Attachments: RDR D 2-28 LIMITS OF STRIPPING.prj

Jonathan: As requested, the .prj file for the Limit of Stripping Surface depicted on RDR Drawing 2-28 (Western Undeveloped Area soil borrow) is attached.
Please advise schedule, names and number of visitors for the survey work scheduled for next week. If we have their names, KW can let the gate security know that they are expected and can proceed to the Training Center. All new visitors will need to receive FMC's visitor safety training which we can schedule for the expected arrival date/time. Thanks, Rob

Thanks. BAH has received and reviewed the requested information from the Idaho SHPO.
Looking ahead, BAH would also like to have the corresponding .prj files for the cultural resource survey work scheduled next week. Thanks.

Jonathan: Both of our Civil 3D designers are busy right now. Sent urgent notice for shape file for planned WUA borrow (RDR Drawing 2-28, "Limit of Stripping Surface"). I will forward when received. Thanks, Rob

Subject: GIS shapefile for proposed WUA excavation area

Marjo, Rachel, and Rob:

The Idaho SHPO is requesting a GIS shapefile of the proposed excavation area within the WUA as part of a records search. BAH can provide that to the SHPO but believes it would be faster if FMC already has one available.

Please advise. Thanks.
