Summary of Conversation:

I spoke to Mr. [redacted] when he let us in to the Scandinavian Building so that we could take an inventory of Recycletronics items in the space leased by Recycletronics. This information was inadvertently left out of the April 4-5, 2017 inspection report.

I asked Mr. [redacted] if he had any business relationship with Mr. Rochester other than leasing him this space and he said he did not. He also told me this was the only space he is currently leasing to Mr. Rochester.

Exemption 6: Personal Privacy.

He said that Mr. Rochester does pay his rent, but not always on time. He asked if he (Mr. [redacted]) would be held responsible for the stuff in the space and I told him that I really couldn't answer that question and that EPA hopes that Mr. Rochester will properly dispose of all of the wastes himself. I did explain to Mr. Shumansky that the costs of disposal for all of the materials/wastes may exceed what Mr. Rochester has available to him.
