Kelly,

I wanted to check back with you again to see if you had a chance to determine when you will be able to provide the rest of your additions to the Work Order appendix on possible references? Same question related to when you will be able to prepare presentation slides/materials for an upcoming teleconference with Argonne National Laboratory and EPA HQ, how long you would like that telecon to be scheduled for, and when your team would be available for that telecon. As we discussed during our 10/16 call with you, we are hoping to take your availability to ANL and set the date and time ASAP.

Many thanks,

Greg
