Hi Rupika,

Attached is one of the older versions of the Residual Eco Risk Assessment Memo (Appendix C of the FS). It includes the figures and tables that (I am assuming) were not updated in the later versions/drafts.

Please let me know if this is what you were looking for. Sorry for the delay in getting this to you.

Thank you,

Supinder

Betsy, Supinder, Stephanie, and Mike –

Please find attached a PDF of Integral's revised Technical Memorandum that discusses residual ecological risks for three of the alternatives under evaluation in the FS for the Rolling Knolls Landfill. This incorporates agency comments to the draft Technical Memorandum.

Please let me know if you have any questions.

John
