Subject: RE: TAV Records and Data Update and Discussion

Bob,
Yes, please include all sampling records for any material related (stored, received, sold, released, etc.) to/from TAV Holdings. This must include all analysis and results for samples taken by TAV or any third party.

This must include all sampling data as the Request for Information stated: "5. Please provide all sampling data TAV has collected, or another has collected on its behalf, on material received, stored, or released (spilled, sold or otherwise left the property) from its Facility operating at or near 111 Hollow Tree Lane or 3320 Empire Blvd, in a Microsoft Excel, or Access format." If you do not have this data in a sortable format such as excel or access, a pdf report is fine. These reports must include all pages.

TAV's response to item 3,5 or 6 should have included any and all sampling conducted on material managed by TAV. This must include all third party sampling analysis/results, including but not limited to any TCLP analysis. Particularly any sampling and analysis of which TAV's corporate officers have knowledge of, and/or procured.

TAV must resubmit its certification related to this response.

Thanks,

Brooke

Subject: Re: TAV Records and Data Update and Discussion

Brooke, See attached updated information as requested. We will have the link updated by the end of the day. Also, regarding some other questions you posed last Friday PM:

1. The 3rd party test reports or TCLP analysis that Mr. Valerio referred to you during your last visit where you spoke with him were presented to you by Mr. Valerio during that discussion. If you want these reports added to the link, I will do so. Additionally, Mr. Valerio told me that there are no additional 3rd party reports. If you need to speak with me to clarify specifically what you are seeking, please let me know.
2. Regarding the absence of sampling results for metals after the date of 11/2020, I have not been able to confirm that this information is missing. When reviewing the data on the link, TAV was able to find information between 11/2020 and 10/2021. See attachment of screen shot. If we can assist with helping to identify this information, please let us know.

Thank you, Bob

Mr. Brewer,

Location should be defined as physical location. The expectation is the physical address or specific GPS coordinates.

Thanks,

Brooke York

Subject: Re: TAV Records and Data Update and Discussion

Brooke, Please see below an advanced copy of the supplement to the RFI for item #1. The link will be updated by the end of the day. We are working this afternoon to get you the answers to your questions regarding the "3rd party analysis or TCLP analysis,....and the sampling results for metals after 11/20/20." Thank you, Bob

Mr. Brewer,

Thank you for providing the response. I have completed an initial review of the response for completeness. In this initial review I noticed that no location has been provided in response to item 1. In response to item 3, 5 or 6, no 3rd party analysis or TCLP analysis has been provided (Mr. Valerio indicated that those have been conducted), and no sampling results for metals were provided for any samples since 11/2020. If I have overlooked this information I hope

you will be kind enough to walk me through TAV's response and show/tell me where to find this information. Thank you for your time.

Thank you,

Brooke York

Mr. Brewer,

I have not received TAV's response to the EPA's request for information that was due yesterday. Was the response sent?

Thanks,

Brooke

Subject: Re: TAV Records and Data Update and Discussion

Brooke, TAV is working hard to collect the information requested and plans to have it by Thursday to send as directed. TAV is not planning to send anything early, but would like to keep the call on Tuesday on the calendar in case there are questions that may arise before the response is finalized. TAV is happy to go ahead and schedule something for the following week after you have had an opportunity to review the information collected in case any questions arise. Thank you, Bob Brewer

Mr. Valerio,

I am writing to touch based with you about the meeting tomorrow. I have not received any additional information from TAV. The due date for TAV's response to the Request for Information is this Thursday. Mr. Brewer has reached out to me. I am available to meet tomorrow afternoon if TAV has questions regarding the information or would like to go over some of the information together, as planned. Please confirm that is still the plan. If you have information that I need to familiarize myself with prior to the meeting please forward by tomorrow at 9 am. If this meeting is better postponed until next week please let me know and we can work out a time that works.

Thanks,

Brooke
