Hi Kerry
As promised, here is the draft review of Clarke's recent submission on the new containers
Let me know if you have comment/question.
Thuy

Subject: FW: Study from Clarke Submission Re Container Evaluation

Hi Thuy,

We received the attached report from Clarke in support of their proposed change in container type. Could ACB please comment on the acceptability of the test method protocols described in this report in ascertaining whether this container type would not have any PFAS migration into the container contents. This has been identified as a high priority action by our OPP Office Director.

Please let me know if you have any questions.

Thanks in advance,

Kerry

Subject: Study from Clarke Submission Re Container Evaluation

Kerry:

As per our conversation, attached is the study with MRID No 514364-03, "*Container Evaluation: Report of Results*" submitted by Clarke Mosquito Control Products, Inc. as part of the PFAS analysis.

Let me know if you need anything else.

Sincerely,
Maria
