Subject: FW: Permit file for NM facility

Can you check with NMED to see if this facility has any minor NSR permits.

Subject: Permit file for NM facility

Jeff,

Can you please get the permit file for Sterigenics facility in Dona Ana County, NM? Still reviewing facilities that showed up for ethylene oxide in the NATA review. In talking with NMED, they are not a Title 5 facility, and NMED could not confirm emissions numbers because NMED doesn't require facilities to report emissions unless they are a Title 5 facility. Nevine is reviewing the permits files for us.

Thank you,

Cindy
