Subject: Heard back from Sims on 8/29 meeting focus

Fyi... Based on Sims email below (from Melisa Cohen), Sims with Terraphase is preparing for the 8/29 mtg to address our concerns and expectations... even though vague about it at this point.

Juliet

Thanks for your email and Sims appreciates the clarification on EPA concerns and expectations. The Sims team is working with Terraphase to prepare for upcoming meeting and will ensure we are prepared to discuss the items listed in your email.

Please note I will be on PTO through 8/24 but will have phone access and will be checking email periodically so if there is anything else you need in the interim, let me know.

Regards, Melisa

Subject: 8/29 meeting focus

Melisa,

We recently received from your consultant the supplemental grab sample results from along the north and south riprap intertidal area. We appreciate the cooperation of Sims and your consultants throughout the development and implementation of the Sediment Sampling and Analysis Plan. We look forward to meeting with you on August 29, 2017 at 10 am to discuss all of the Sims's Redwood City sample results, and the next compliance measure, the Sediment Remediation Plan. For our meeting on the 29th, we would appreciate Sims describing to us the type and extent of remediation you propose at the site. We have reviewed the sample results and can provide feedback to your proposal(s) during the meeting. Ideally, our discussion on the 29th will help Sims effectively and efficiently develop and implement the SRP.

Sincerely,

Juliet Hannafin
