoming document. If the "stakeholders" should be prompting USEPA for their comments, why hasn't DTSC prodded them as they are as much of a stakeholder as anyone at the table. I am for keeping our meeting as planned

Hi Chris,

I just left you a voicemail. I was talking with DTSC management regarding the planned FS RTC meeting and DTSC feels it's premature to finalize State comments without input from USEPA. DTSC might have issues with USEPA comments and vice versa (not mentioning Water Board items) and it doesn't make sense to move things forward or do this exercise twice when the 600lb gorilla in the room has not spoken. As I recall USEPA promised comments early September so it's going on 8 months after the fact and still no word. The stakeholders should be prompting USEPA for its comments on the FS before the State proceeds further forward. As such I recommend we hold off on these discussions until USEPA has submitted its formal written comments.

Sincerely,

-Pete

Hi Peter - Can you obtain an ETA from the HHRA team on their comments? Thanks, Chris

How about 10am on April 21st. Peter - Do we have all of DTSC's comments on our RTC's? As I recall, you may still be waiting on Human Health review. Please confirm. I will send out invite shortly.

Subject: Area 40 FS Meeting

Hi Everyone – I would like to begin pushing forward on the Area 40 FS (at least resolve all State issues). Please also provide availability for the week of April 17 an April 24 for a 2 hour meeting at our Pyrites Way office.

Attached are the draft FS and responses to State comments. Please refresh on these comments and responses in preparation for our meeting.

Thanks! Chris
