I wasn't sure how to upload the copy on my hard drive, but here are my comments. Nice job!

Thanks Kris! Here's the version of the protocol that the phthalates team is currently reviewing (from the phthalate SharePoint site). They are supposed to provide comments by COB Wednesday.

FYI I'm going to be on vacation next week (Nov. 4 – 13), but if we can get comments this week, I can try to clean it up for STICS before I leave. Otherwise, I'll get it in STICS as soon as I get back, or maybe someone else could do it.

Thanks,
Erin

It won't be a long process to get through STICS. And yes, send me the protocol – I will read before it goes into STICS (I shouldn't take me any longer than 1 week at most). I'll try to do much faster

Hi Kris,
We're close to having a complete draft of the phthalates systematic review protocol—the team is reviewing it this week, and then it can go into STICS. Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP)

Do you have any initial thoughts on whether it will be a long process to get the protocol through STICS? We were hoping that it might be (relatively) fast since it is for a manuscript, rather than for an IRIS assessment. We could also go ahead and send the protocol to management before it goes into STICS, if that would help expedite the process.

Thanks,
Erin
