Should I have Bill reach out to Jeff? He mentioned Keith Sappington doing something with PFAS

OPP has been working with Jeff Dawson in the OCSPP IO a lot on PFASs too, with Kerry Leifer in RD as our OPP POC.

Hold on. Talk to Sujatha. There are folks in OPP that are on point specifically for PFAS already.

Jan, Brian and Amy

Apologies for the repeated emails this morning but I wanted to get this in front of you since there is potential for this to move up the chain and across from OW to OCSPP I thought it wise to make you aware. Bill has been our point for OW on the CCL5 work OW is doing and this looks related to that, but also new.

Mark

Mark – here's the scoop. OW is looking into the definition of PFAS substances, beyond the one published by OPPT, for the purpose of water monitoring because they have already found some PFAS-like substances that were not in the 29 in the latest UCMR list. They agreed that Broflanilide meets one of their definitions. I pointed them to RD's list of recently registered chemicals so they can see if they missed anything in their CompTox Chemicals Dashboard searches. We agreed that OW, OPPT and OPP would have to coordinate to raise awareness of any new pesticides (and their metabolites) that might meet the new definitions, so that if OPP registers a new PFAS-like substance, OW is made aware at the AA level.

Sounds good. If you feel it may be going somewhere pesticide relevant at some point you may want to craft a summary to share with Jan

Subject: PFAS Definition Discussion

William,

Hello, my name is Charlie Collins II and am the newest member of the CCL 5 Team in TAB plus would like to coordinate meeting for us to discuss in further details about the PFAS Definition. CCL 5 Team is currently developing PFAS Definition options and would like to get your feedback on the PFAS Definition Options document that will be presented to the Division Director next week. Would like to set up a meeting for us to discuss at your earliest convenience and I will be sure to send out a scheduler after confirmation.

Any problems or concerns, please feel free to contact me

Thanks!

-Charlie
