Subject:	Re: Comments on ANL"s Review Parameters and SBT Comment Reconciliation
Date:	Friday, January 09, 2015 6:41:55 PM

Kelly,

We have a mtg all day 2/3 on Gay Mine.

Kelly et. al.,

Thanks again for the comments on Argonne's proposed Review Parameters and Definitions you sent us on 12/19. We had an opportunity to review them, as well as complete EPA HQ's comments on the same Argonne deliverable. Attached you will find EPA's comments on Argonne's Parameters and Definitions in the form of proposed revisions that we believe also address/incorporate your comments. I've also attached EPA's 'response' to your comments, which are intended to identify where EPA agrees with your comment and to provide some additional clarification or reference to EPA's proposed revisions to Argonne's deliverable.

Please take a look at the attachments. **EPA requests that you indicate whether you agree that our proposed revisions to Argonne's deliverable are reasonable and would adequately incorporate/address your comments. If you do not agree, or otherwise if you believe the Tribes and EPA HQ need to discuss the comments, please let me know when you would be available for a 1 hour conference call with us. Once we have agreement, EPA HQ will provide both of the attached documents to Argonne with direction that they should revise their review parameters and definitions consistent as indicated or request a conference call with the Tribes and EPA to discuss any disagreement or questions they have.

Finally, so far Argonne has identified **Tuesday, 2/3 from 10a-2p ET and **Friday, 2/6 from 10a-2p as available for a conference call/meeting where the Tribes can present information and perspectives relevant to the ETT Independent Review to Argonne. I intend to have a list of days/times to you on Monday at the latest. We are still working with Argonne to identify additional days and times that would work for both Argonne and EPA HQ for your consideration. In the meantime, if either 2/3 or 2/6 of these will work for the Tribes, please let me know right away so we can finalize the schedule. I intend to have a list of additional days/times to you on Monday at the latest.

Best,

Greg
