Subject: RE: checking-in re: citizen complaints - All American Asphalt and Sun Valley Park

Hi Victor,

All American Asphalt
We received complaints regarding odors from All American Asphalt yesterday, and encouraged complainants to continue sending complaints to AQMD.

I can also see on the AQMD website that there have been some enforcement activity with issuance of a NOV for causing public nuisance. EPA will continue to encourage complainants to contact AQMD. If it's wort it to have any follow-up discussions between AQMD and EPA, then let's stay in communication.

Sun Valley Park
If there are any updates addressing Sun Valley Park complaints since September 2021, please let us know. I do see there is an ongoing investigation and there had been air monitoring of the Los Angeles Department of Water and Power Generating Station in Sun Valley. I'd be interested whether there are other sources where there are possible leaks in the area.

I've copied Roshni Brahmbhatt on the message to keep her in the loop.

Thanks,
Janice

Hi Victor,

I appreciate it. Let me know if it's worth setting up a meeting to discuss anything.

Thanks,
Janice

Hi Janice,

Thank you for reaching out. I'll check in on these two items and get back to you soon. Also, I'm adding Terrence Mann to this email. Thanks.

Victor

Subject: checking-in re: citizen complaints - All American Asphalt and Sun Valley Park

Hi Victor and Kevin,

I'm contacting you to check on a couple of items.

1) In early and mid-November 2021, we communicated about citizen complaints regarding All American Asphalt. EPA received another complaint this month about All American Asphalt, and I'm wondering if there has been any further development in addressing the complaints since we last talked. EPA will get back to the complainant(s) after we have a had chance to follow up with you, as EPA is weighing its options on next steps.

2) EPA had received a complaint about air quality from sources in Sun Valley Park, CA. I believe SCAQMD received the same complaint in September 2021. Has SCAQMD looked into the facilities, such as the recycling facility, there and found issues? If possible, I'd like to see if you could share any inspection reports. EPA is interested in looking in the area to conduct inspections, and invites coordination with SCAQMD.

Thanks,
Janice
