Subject: RE: Inquiry Gale Lim Construction [Senator Risch]

This is a complaint against Chicago, Bridge, and Iron (CBI). FMC has retained CBI as a remedial action construction contractor for grading phase work at the Eastern Michaud Flats (EMF) CERCLA site near Pocatello, Idaho.

EPA's role at the site is to ensure that FMC implements the 2013 Unilateral Administrative Order to implement the 2012 Interim Record of Decision Amendment for the FMC Operable Unit. EPA does not have a business relationship with FMC, CBI or any of its contractors.

I was alerted about this complaint against CBI in a telephone conversation initiated by Sheri, of Gale Lim construction, November 26, 2014. During our conversation I explained EPA's role to Sheri, and suggested that the complaint she described be directed to CBI or, perhaps, FMC.

As referenced in the constituent complaint, EPA issued a Notice of Violation (NOV) against Gale Lim construction in 2013. That NOV is attached for reference. I've copied Bill Todd and Don Dossett with EPA's Air Program in the event that you need background information about the 2013 NOV and its resolution.

Matt, this is the letter we discussed that you confirmed needs to go into CMS. The appropriate folks to work on the response are Beth Sheldrake and Jonathan Williams in ECL. The response is to go to Renee Richardson, and I would like to send it to her by email as well. —Cindy, x. 1815
