Thanks Bill,

I just spoke to Mike Alpern, R9 OPA Director, who has been in contact with his counterpart at DTSC. Julia Giarmoleo will be the R9 OPA staff lead for this and I am copying her (and our California Sites AD Dana Barton).
We look forward to working with everyone on this.
Thanks
John

Subject: Exide
Importance: High

Hi Everyone,

As you may or may not know, R9 recently let us know that California is getting ready to send EPA a letter requesting that the Exide facility and residential area be listed on the NPL. Brigid and I spoke about this and we need the following:

- Helen/Devon – Would you please connect with the R9 comms folks and see what's going on with the comms package? This may happen quickly and we may get questions about our lead policy as a result. I'm not sure everyone knows this yet but the R9 RA is planning to go to LA next week and may be talking to the LA Times.

- Jen – Can you put together a briefing sheet that highlights the main issues for the site that Larry and Dana can use for discussion?

- Jen - Larry and Dana plan to send Carlton and Barry an email to alert them maybe tomorrow. Can you also pls draft language for an email they could send?

We plan to discuss with Carlton and Barry during the Hot Sites meeting next Wednesday.

Thanks everyone!
Bill
