Monica,

Was this one for governments only? I think I am confused.

Jackie

Subject: April 14: Public Webinar on the Federal Research Action Plan on Recycled Tire Crumb Used on Playing Fields and Playgrounds

Please feel free to share this webinar announcement with your networks. This webinar also will be recorded and posted on EPA's web site: www.epa.gov/tirecrumb

Federal Research Action Plan on the Use of Recycled Tire Crumbs on Playing Fields and Playgrounds Webinar

What: Free webinar on the *Federal Research Action Plan on Recycled Tire Crumb Used on Playing Fields and Playgrounds*

Who: Presented by U.S. Environmental Protection Agency (EPA), the Centers for Disease Control and Prevention/Agency for Toxic Substances and Disease Registry (ATSDR), and the U.S. Consumer Product Safety Commission (CPSC)

When: April 14 from 9-10 AM Eastern time. To register for the webinar visit: http://www.eventbrite.com/e/webinar-federal-research-action-plan-on-the-use-of-recycled-tire-crumbs-tickets-24352979417.

Background: On February 12, 2016 the U.S. EPA, (CDC/ATSDR), and the CPSC launched a multi-agency action plan to study key environmental human health questions. This coordinated *Federal Research Action Plan on Recycled Tire Crumb Used on Playing Fields and Playgrounds* includes outreach to key stakeholders and seeks to:

- <!--[if !supportLists]--><![endif]-->Fill important data and knowledge gaps
- <!--[if !supportLists]--><![endif]-->Characterize constituents of recycled tire crumb
- <!--[if !supportLists]--><![endif]-->Identify ways in which people may be exposed to tire crumb based on their activities on the fields.

The Federal Research Action Plan includes numerous activities, including research studies. While additional research questions may require evaluation beyond this year, the information will help answer some of the key questions that have been raised. By late 2016, the agencies will release a draft status report that describes the findings and conclusions of the research through that point in time. The report will also outline any additional research needs and next steps. For more information, visit the Federal Research Action Plan website: www.epa.gov/tirecrumb .
