Thanks Paul!

Here are some responses and corrected summary sheet.

Subject: RE: PFAS cover memo

I have finished my first pass of the B21-02 PAC for the Anvil Product data.

I did not check calculations to the report (that was done by Yan and David), I only checked transcriptions.

I have a few questions/clarifications needed (in yellow) for my transcription checks to the summary report (see "Product samples" tab of attached spreadsheet).

Paul

Thuy,

I received the project folder yesterday for the Anvil Product and am hoping to finish my first pass of the PAC today.

All

We need to explain our data and why we think the fluorination process created PFAS. So I added a paragraph under Conclusions, in red for that. Please see if you agree and/or want to add anything else
I need this back before end of day today.
Ingeborg is added to this for a fresh new pair of eyes.
Thank you
Thuy
