Yeah that would make sense, but we'll see what Jackie says.

Perhaps limiting it to things like the rough size of the facility/company, location, processing type (cryogenic vs ambient), dates of tours. These visits were all supposed to be for our education only so that's what it is important we emphasize. I'll send a separate note to Jackie in a moment.

Hi Jackie,

Sounds good. We do have notes from [redacted] and Chris has put together his notes from Ex. 6 Personal Privacy (PP) [redacted] too, that I will be adding to, tomorrow. Once you know the level of detail CDC wants, we can scrub those down for Thursday. Does CDC want something on [redacted] facilities, too?

Welcome back! Hope you all had a good visit to [redacted] There was a call today held by CEQ and I have 2 action items from that meeting:

- I will be adding some overall EPA updates to CDC's summary of progress to date and will let you all take a look to make sure that I did not miss anything.
- We need to have a separate document that summarizes the visits to the 3 facilities. I don't really know the level of detail needed, but hopefully I can work with you to make sure that we provide at least a paragraph on each of the 3 processors, with some background info.

Both of these need to be sent to CDC by Thursday. I will check in with Ksenija tomorrow.

One last thing: once we have a definite date and time for the turf installer visits, I'd like to let CDC know, in case they want to come. So let me know as soon as you know.

Thanks!

Jackie
