Subject: FYI - draft language in ND Se regs

Hi Andrew, just keeping you in the loop on this issue. I think the language in the two selenium criteria footnotes in ND DEQ's proposed WQS that OW proposed look good and I asked Mario to let me know when I can send the draft language to Pete Wax at NDDEQ for his review. If you have any comments on the footnotes, please let me know. Thanks!

Also, I'm preparing a summary of our call on Monday that I intend to circulate soon for OW's review to make sure I captured the discussion accurately.

I hope the NEPA training is going well.

Have a great evening,
Holly

Subject: Revisions to ND Se regs

I cleaned up Footnote 4 in Table 2 and added Footnote 17 in Table 1 per the group edits. Here is the clean version. If folks want further revisions, I can upload this to a OneDrive site.
