Adam and Jena,
Would Thursday and Friday March 24th and 25th work for the inspections? We will conduct one on Thursday afternoon and the other on Friday morning. Let us know how that would work for you. Thanks

**Subject:** RE: Pending DE Complaint Inspections LAWSON RD & INLAND BAYS POTW SPRAY FIELDS
Hello Everyone,
Considering the potential for reduced visability of ground surface (due to snow) which would impede our inspection and considering that transient/sporadic activities which are supected at Lawson Rd usually cease operations during the months of Jan and Feb, my concern is we could come away with a false negative (no observations which indicate reason for concern) regarding discharges or impacts. Id rather avoid the scenario (as best as possible) where we come back from the inspection and report that we observed nothing of concern, then subsequently receive photos the followng week, or month, from a citizen which show reason (discharges/impacts) for concern. As a result, I am in agreement with postponing the inspections.
I am wondering if we should wait until March, since that is when outside operations usually resume. I will schedule a call for all of us tomorrow at 10 am (I think we should all be free) to discuss.
Thanks for your time, it is appreciated.

I'm fine with postponing. I'm out January 28th if we need to look at next week for scheduling.
Thanks,
Adam

Hello!
I did not even know they were calling for snow (and the chances of precipitation are fairly high). Thank you for bringing that up. For everyone's safety and being able to see what we are going to look at, I think it would be best to postpone. Is anyone opposed to this?
Thank you,
Jena L. Saxton

Good Afternoon!
Just wanted to follow up and make sure we had a solid plan in place for Thursday.
If we go with our previous agreement we will be meeting at Thurman Adams State Service Complex (546 S. Bedford St., Georgetown, DE 19947) next to the DelDOT yard at 10:00am.
Does this still suit?
Thank you,
Jena L. Saxton

Hi Everyone,
The 19th is the meeting for our Governor's appointed recycling committee. I would prefer the 20th and 21st if that's possible for everyone else.
Thanks,
Adam

That sounds good by me. Lets make it 1030 in case we get a little lost. My cell is Ex. 6 Personal Privacy (PP)
One of your cell numbers would be useful in case we need to re-route or need to be coached to our meeting point.
Thanks and we look forward to working w you.

Hello,
I looped Adam in (he will be attending from WHS). I do like Jason's idea of meeting somewhere that is perhaps easier to find.
What are you thoughts Chuck and Peter?
Tuesday, December 21, 2021 meet at Thurman Adams State Service Complex (546 S. Bedford St., Georgetown, DE 19947) next to the DelDOT yard at 10:00am?
Thank you and have a great weekend!
Jena L. Saxton

A bit farther away but right off the Rt 113 is the State Service Center next to the DelDot yard near to Georgetown (intersection of Rt113 and Rt 9/S Bedford St). May be easier to find and get to. The church is certainly closer though.

I am not super familiar with the area of the Lawson Road activity but on maps it looks like there is a Zoar Church off of Zoar Road nearby.
We could all meet there at 10am and travel to the Lawson Road property. Jason, do you have any ideas of other places to meet in the area?
Thank you,
Jena L. Saxton

Hey folks, Id like to insp the Lawson Road activity first, since it is more unkown at this point, and reserve the afternoon for the Inland Bays operation. I think Pete and I can meet you folks at 10 am. Do you have a place w can meet prior to going to Lawson Rd ?

We are fairly flexible. Would you be going to the wastewater facility first then the Lawson Rd property? I believe the potential for solid waste issues was at the Lawson Rd property only. We can certainly accompany you to both sites if that works better for timing.

Good Afternoon Chuck!
Attached you will find the facility's draft storm water plan. We currently have a few comments out to the facility about it.
Cody and I discussed a time and we are fairly flexible. Would you guys want to meet between 10 and 11?
Jason, what does your schedule look like?
Thank you,
Jena L. Saxton

Hi folks,
Id like to coord w you regarding inspections of these 2 acitvities. What time frames are you thinking ? We have a little bit of hike, but we will try to get there early . Do you have any background info we can read before the inspection ?
Thanks for your time, it is appreciated.
