Yes, you're correct. I'd rather not try to make the policy call re toys at this time, and I don't think we really have to.

Just making sure: on the RTC, besides your other minor edits, you only want to include your one sentence regarding the toys and delete the other paragraph, right: "*EPA appreciates this information and will consider this comment during the TSCA risk evaluation phase for DINP*". Note that I corrected since the toys issue is for DINP only, not DIDP.

Thanks, Darlene. My comments to all the documents are attached. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I'm also reattaching the same files I sent you earlier so all my comments are in one email to all of you. Let me know if anything is unclear. Thanks.

Tanya

Attached are 2 of the 3 documents that you requested that have been cleared by OCG (the grant letter and web page updates). Unfortunately, the 3rd document, the response to comments, is not cleared by OGC. The DINP use in children's toys comment from EDF is creating an issue that OGC thinks needs management attention because it's forcing a decision and language on a policy issue that we haven't yet addressed in risk evaluations. Please see Bethany's **very extensive comments** on the language that we got from Susanna to address the toys comment. (I have attached EDF's comment document FYI.)

How do you want to handle this issue?
