RE: Approval of the Vapor Intrusion Work Plan Implementation Report Dated March 27, 2018, for the Solutia - J.F. Queeny Site, St. Louis, Missouri
EPA ID # MOD004954111

Dear Mr. Rosen:

The U.S. Environmental Protection Agency Region 7 in consultation with the Missouri Department of Natural Resources has completed its review of the subject document and is providing their approval with the understanding that either semi-annual indoor air monitoring will be performed or a vapor intrusion mitigation system will be installed at the Ahrens office building.

Please contact me at (913) 551-7755 if you have any questions concerning this approval and understanding of the path forward to address potential vapor intrusion at the Ahrens office building.

Sincerely,

Bruce A. Morrison
Project Manager
