Subject: COGCON Change - Presidential Inauguration

Please click here to acknowledge receipt of this message

In preparation for Wednesday, January 20th's Presidential Inauguration, the White House has directed that Continuity of Government Condition level three, also known as COGCON level three, be implemented no later than 8:00 AM on January 18th. Select Emergency Relocation Group personnel should be prepared to deploy to the COOP facility or telework from home within eight hours if directed. No actual deployment has been directed at this time. Once again, the White House directed COGCON level three to be implemented. Thank you and have a pleasant day.

For more information, please visit the EPA Mass Alert and Notification (MANS) intranet page. If you have any questions, please reach out to your local MANS Administrator.
