Subject: DRAFT Followup from FMC OU Bi-Weekly call

Per discussion on yesterday's call, attached is the DRAFT revision of comments on the Gamma Cap Work Plan Addendum. I have attached both a marked-up and clean version of the revision.

The changes made were:

1. Change the date
2. Edit the discussion of sodium iodide energy dependence (for clarity) and move it into the general comments section.
3. Add a comment that the high purity germanium systems remain a possible alternative for measurements.

Subject: Reminder: FMC OU Bi-Weekly EPA, Tribes, IDEQ Teleconference about RD/RA Submittals---Today 11 am MDT

Today's teleconference will focus on the DRAFT EPA comments on the gamma cap work plan addendum sent to the Tribes and IDEQ last Friday, September 19th. The draft comments are attached to this e-mail too. Several of you already received an Outlook invitation from Ed Greutert. Here's that info again shown below.

Info for today's call.
