I can try to find a date sooner, but that was the first date that everyone was free. Ed's schedule is almost always full and he requested this meeting. In light of the high level interest in this issue, I was probably overly ambitious in indicating the turn-around time on the letter. It will be longer than 3 days from receiving the letter but to the extent we can resolve issues before then, we can expedite the response.

I'll ask Ed if he has a date sooner.

We had been talking about a 3 day turn around from getting the letter. Based on this timing it looks like we would be looking at no earlier than March 16th. Is that right?
