Subject: FW: Laytonville Landfill - Issue for CalEPA/CalRecycle
Attachments: FW: Important Discussion - Laytonville for Damian; RE: Laytonville Landfill Question

FYI,
The Laytonville landfill is heating up for CalEPA and CalRecycle. Bradly Angel is representing the Cahto Tribe now and he appears to be asking CalEPA/CalRecycle for additional sampling at/around the landfill and consideration of clean closure. Zoe Heller in her new CalRecycle role is getting pulled into it and asked me for some background information on the review we did in December/January. I forwarded her a copy of the report we were asked to review in December last year and the analysis of it that Kathy Baylor did of that report. (Both the report and Kathy's review are in the attached emails).

Here's a quick snip from Kathy's review:

> Five soil samples and three groundwater samples were collected and analyzed in 2016. Although this was a relatively small data set, the analytical results provided in the report (mostly minor hits of metals) and the site history do not support the contractor's proposed scope of work for further investigation. The contractor, Ahtna Facility Services Inc, has proposed an extensive soil and groundwater site investigation (pages 8-16) that does not appear warranted based on available data and history for the site.

Subject: Laytonville Landfill contractor report

Hi Steve,

Great talking to you earlier this week!

Laytonville is heating up here. Tribe's requesting sampling. Any chance you can share the contractor report?

Mark and I are briefing the director tomorrow am.

Thanks,
Zoe
